LIVE TI . LIVE WAVE . LIVE TRAVELLER

KNAUS
FREIHEIT, DIE BEWEGT.

A dog's life: The SKY WAVE accompanied by faithful hound Alf is on a tour to the Baltic Sea.

Naturally, visitors are always most welcome. Friends Julia and Felix are also travelling in LIVE WAVE on the trip to Greece.

The kids, Tom and Anna, are also on board the LIVE TRAVELLER

Tina and Florian travel with our low-profile models to the most beautiful locations in the world. The two will take to the road in each of our TI vehicles and will discover what it means to vacation with the Number 1.

YOUR FREEDOM IS OUR PHILOSOPHY

With boundless passion, we at KNAUS, have been creating unforgettable vacation moments since 1960. Backed by our experience and the courage to blaze new trails, we combine the familiar with the new. For our production, we rely on Lower Bavarian craftsmanship, and when developing new vehicles, we employ cutting-edge design and production technologies. This combination of proven principles and innovative ideas makes us one of the industry's most successful brands. And the #Number 1 for our customers.

HOW WE BECAME WHO WE ARE

From a caravan production plant in Lower Franconia to one of the leading brands in the industry: In 1961, company founder Helmut Knaus sets new benchmarks with his first caravan, the legendary "Schwalbennest". From that point on, the logo depicting a pair of swallows is inseparably linked with the world's most wonderful vacation pursuit.

1960

1970

1973

1996

1961

1962

1985

1988

1960 Helmut Knaus founds KNAUS in the Franconian town of Marktbreit.

1961 The KNAUS Schwalbennest is introduced – compact, comfortable and light.

1962 An icon is born. The KNAUS SÜDWIND makes its début.

1970 A new era begins: Our main factory in Jandelsbrunn is established.

1973 In recognition of his courage and pioneering spirit, Helmut Knaus is awarded the Federal Cross of Merit.

1985 The business quickly gathers momentum. This is now also clearly reflected by the new logo.

1988 The TRAVELLER becomes the first KNAUS motorhome and Promobil magazine's "Motorhome of the Year".

1996 With the Travel-Liner, we now have integrated motorhomes in our range.

2004 The SUN TI with its large panoramic roof captures the hearts of vacationmakers everywhere.

2005 A genuine success story begins. Finally, there is a camper van in KNAUS quality.

2013 Our motorhomes celebrate 25 years of success.

2015 We celebrate our return to the liner segment in impressive style with the SUN I.

2016 The new generation of Germany's best-selling low-profile enters the market: the SKY TI.

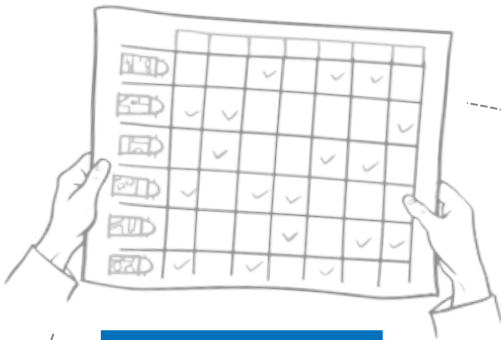

2016 We revolutionise an entire industry. THE MISSION is the road to the future.

2017 With the LIVE series, KNAUS completes the largest and most attractive model range of all time.

FROM IDEA TO KNAUS

Turning a good idea into a really good vehicle involves several steps. We take each one with our sights set firmly on the goal of designing vehicles with which you can spend the best time of your life.

2. KEY FEATURES

A price/performance champion or a luxurious travelling companion? Practical over cab or a spacious double floor? This is where we decide what the new model must do to appeal to you.

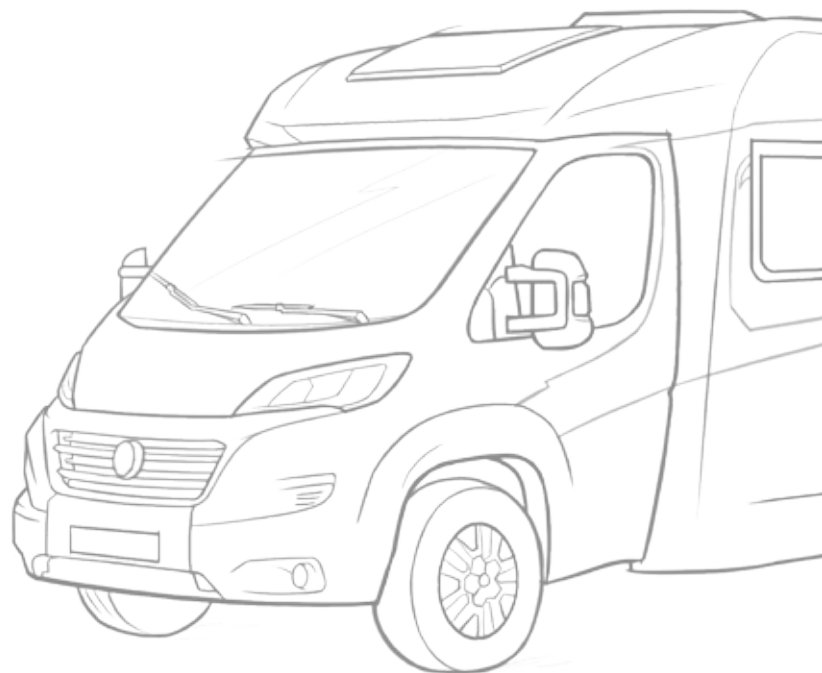

3. EXTERIOR & INTERIOR

We clarify which variants will be offered. And the particularly exciting part: What the motorhome will end up looking like. That's because the design is one of the keys to success.

1. IDEAS & OUTLINES

What kind of vacation do you want? A compact motorhome or something big and luxurious?

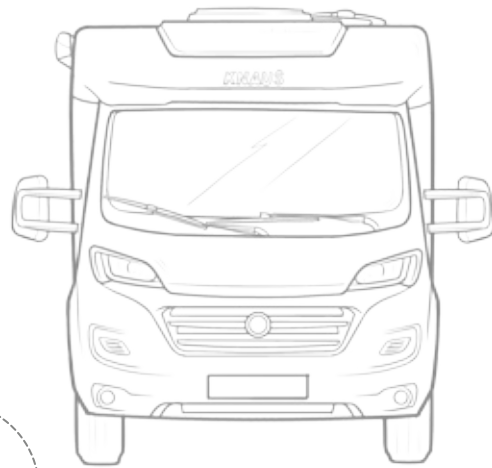

4. PREPARATIONS AT THE FACTORY

For a new model, we must also always ensure the right conditions. To this end, we invest in our factories. And especially in our employees. The lower Bavarian town of Jandelsbrunn is home to our main plant and development location. In the town of Mottgers in Hesse and in the Hungarian city of Nagyoroszi, we have built two ultra-modern manufacturing sites. We have over 2,000 employees throughout the group, many of whom have been with us for over 30 years. That is because they enjoy ideal working conditions, because they can receive ongoing training and because we are a unique KNAUS family.

*Would you like to see for yourself
how our motorhomes are made?
Find out more at [www.knaus.com/
en-int/brand-world/factory-tour](http://www.knaus.com/en-int/brand-world/factory-tour)*

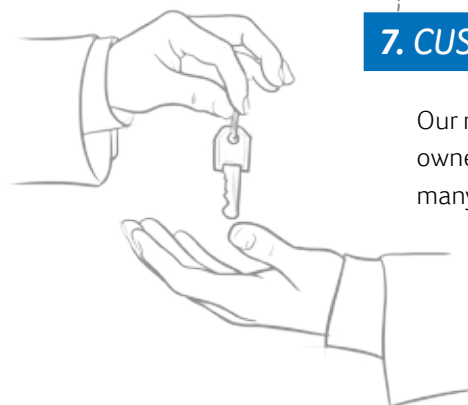

5. PROTOTYPE

The idea takes on a tangible shape for the first time. An initial prototype is created.

6. SERIES PRODUCTION

All tests passed. This is where the story begins. The new motorhomes will soon be going on vacation.

7. CUSTOMER HANDOVER

Our new model has reached its new owner and is perfectly equipped for many years of dream vacations.

OUR MISSION: A REVOLUTION

THE MISSION is about more than just the road to a new model series. THE MISSION is the job, the hurdles, the courage and the goal of revolutionising the future of the recreational vehicle industry. The TRAVELINO represented the first step. It showed us what was possible in terms of lightness, flexibility and sustainability. Its ground-breaking innovations will be incorporated step by step into other models until we have transformed each of our model series and can say with pride: MISSION completed.

