So happy and in love: Theo and Lena enjoy life when travelling. Our BOXSTAR models mean that they don't just travel with a great deal of spontaneity, but also in extreme comfort.

# YOUR FREEDOM IS OUR PHILOSOPHY

Since 1960 KNAUS has unswervingly devoted itself to making unforgettable vacation moments come true. We combine what is proven with what is new with all our experience and the courage to strike out on new paths. In production, we build on Lower Bavarian craftsmanship, whilst in the development of new vehicles we focus on state-of-the-art construction and production techniques. This combination of proven principles and innovative ideas makes us one of the most successful brands in the industry. Not to mention the #Number 1 for our customers.

# HOW A KNAUS IS MADE

KNAUS vehicles are popular and in high demand. In order to handle such high demand, and also to maintain our quality standards, we invest sustainably in our production sites. As well as the headquarters in Jandelsbrunn and the production site in Mottgers, Hesse, KNAUS invested in a state-of-the-art production facility in the Hungarian town of Nagyoroszi in 2015.

Thanks to the modern multi-line, we can flexibly react to the demands of the market and produce exactly those vehicles that are in demand at that moment. We have stringent demands on the production quality of every single aspect of the vehicle in our workshop.

# HOW WE BECAME WHO WE ARE

From a Lower Franconian caravan factory to one of the most important brands in the industry: Company founder Helmut Knaus set new standards in 1961 with his first caravan, the legendary Schwalbennest. A pair of swallows as a logo is now indelibly linked with the most appealing kind of vacation possible.

1985

1988

**1960** Helmut Knaus founded KNAUS in Marktbreit, Bavaria.

**1961** The KNAUS Schwalbennest appears on the market - compact, comfortable, and lightweight.

**1962** An icon was born. The KNAUS SÜDWIND celebrates its première.

**1970** The beginning of a new era: our factory in Jandelsbrunn is built up.

**1973** For his courage and pioneering spirit, Helmut Knaus was awarded the Bundesverdienstkreuz.

**1985** Things grew quickly. That could also be clearly seen with the new logo.

**1988** The TRAVELLER became the first KNAUS motorhome and was the Promobile "Motorhome of the Year".

**1996** The Travel Liner means we now have fully integrated motorhomes in the product range.

**2004** The SUN TI impressed vacationmakers with its large panorama skylight.

**2005** A genuine success story begins. Finally, KNAUS quality can be seen in a camper van.

**2013** Our camper vans celebrate 25 years of success.

**2015** With the SUN I, we make a strong comeback in the liner segment.

**2016** The new generation of Germany's most popular partially integrated motorhome came on the market: the SKY TI.

**2016** We are revolutionising an entire industry. THE MISSION is the path to the future.

**2017** With the BOXDRIVE on a VW Crafter, KNAUS presents the first Caravanning Utility Vehicle; in short: CUV.

# IDEAL TECHNOLOGY FOR HAPPY TRAVELS

Every KNAUS camper van is fitted with well-designed details that make a vacation even better. From the practical closing aid to the automatic side step, we ensure that every day is a relaxed one.

## 1. INSULATION <sup>1</sup>

Every KNAUS camper van is insulated such that it is especially free of thermal bridges. A 12mm polystyrol EPS panel is laid down on the floor, whilst walls, ceilings and the rear doors feature 16mm thick polyethylene panels that are bonded into position and are resistant to rot. This means there are no hollows where water could collect.

## 2. DRIVER'S CAB <sup>3</sup>

The multi-part driver's cab provides protection from prying eyes as well as a pleasant option for cutting out light for the evening. The high-quality pleated blind for the windscreen and the side windows is easy to use.

## 3. NAVI WITH CAMPING SOFTWARE <sup>3</sup>

An entertaining, stress-free journey is also part of a relaxing vacation. This is provided by our new Pioneer navigation system. With an intuitive multi-touch user panel, maps for 44 European countries, DAB+ receiver, Apple CarPlay, Android Auto, Parrot Bluetooth hands-free system, and optimum sound through to 13 band equalisers, it has everything you would expect from a modern multimedia navigation system. This also includes 3 years of free map updates.

## 4. FLY SCREEN DOOR <sup>1</sup> & STEP <sup>3</sup>

It boils down to the details. These include, for example, the integrated fly screen door or the optional electric step, which automatically retracts if forgotten before driving off.

## 5. CLOSING AID FOR SLIDING DOOR <sup>2</sup>

An additional handle is mounted on the inside so that the sliding door can be easily, and above all, gently closed.

## 6. ISOFIX CHILD SEAT FASTENER <sup>3</sup>

If children are to take part on the journey or are simply en-route, then it goes without saying that they should be absolutely safe and ideally protected. For this reason, we provide ISOFIX child seat fasteners in all camper vans.