*Behind every major change
there are strong personalities
who have a clear vision*

THE VISION

What must the caravan of the future be capable of? Only one thing is certain: We are blazing new trails.

THE DIRECTION

The systematic use of lightweight construction for a four-person caravan with a gross vehicle weight of 750 kilograms.

THE STUDY

We present the TRAVELINO at the Caravan Salon 2014 to an enthusiastic public.

THE TRAVELINO 1.0

Series production is approved, market launch is imminent – and then we start all over again. We are not yet satisfied with our innovation – we want to start a revolution.

THE REVOLUTION

The TRAVELINO 2.0 is born. It enters production with revolutionary bodywork technology and pioneering materials.

THE IMPLEMENTATION

We take the THE MISSION from the TRAVELINO and DESEO and apply it to our low-profile models, thereby opening up yet another new chapter.

Onward to new adventures

WHERE DOES THE JOURNEY LEAD FOR KNAUS?

KNAUS can look back on half a century of success. Where can the journey lead in the future? Is it still possible to develop something new, to become better? Product Manager Jürgen Thaler provides some interesting answers to these questions.

What makes KNAUS unique?

Jürgen Thaler: KNAUS has always moved with the times. And now we have reached a point where we are moving ahead of our time. We are currently revolutionising our industry with new ideas and technologies.

How can we visualise this in tangible terms?

Jürgen Thaler: The basic structure of a recreational vehicle has remained virtually unchanged for decades. However, we are now blazing completely new trails.

What are you referring to specifically?

Jürgen Thaler: In addition to the innovative lightweight materials used in cabinetry as well as unique fastener technologies that use ultrasound, it is above all the FibreFrame that will make history.

What is so special about this frame?

Jürgen Thaler: It is a framework that no longer requires furniture as stabilising elements. As a result, we can be much more flexible than previously when designing the vehicle's interior and exterior. Likewise, we can achieve ground-breaking advances with regard to weight and stability. And not forgetting functionality – the FibreFrame makes it possible, for example, to integrate a huge tailgate that will bring you even closer to nature or will enable you to conveniently transport motorcycles and similar items.

Can customers experience these ideas for themselves now?

Jürgen Thaler: Yes, both the TRAVELINO and the new DESEO include a great many futuristic ideas. And you can be sure of one thing: We are working flat out to revolutionise the world of motorhomes in the near future as well. These are exciting times.

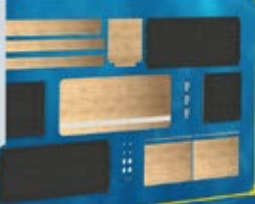

Federleichte Chassisbaukonzepte
Mit 25 % weniger Gewicht bei gleicher Konstruktionshöhe lässt sich das Fahrwerk in bestehende Schienenfahrzeuge einbauen. Das ermöglicht eine Gewichtsersparnis.

Funktionale Vorteile
• Reduzierung des Gewichtes um bis zu 25 %

TOP TECHNOLOGY FOR THE MOST WONDERFUL TIME OF YEAR

1. LONG-LASTING TVT BODYWORK³

Functional sandwich construction consisting of aluminium and insulating materials (XPS or EPS) with reinforcements made of polyurethane plastic and a completely bonded bodywork structure makes the entire vehicle more stable, more resistant to decay and more durable.

2. ROBUST HIGH-STRENGTH GRP ROOF¹

Not all GRP is the same. Its resilience depends on its glass content. To maximise protection against hail, we therefore opted for the high-strength variant, whose glass content is almost three times higher than standard GRP.

3. STABLE PRO.TEC FRAME²

The Pro.Tec frame is a particularly solid aluminium profile strip that connects the side wall, front wall, rear wall and roof to one another. It enhances the stability of the bodywork and therefore also the longevity of the entire vehicle. A particular highlight: The Pro.Tec frame incorporates a chamber for the sealant. This means that it can no longer bulge out, ensuring a seamless appearance.

4. EXCELLENT GRP UNDERFLOOR²

To ensure optimum protection of the underfloor against weathering, stone impacts etc., we fit a thick, resilient GRP layer.

5. PRACTICAL DOUBLE FLOOR²

Thanks to its double insulation layers, our double floor guarantees cosy warmth no matter how cold it is outside. Water and heating pipes are laid in such a way that they are protected against frost and damage. In addition, the handy storage compartments provide space for small utensils.

6. HIGH-QUALITY LOW-FRAME CHASSIS²

To maximise the headroom inside our motorhomes while minimising their external height, we use genuine Fiat low-frame chassis designs.

¹Across all series

²Model-dependent

³Optional

A sure thing: Our high-quality bodywork details

What is one of the most important points during the construction of a motorhome? Clearly, its longevity. And to ensure that you can rely one hundred percent on your vehicle, we equip every motorhome with high-quality materials such as our optimum insulating GRP roof scoops.

1. GRP ROOF SCOOP¹

With optional large panoramic roof, striking design, structurally integrated insulation and, naturally, maximum protection against hail.

2. NO VISIBLE SCREW FITTINGS¹

Whether its fenders, side skirts or tail light mouldings. Wherever it is possible and practical in structural terms, we work to achieve a clean, elegant look with plug-in connections that hold attachments securely.

3. WHEEL ARCH WITH EPP INSULATION¹

Optimum noise comfort when driving, perfect insulation when stationary. EPP is a high-tech material without compromises: light, impact-absorbing, heat insulating and stable.

4. DOORS WITH SINGLE-HANDED OPERATION¹

Large doors, such as that of the rear garage, must be locked at the top and bottom. This normally requires two locks that must be laboriously unlocked and locked separately. Not at KNAUS. A linkage integrated into the garage door connects both lock units, enabling convenient single-handed operation. The complex dual seal also ensures that heavy driving rain and wind noise are not an issue.

5. HIGH-QUALITY FILMS¹

Timeless design is of little use if the vehicle starts to look old after just a few years. That is why we insist on high-quality films from reputable suppliers such as 3M, Avery and Oracal.

¹Across all series

²Model-dependent

³Optional

Connecting, filling, draining: Our service box can do it all

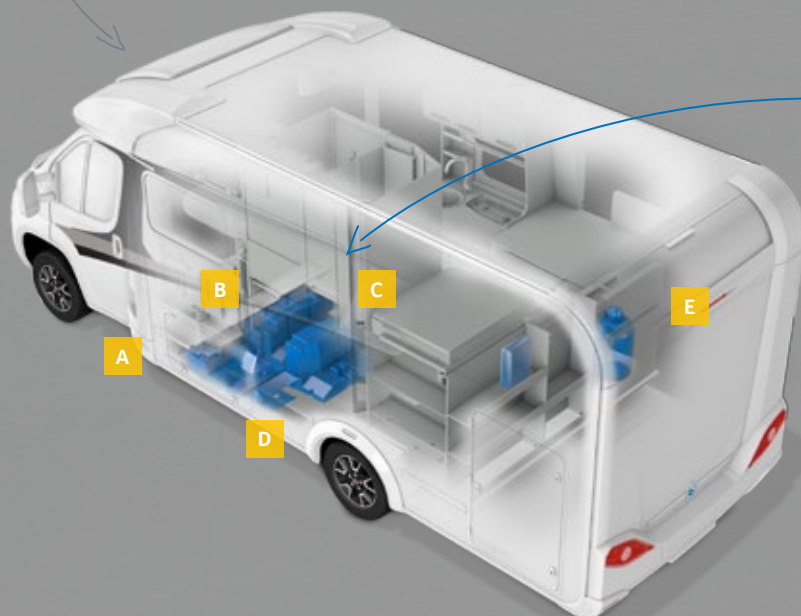

Here a power supply socket, there a drain tap and the fresh water tank is somewhere else entirely – this is how the supply technology is arranged in many motorhomes, but not in ours. Every KNAUS motorhome is equipped with the practical service box, which gathers all key functions and connections centrally at a single location. For maximum ease of use.

On the SUN TI, the tanks are arranged low down in the middle of the vehicle and are equipped with a practical cleaning opening in the floor

SUPPLY TECHNOLOGY

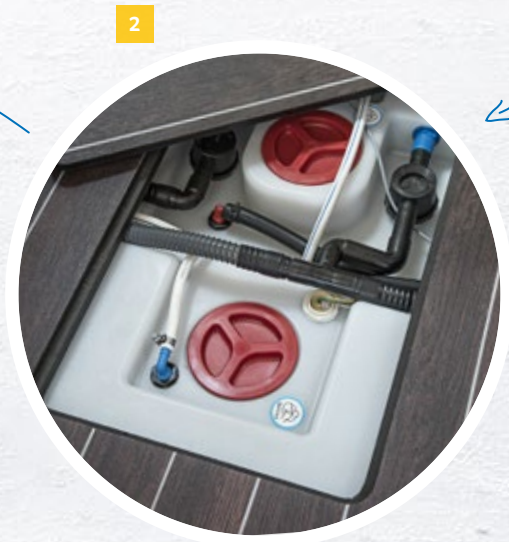

For a motorhome to offer the same comforts you enjoy at home, a certain level of supply technology is required. On our SUN TI demonstrator vehicle, most of this technology is installed in the double floor. The advantage is that the entire installation is well insulated against frost. It is also easy to maintain via openings in the floor.

- A. ServiceBox
- B. Fresh water tank
- C. Grey water tank
- D. Battery
- E. Gas cylinders

The cleaning openings for the water tank are readily accessible via compartments in the double floor

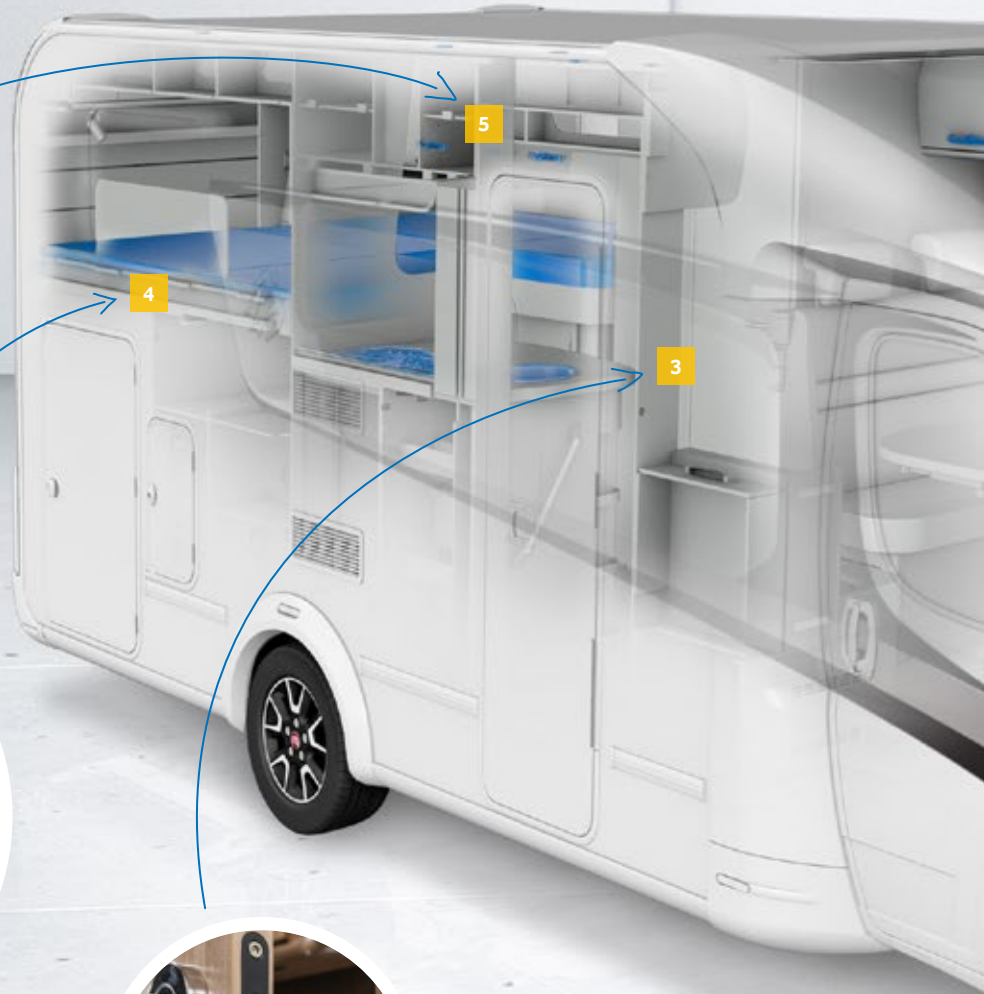

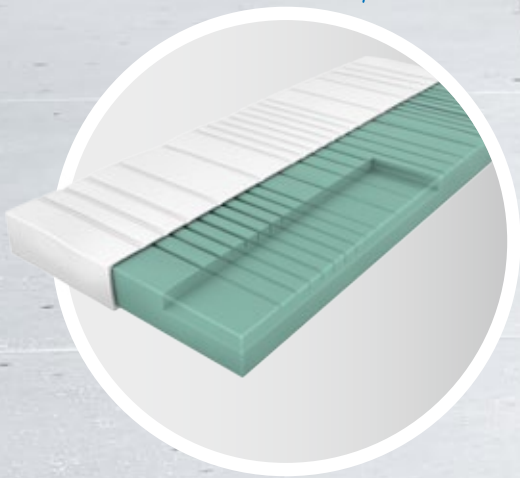

UNIQUE SERVICE BOX

- 1. Fresh water tank filling**
- 2. Fresh & grey water tank cleaning opening**
- 3. Fresh & grey water drain taps**
- 4. Cable bushing**
To ensure that the cable can be laid neatly, there is a rodent-proof cable bushing from below into the service box.
- 5. Tank heating**
The warm air supply to the water tank can be readily switched on or off with a handle.
- 6. Power supply socket**
- 7. Frost detector**
At particularly cold temperatures, the frost detector is activated and drains water from the water pipes and from the boiler to prevent frost damage.

AN INTERIOR THAT INSPIRES

Reducing an apartment with a bathroom, bedrooms, living area and a kitchen down to roadworthy compact dimensions is one thing. However, it is intelligent details and solutions such as dimmable ambient lighting that turn a living space into your favourite place.

1. HIGH MATERIAL QUALITY ¹

Exceptional material quality forms the basis for maximising longevity. With this in mind, we fit solid cast-iron pan supports, scratch-resistant stainless steel sinks, high-quality metal handles, for example, and lots more besides.

2. SAT-NAV WITH CAMPING SOFTWARE ³

Enjoyable and stress-free driving is an important part of a relaxing vacation. And our new Pioneer navigation system has got everything covered. With intuitive multi-touch control, maps of 44 countries in Europe, a DAB+ receiver, Apple CarPlay, Android Auto, Parrot Bluetooth hands-free functionality and optimum sound thanks to the on-board 13-band equalizer, it offers everything you could expect these days of a multimedia navigation system. It also comes with 3 years of free map updates.

3. MAGNETIC DOOR LOCK ²

The high-quality magnetic door lock enables variable use of the door in the open bathroom possible on the one hand, and closes gently and almost silently on the other.

4. EXCELLENT EVOPORE MATTRESSES ¹

30% lighter and with 40% less reduction in hardness than comparable cold foam mattresses. It resists the formation of depressions even if only used on one side. The 5-zone Evo-Pore mattresses not only spoil you with superlative sleeping comfort, but impress with their exceptional durability.

5. DIMMABLE AMBIENT LIGHTING ³

Overhead cupboards, storage compartments, countertop, overhead cupboards, and canopy – wherever atmospheric lighting makes your vacation more special, we install carefully integrated, dimmable ambient lighting.

¹Across all series

²Model-dependent

³Optional

Our focus is not on style for its own sake, but on building furniture that also creates a good indoor climate

The furnishings in our motorhomes must meet extremely strict requirements. This takes more than just an attractive design and plenty of storage space. Durability, rugged construction and technologies that inspire for an entire lifetime – these are our benchmarks.

ELABORATE INTEGRAL FURNITURE CONSTRUCTION²

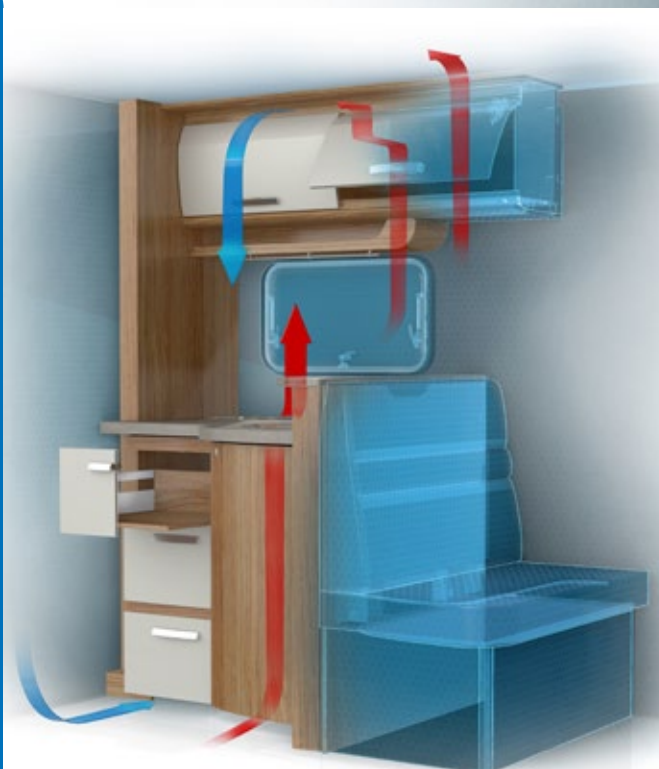

Air circulation is one of the most important requirements for a pleasant and healthy indoor climate.