## 7. EXCELLENT TWO-LAYER COLD FOAM MATTRESSES <sup>1</sup>

A restful sleep is one of the most important things on vacation. We know that, and have developed our comfortable cold-foam mattress for that purpose. With a 2-layer design, these are amongst the best you will ever find in a camper van.

## We don't build castles in the sky, instead we build furniture that creates a pleasant atmosphere

The expectations made of the furniture in our camper vans are very high. They are not just met with pleasing designs and a great deal of storage space either. Durability, intelligent construction and technology that impresses for as long as you own it – those are our standards.

### OPTIMAL ATMOSPHERE

One thing always comes as standard in our camper vans: A genuinely pleasing atmosphere. As simple as that sounds, there is a great deal of work behind it.

#### Soft-touch panelling:

We use open-pore soft-touch moulded parts or foam-lined stretch fabric in sleeping and seating areas in all our camper vans. Such soft surfaces don't just feel warmer and more pleasant compared to typical hard plastic panelling, they also prevent condensation from gathering on the surface.

#### Insulation & furniture fitting:

Our designers, when building camper vans, aim to create a great atmosphere in a compact space. This is why we use innovative solutions in fitting furniture and insulation that is resistant to rot.

2

5

(Illustration similar)

## 1. SOLID FURNITURE <sup>1</sup>

What does that mean? Furniture in our camper vans all have a solid rear wall - meaning a particularly solid structure. They are not, as is generally typical in the industry, fixed flush with the vehicle bodywork, which assists development of condensation, but are an independent unit in themselves. This also ensures that the furniture is perfectly integrated into the structure. They fit perfectly into the overall scheme of the vehicle, being torsion-resistant, solid, and stable, whilst also ensuring perfect quality even after many years of service.

## 2. STABLE SOFT-CLOSE FULL-EXTENSION SLIDES <sup>1</sup>

Due to the full-extension slide, the ball-bearing mounted drawers from GRASS, a leading supplier, slide out so far that they can be filled or emptied easily right to the very back of the drawer. They are precisely guided and close gently.

## 3. SCRATCH-RESISTANT HPL/CPL SURFACES <sup>2</sup>

High pressure laminates and continuous pressure laminates are laminates that are specifically used for heavy loads such as in kitchens. The multi-layer construction is produced under extremely high pressure, then sealed with an exceptionally robust surface layer. This makes our work areas and tabletops (always HPL) and furniture fronts (CPL, depending on model) particularly scratch-resistant.

## 4. ADJUSTABLE SOFT-CLOSE DOORS <sup>1</sup>

The cupboard doors are fitted with quality soft-close hinges so that they always close quietly, regardless of how much force was used to close them. This is for the entire life of the vehicle, and probably beyond. If a door doesn't do what it really should, then the hinge can be easily adjusted if necessary.

## 5. SOLID DOWELLING TECHNOLOGY <sup>1</sup>

Our furniture is joined using elaborate dowelling as standard. This means we achieve great precision in fitting, as well as a considerably more stable furniture construction so that your furniture will still serve you well even after many years.

# OUR BED VARIANTS FOR DREAMING ON

Every single centimetre is ideally used in our camper vans. Furthermore, it's just how you like it. For example, the generously-proportioned single beds, which can be extended as longitudinal berths at the back to a large reclining area.

- 1. Extending single beds.** The longitudinal berths at the back can be easily extended to make a large reclining area.
- 2. Practical wardrobe.** Comfortable single beds, a vehicle length below 6m, and still space for a practical wardrobe? Intelligent vehicle construction make it possible. This example is from the BOXSTAR 600 LIFETIME.

**SINGLE BEDS**

## Our invitation for night owls & contrarians

Our transversal beds are particularly space-saving and offer you even more storage space in the back. The comfortable dimensions mean you have enough space to stretch out or to curl up, just how you like it.

BOXSTAR 540 ROAD

BOXSTAR 540 ROAD

- 1. 2-layer cold foam mattress.** The quality mattress provides an ideal foundation for restful nights.
- 2. Large storage space.** The space beneath the rear beds is always optimally used in our camper vans. Also, if even more storage space is required, then the divided slatted frame can be simply folded up in the middle, or the entire bed can be removed.

**TRANSVERSE BEDS**

*The spacious transversal bed becomes somewhat wider at the bottom in most layouts*

## This is how we define excellent sleep comfort

Do you need more than two beds? No problem. Our optional lifting beds can be very easily retracted or extended. Whether with a high roof or not, we have the ideal variant for every layout.

- 1. Sleep with a view.** The optional Midi-Heki skylight grants a perfect view of a starry sky and direct access to fresh air.
- 2. Space-saving.** The lifting bed at the back can be easily retracted and folded upwards during the day, and lowered a long way down in the evening. This ensures it can be accessed without a ladder.

**LIFTING BED AT BACK**

# BATHROOMS WELL PREPARED FOR THE DAY

Straight out of the shower, off on a voyage of discovery. This process becomes the most pleasant morning routine in the whole world in our open bath. As we use the passage to the bed, you can enjoy a particularly large shower cabin.