Ceiling-mounted lockers:

They are exceptionally sturdy and are mounted with a gap between them and the walls. This allows the air to circulate unhindered behind the lockers. Condensation in the lockers is prevented, keeping your clothing and possessions fresh and dry at all times.

Kitchen unit:

All furniture is rear-ventilated in a manner that optimises the performance of the heater. The open rear ventilation cut-outs enable optimum hot air circulation, providing cosy warmth in the vehicle.

1. SOLID ALUMINIUM PROFILES ¹

The furniture makes an important contribution to the stability of the entire bodywork. For this reason, we use high-strength aluminium profiles in our furnishings. As well as being even more robust than solid wood profiles, they are noticeably lighter.

2. HIGH-QUALITY SOFT-CLOSE DOORS ¹

No banging, no rattling, no need to push shut. Thanks to high-quality hinges, the soft-close doors shut gently and lock completely automatically.

3. STURDY DOWEL TECHNOLOGY ¹

Our furnishings are joined as standard using complex dowel technology. As a result, we achieve a very high accuracy of fit and much more stable cabinetry that you can enjoy for many years to come.

4. SCRATCH-RESISTANT HPL SURFACES ¹

High-Pressure Laminate is a laminate material that is used specifically for the high levels of stress encountered, for example, in kitchens. The multi-layered structure is produced under very high pressure and sealed with a particularly resilient top layer. This makes our countertops and tabletops particularly scratch-resistant.

5. STABLE SOFT-CLOSE FULL-EXTENSION DRAWER SLIDES ¹

For our drawer slides, we work with the quality supplier GRASS, which normally supplies to furniture manufacturing brands. And you'll notice this too. Thanks to full-extension drawer slides, the drawers extend so far out that they are easy to fill or empty all the way to the back. They are guided precisely and shut gently – for the lifetime of the vehicle and probably beyond.

¹Across all series

²Model-dependent

³Optional

KNAUS smartCI: Putting technology in your hands

We always like to think several steps ahead so that you don't have to worry about the technical details, but can simply enjoy your vacation. With smartCI, the centralised control of technical units is particularly easy and user-friendly.

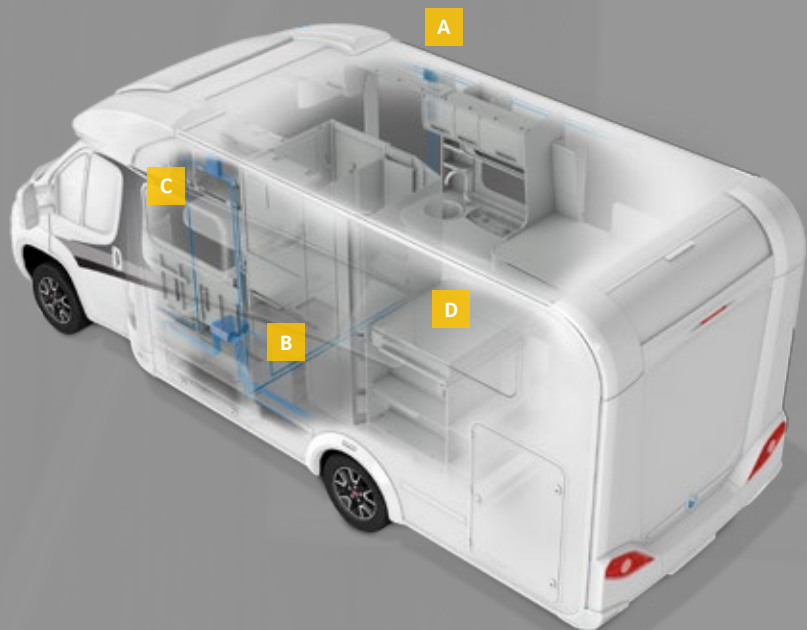

*This is how the individual elements
are distributed in the vehicle*

ADVANCED TECHNOLOGY

The KNAUS smartCI system has been in service since its début in the SUN TI 2014 and has been continuously further developed and refined. In this context, two points were particularly important to us from the outset: Firstly, the system must be easy to maintain and repair. Secondly, important functions must remain operable even if individual functions fail.

- A. Operating panel
- B. Digitally networked electrical distributor box
- C. Light control module with 8 digital outputs
- D. Optional WLAN module

MOBILE DEVICES (OPTIONAL)

Laptop, smartphone or tablet. Android, iOS, Windows or Linux. To function smoothly on as many platforms as possible, we use a browser app that runs on every device equipped with WLAN and a browser within the vehicle's own network. Simply enter the address and you are ready to start.

1. Central light control
2. Temperature display
3. Water level gauge
4. Charge state of body battery and starter battery

... and all other functions such as heating or climate control system

LUXURIOUS, OUR KITCHEN VARIANTS

A kitchen must withstand a great deal of abuse and conform to strict requirements. Robust worktops, high-quality appliances as well as a clever layout where everything is within easy reach and plenty of storage space come as standard in every KNAUS kitchen.

SKY TI 650 MF

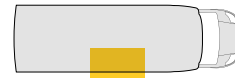

CORNER KITCHEN

- 1. Spacious L-shape.** In the corner kitchen, the kitchenette is located behind the dinette. This allows the sink and cooker to be positioned around a corner and creates a particularly large worktop.
- 2. Large refrigerator.** A volume of 145 litres will easily swallow up all your provisions.

LONGITUDINAL KITCHEN

1. Extendible workstation. The ultra-stable additional workstation can be folded out in seconds to give you extra space when cooking.

2. Soft-close drawers. Thanks to full-extension drawer slides, provisions and cutlery are easily accessible.

COMPACT KITCHEN

1. Integrated refrigerator. Integrated directly in the kitchenette, it offers a generous volume of 108 litres.

2. Extra-deep sink. Thanks to its extra depth, even high pots are easy to clean.

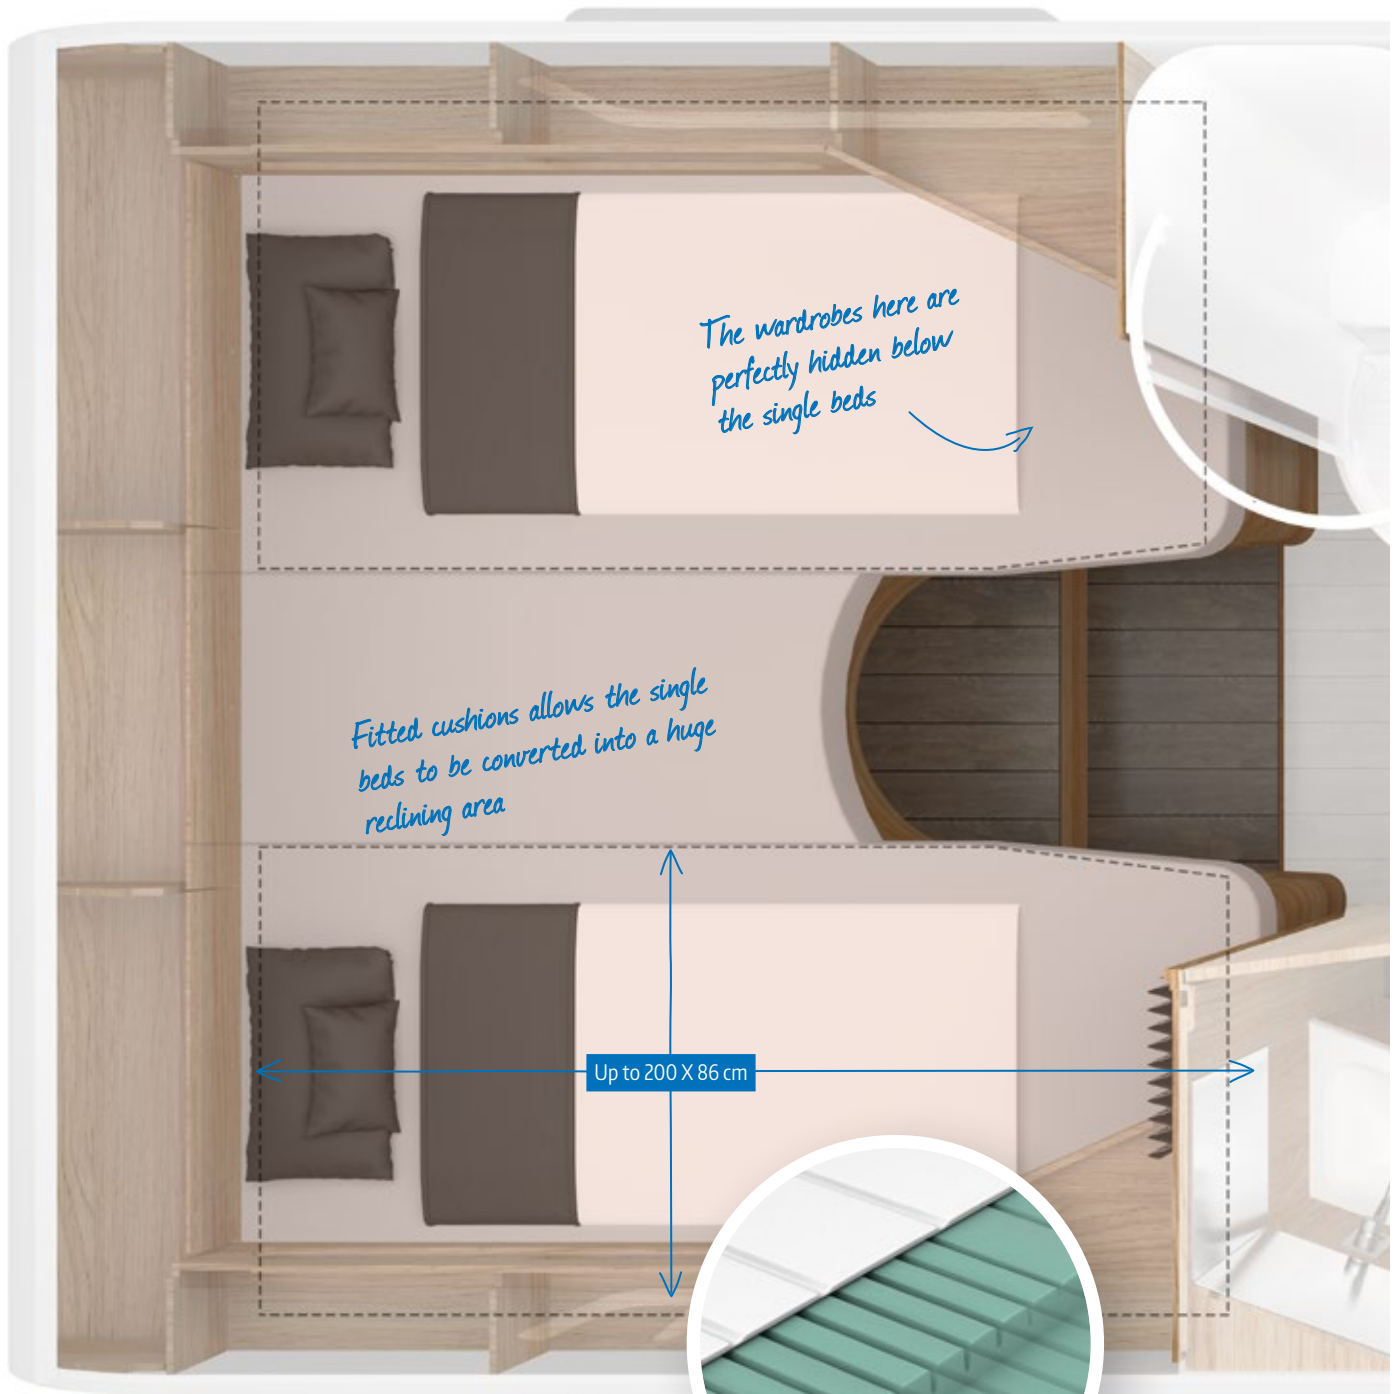

DISCOVER OUR BED VARIANTS

Travelling means experiencing and relaxing. To ensure that you wake refreshed at the start of each eventful day of your vacations, we offer a choice of different bed variants: from extendible single beds all the way to spacious reclining areas. How do you want to sleep?

1. Generous bed dimensions. Depending on the floor plan, the single beds are up to 201 cm long and just under 90 cm wide.

2. Storage space and double bed. Additional storage space is provided under the beds. And thanks to the carefully matched upholstery, the single beds can be turned into a comfortable double bed over 200 cm wide in a matter of seconds (optional).

SINGLE BEDS

Very comfortable 5-zone EvoPore mattresses adjust perfectly to your reclining position. For more information, turn to page 27

From A for alcove to T for transverse bed: the perfect berth for every vacationmaker

Are you looking for a real space miracle? Travelling with your children or grandchildren? Or do you like to have additional sleeping areas for spontaneous visitors hidden away? With our wide choice of beds, you're guaranteed to sleep soundly.

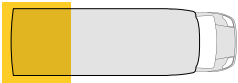

Comfortable bed size meets optimum use of space

THREE-QUARTER BED

- 1. Foldable extension.** Do you need more space for your feet at night? It's not a problem thanks to the clever folding cushion on the outside (optional).
- 2. Optimum use of space.** With the three-quarter beds, there is also plenty of room in the rear for the spacious bathroom and a large wardrobe.

TRANSVERSE BED

1. Ideal for late risers. The transverse beds are up to 207 cm long and 150 cm wide.

2. Perfectly integrated. The transverse bed is extremely economical in terms of space required and therefore frees up more living space.

ISLAND BED

1. Spacious wardrobes. On each bedside with a handy garment rail.

2. Flexibility. Depending on the model, queen-sized beds are available in widths of up to 160 cm, and with optional electric height or longitudinal adjustment. All queen-sized beds offer manual lengthways adjustment as standard.

CHILD'S BED

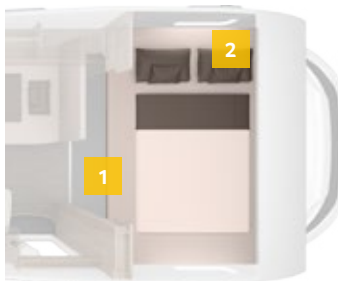

1. Twice the fun. In our special K floor plans, the children's bunk bed in the rear is included as standard.

2. Plenty of space. Measuring up to 75 cm wide and 212 cm long, your younger passengers will enjoy the vacation of their dreams here.

DROP DOWN BED

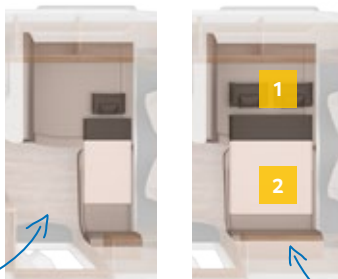

1. Easily lowered. The drop down beds are particularly easy to lower, giving you convenient access to your sleeping quarters.

2. Space-saving. When not in use, the living area still provides comfortable headroom.

OVER CAB BED

1. Sleeping upstairs. Access to the over cab bed is absolutely safe thanks to the lockable ladder and optional ladder storage compartment.