- 1. Optimal drainage.** In the open bath, the bathtub is set into the floor and has a total of four drains so that water can still drain away even if your KNAUS camper van is not on level terrain.
- 2. Excellent use of space.** The passage to the bed is used with the open bath in order to achieve maximum freedom of movement.

**ROOM BATH**

## A modern classic: Our compact permanent bath

You can readily do without clinging shower curtains. That was what we thought when we designed our patented shower curtain with integrated air hose. This means you can enjoy your bath undisturbed.

- 1. Multi-functional.** The tap on the washbasin can be pulled out so far that it also acts as a shower head.
- 2. Patented KNAUS shower curtain.** The inflatable air hose is sewn in and keeps the shower curtain in the bath away from the body at a distance.

# WHAT MAKES THE 2BE SO SPECIAL?

It is our response to the demand for a particularly spacious and flexible 2-person layout. Instead of the usual kitchenette-bench combination, the 2BE models present a new kind of generosity. Depending on your wishes or requirements, it can be used as a storage area, an office, or a dining area.

## Slept well?

A question that Lena and Theo have no need to ask. The two-layer cold foam mattress ideally moulds itself to the individual lying position.

**1. Generous storage space.** There is always enough room for luggage beneath the comfortable single beds. If more is required, then the slatted frame can be folded upwards, resulting in a huge loading volume.

**2. Innovative open bath.** Fixed shower cabin, rotating WC, and plenty of freedom to move. More comfort in a camper van is not possible.

# BOXLIFE

## *MODELS*

#NUMBER 1, BECAUSE THEY...

**are sporty all-rounders**  
that ideally combine living and  
transportation.

Anja and Max are thrilled with the BOXLIFE models as it can easily fit in so much vacation fun such as when mountain biking in Switzerland.

# WHAT CAN FIT INTO A BOXLIFE?

Whatever you like. Due to the well-designed construction, you can also store extremely bulky objects securely in the spacious transport area. It also means there is no need for luggage racks.

**1. More storage space.** By simply placing the heating and electricity supply beneath the bench in the living area, you have much more storage space in the back.

**2. Maximum number of beds.** The compact structure of the 540 means the optional lifting bed at the back can be combined with a single or bunk bed to create full sleeping areas for three or four people.

BOXLIFE 600

## It is so simple to create a space miracle from a bedroom

How can space be used most efficiently? Simple: by designing it with several functions. Why should a bed always remain in one and the same place, when it can readily be moved for other things that are just as important to you?

*Lower the lifting bed to relax*

*Do you require greater storage height during the night? Not a problem, as it can be readily adjusted*

### **1. From a bed to a bicycle garage.**

The lifting bed in the back of the 600 and 630 models can be manually or optionally even electrically adjusted and simply moved up and down.

### **2. Space for extremely long items.**

The partition wall to the living area can be easily removed. This means you have a convenient storage space for transporting extremely long objects such as fishing rods or paddles.

**Always the right size.** Anja and Max are thrilled with the design of the 540. As it is extremely compact they can travel wherever they fancy: Simply go out and enjoy the late summer sun.

BOXLIFE 540

*A kitchen size unmatched for a camper van below 5.40m in length*

### *My Tip*

Johann Hanusch, Product Manager  
KNAUS camper vans

**„My clear recommendation: diesel heating.**

In order to create storage space, we have deliberately made the gas bottle smaller. Hot water and heating with diesel, cook with gas. This gives you greater independence.“

**The little van with loads of space.** It is so great that everyone has their own space to relax. Also, if someone discovers something interesting, they can instantly share it with the others.

**1. Spacious living room.** The space-saving single bed (bunk bed optional) ensures that the seating group is particularly spacious with a sense of space never previously experienced with a camper van under 5.40m in length.

**2. Additional storage space.** The compartment above the front seats provides even greater flexibility.

## LOUNGE OVERVIEW

## KITCHEN OVERVIEW

540 kitchenette

**When cooking isn't a hassle.** That's when your vacation is perfect. Also, due to the large sink even washing up becomes a shared event.

**1. Innovative kitchenette.** The drawers can be opened in both directions. Both the inside and outside merge into each other.

**2. Practical kitchen shelf.** Every corner is ideally used and your utensils are well protected.

BOXLIFE 540

Due to the optional lifting bed at the front, up to 4 beds with an external length of 5.4 m are available - just great

**1. Permanent bath variant.** With a permanent bath, the entire room becomes a shower cabin. Due to an integrated air chamber, the curtain stays away from the body.

**2. Open bath variant.** Part of the passage is used as a shower cabin via a partition with the open bath. An open bath means you have greater mobility in both the bathroom and the living area. The sliding doors also act as a room divider.

*Further information on both bathroom variants can be found on pages 20-23*