2. Pleasant indoor climate. To ensure a good night's rest, the alcove is fully heated and rear-ventilated.

GUEST BED

Guest bed 1

Guest bed 2

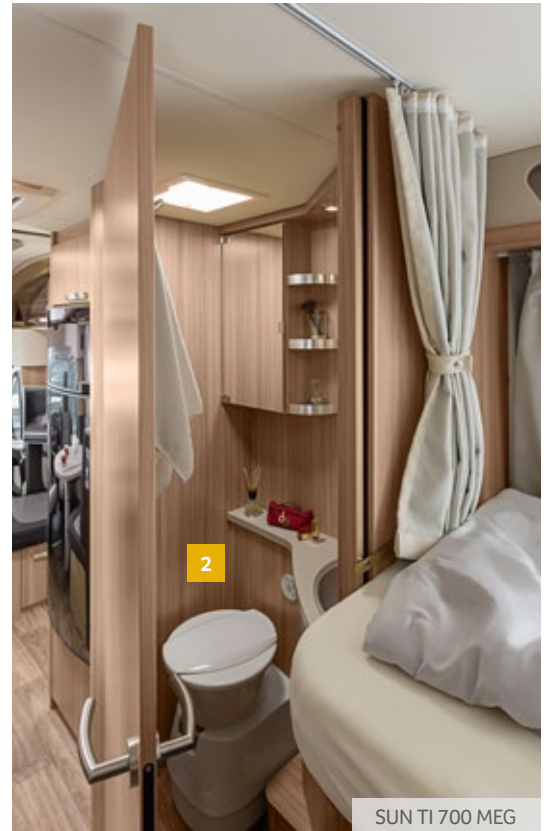

1. Variable and comfortable. Simply lower the table, add the upholstery, and an additional bed is available.

2. Stable lifting table. It is the foundation for the guest bed and is correspondingly stable.

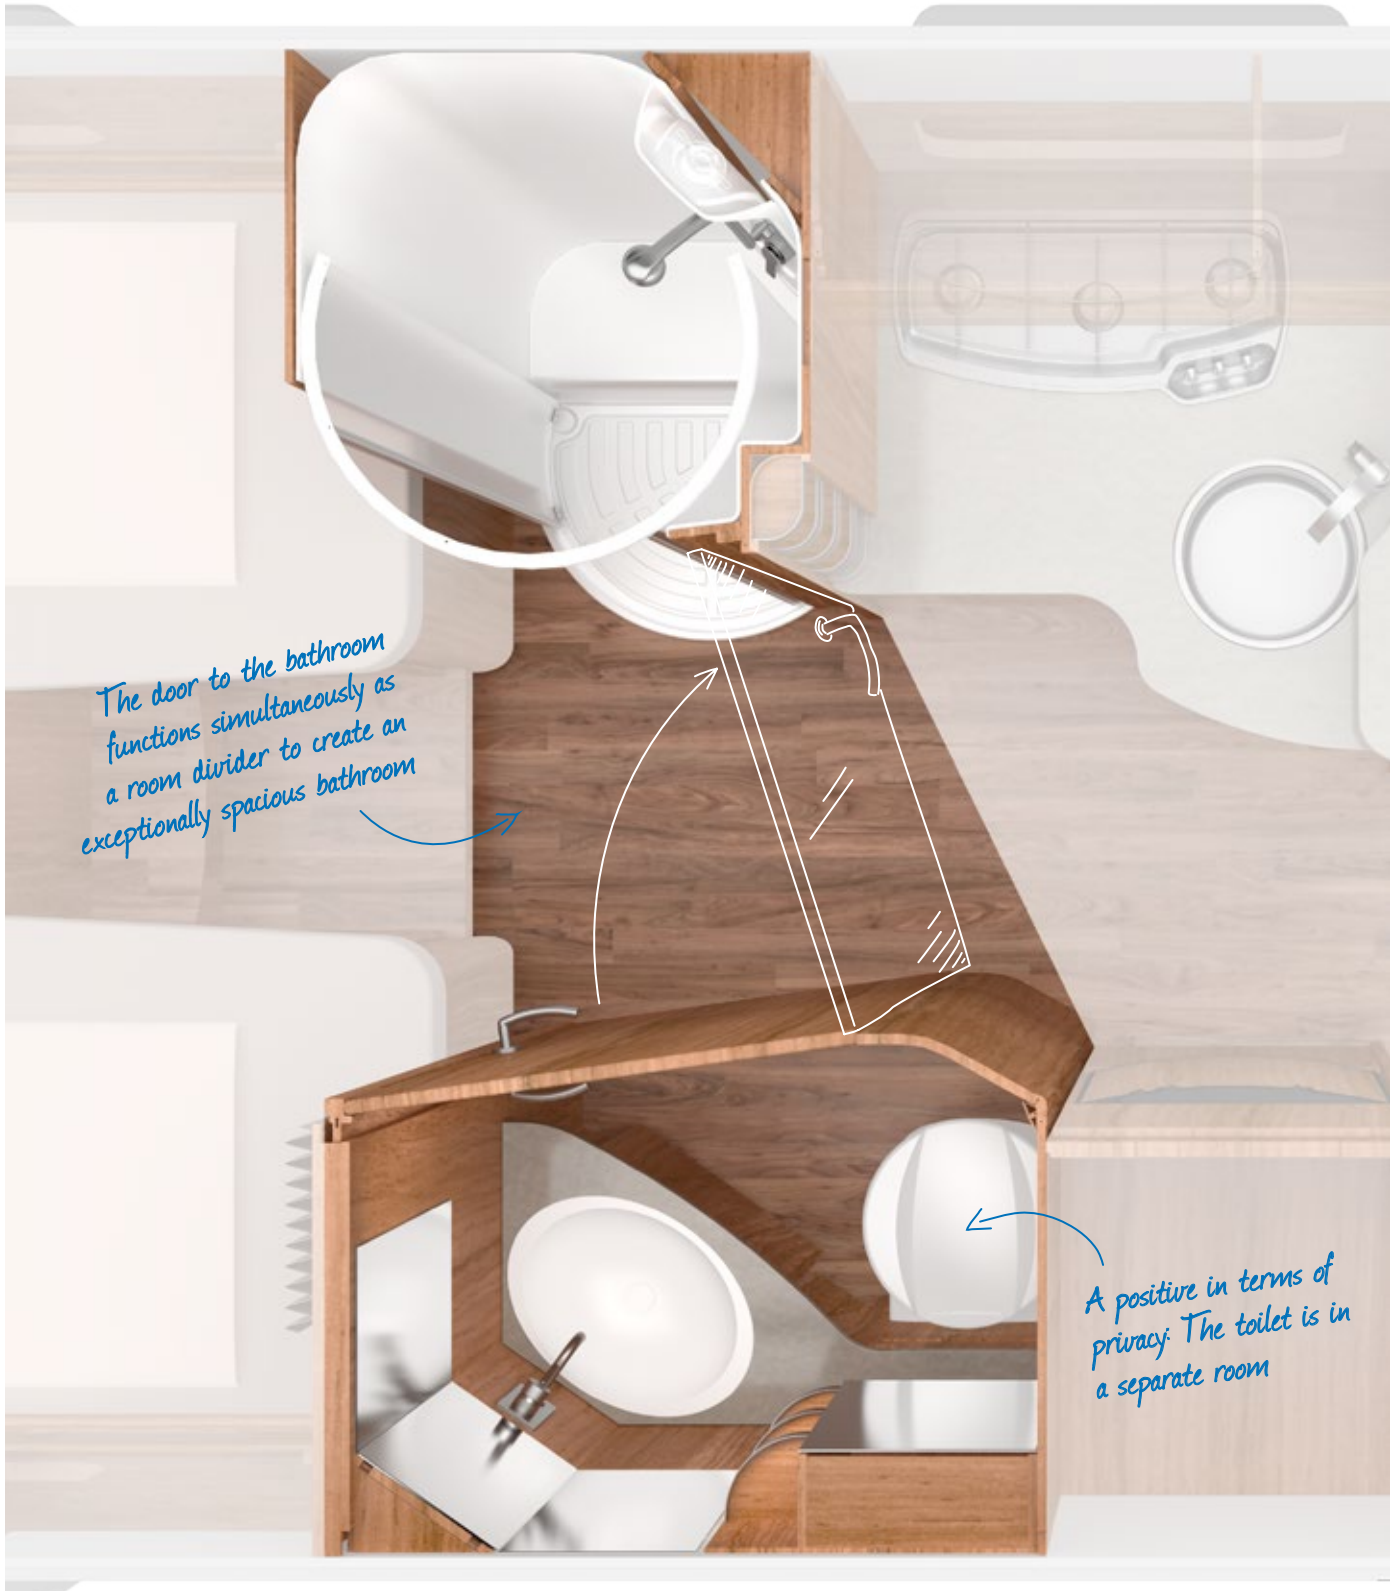

DISCOVER OUR BATHROOM VARIANTS

The KNAUS bathroom variants are stylish, clever and spacious. When it comes to design, we place great importance on elegant style, maximum storage space and an atmosphere of well-being. We believe that bathrooms should offer as much space as possible, but take up as little space as possible.

1. More open bathroom. This variant offers space for an exceptionally large shower with numerous shelves for all your cosmetics.

2. Swivelling toilet. In this way, every centimetre is used to the best effect, thereby maximising freedom of movement in the bathroom.

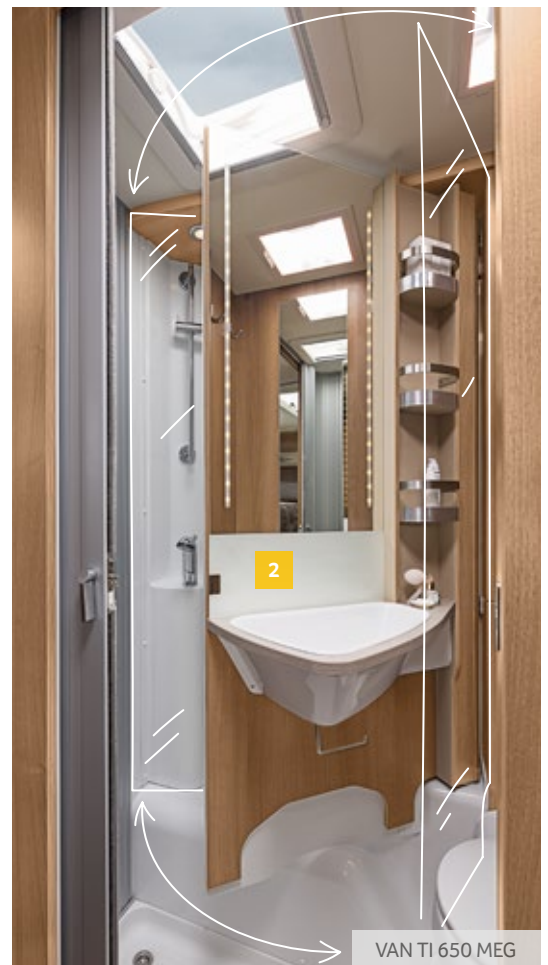

OPEN BATHROOM

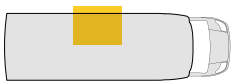

Discover your very own oasis of well-being

Are you looking for a compact floor plan, but with a spacious bathroom? Or is having plenty of room to move a priority for you? Immerse yourself in our varied bathroom options. There is something for everyone.

A wall that swivels to the left for a spacious bathroom

COMFORT BATHROOM

1. Space miracle. In the comfort bathroom, the swivelling wall provides exceptional comfort on one side thanks to the spacious shower cubicle.

2. Greater freedom of movement. The wash basin is attached to the other side of the swivelling wall. This ensures that you always have exactly the space you need.

REAR LONGITUDINAL BATHROOM

Clever and spacious. In floor plans with a three-quarter bed, this bathroom variant optimises the use of space, both inside and outside the bathroom.

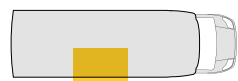

REAR CROSSWAYS BATHROOM

Generously repositioned. The rear crossways bathroom ensures that the single beds are repositioned slightly towards the front and that the entire rear side can be used. This creates a particularly spacious bathroom.

INTEGRATED BATHROOM

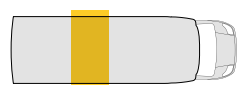

NEW

Intelligent configuration. A fixed wash basin, fixed shower cubicle and still plenty space despite the compact dimensions. The intelligent configuration makes it possible.

LIVE BATHROOM

NEW

Cleverness perfected. The new bathroom in the LIVE models with a separate shower and spacious bathroom with a flexible room divider ensures maximum enjoyment when you're brushing your teeth.

VAN TI

**NARROW LOW-PROFILE
MOTORHOME**

THE #NUMMER 1 BECAUSE ...

it is the **lightest
vehicle** in its class.

it scores highly with its
dynamic frame look.

it offers **vast amounts
of space despite its
compact dimensions.**

We tested the endurance of rugged high-strength GRP on page 21

It couldn't be simpler: One central service box for all connections and drains (for details, see pages 24-25)

A door in the side wall provides exceptional ease of access to the gas bottle locker

An elegant transition with no visible screw fittings and with perfect gap dimensions. This is where you can see and feel the excellent quality

All good floor plans come in threes. For Tina and Florian, the 600 MG is the perfect choice: with bags of storage space and yet agile enough to find the perfect picnic spot in the Portuguese mountains.

VAN TI 550 MD

Room divider with lowered doors

VAN TI 650 MEG

Extendible single beds

My Tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

“For me, this type of dynamic motorhome simply has to have framed windows.” They are integrated perfectly into the side wall, but are also exceptionally secure and reduce wind noise significantly.

*Cat-Eye hybrid rear lights
with LED technology round
out the striking rear view*

*Automotive design thanks
to wraparound frame look*

*Underfloor measuring 48 mm thick
with XPS insulation and protective
aluminium layer for an optimum indoor
climate and maximum durability*

When the living area becomes a dance floor.

Then Tina can swing her hips while Florian lays down the beat with the maracas. This is Portugal's sheer zest for life.

Time for a cuddle ♥

1 VAN TI 650 MEG

2 VAN TI 650 MEG

1. Spacious seating area with LED TV. There's plenty of space thanks to the intelligent room layout, a wonderful lighting ambiance due to the large panoramic window and, naturally, fantastic entertainment with the 24" LED TV.

2. Extendible table. Attached to the side wall, the table makes perfect use of the available space. It is fitted with a sturdy rotating mechanism so you can fold it out with ease.

Light-filled interior thanks to the large panoramic roof

The optional navigation system with camping software ensures that you always arrive safely at your destination

A solid wood edge and tough HPL surface make the table attractive and durable

For a consistent look, the seat covers are always matched to the upholstery in the living space

Also available with seat heating on request

LOUNGE OVERVIEW

550 MD	Bench seat
650 MEG	Bench seat

Soft-close overhead cupboards with automatic locking mechanisms for maximum ease of use

145 litre refrigerator with integrated freezer compartment and plenty of space for tasty treats

Extremely robust HPL surfaces look like new even after many years of use (for details, see page 29)

Featuring one-hand operation, the worktop extension is easy to fold out when required

KITCHEN OVERVIEW

- 550 MD Compact kitchen
- 650 MEG Longitudinal kitchen

You can find more information about our kitchens on **pages 32 - 33**.

Seasoned to perfection.

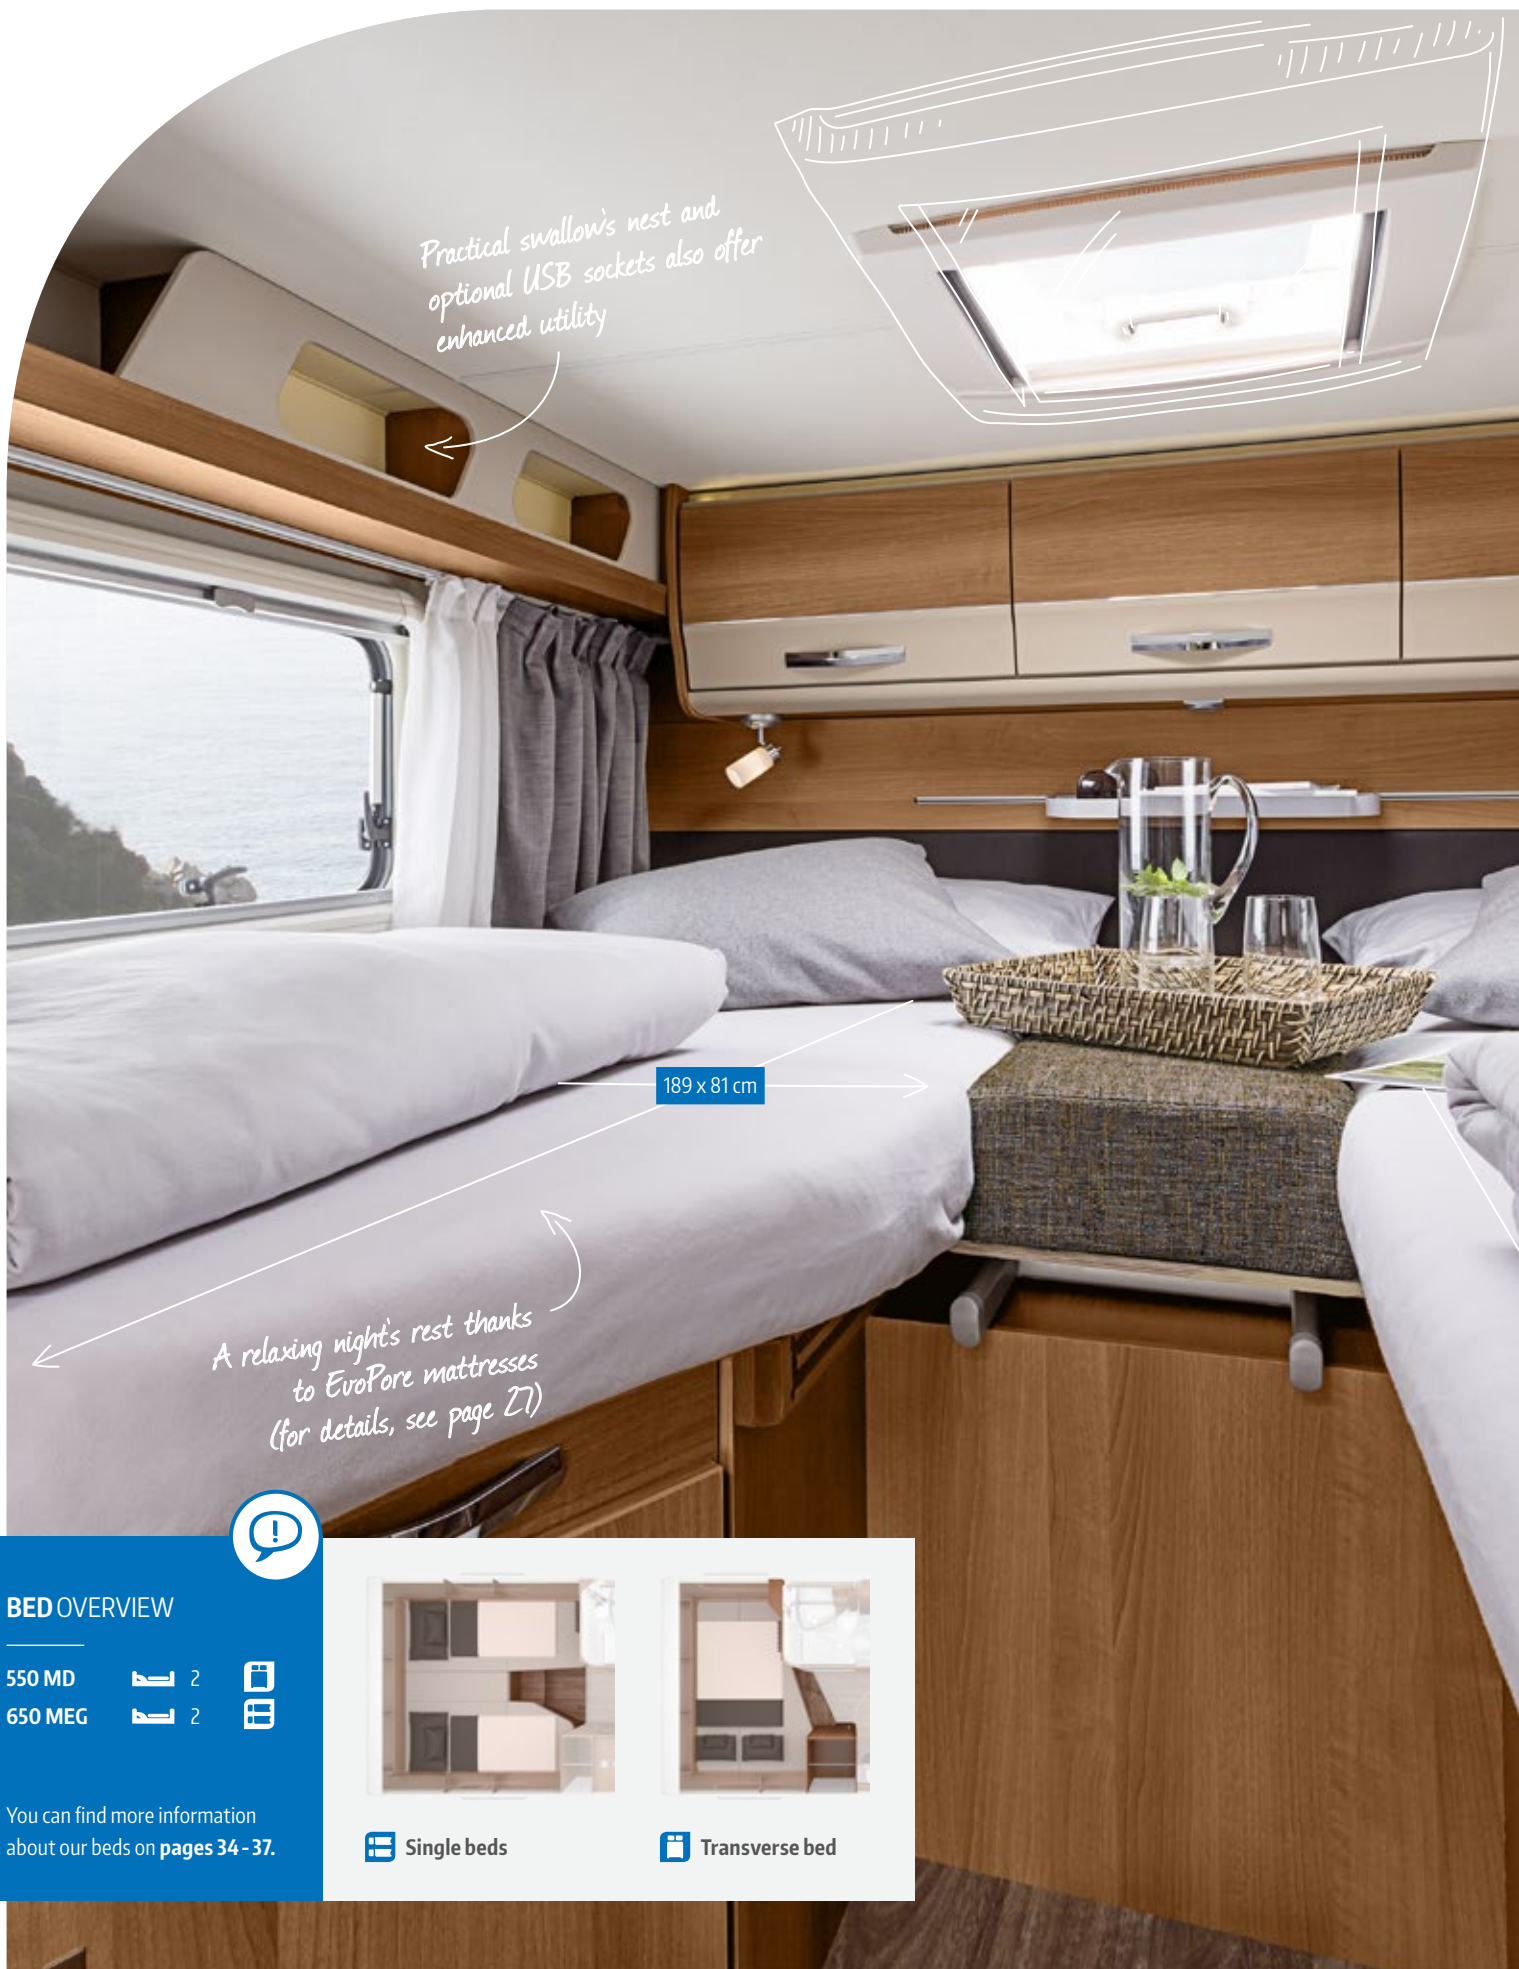

On the powerful 3-flame cooker, Tina and Florian can prepare the freshly caught mussels from the harbour immediately. Add a squeeze of lemon and enjoy.

1. Large 3-flame cooker. Espresso on the left, spaghetti on the right and the sauce below. And ignition is performed at the push of a button. It couldn't be simpler.

2. Compact kitchen. Even the ultra-compact 550 MD features a fully-equipped kitchen

3. Full-extension drawer slides. Make loading particularly easy for you. Right back to the furthest corner.

Practical swallow's nest and optional USB sockets also offer enhanced utility

189 x 81 cm

A relaxing night's rest thanks to EvoPore mattresses (for details, see page 27)

 Single beds

 Transverse bed

Beautiful vacation destinations.

That is what Tina and Florian have chosen for this vacation. And the comfort beds in the VAN TI can comfortably handle at least another four hundred journeys – with no loss of quality.

- 1. Extendible single beds.** With the roll-up slatted frame in the middle and the two cushion sections, you can transform the single beds into a large double bed in a matter of seconds.
- 2. Wardrobe under the beds.** Simply open the door and flap to gain convenient access to the spacious wardrobes with garment rails on both sides

Start the day refreshed. Thanks to the large skylight in the comfort bathroom, Tina can already look forward to the Portuguese sun while standing at the wash basin.

1. Spacious bathroom. In the starting configuration, the VAN TI presents a generously proportioned bathroom.

2. Practical shower cubicle. If you want to take a shower, simply fold out the entire mirror wall and wash basin to the side. Now simply close the louvred door until the magnetic lock grips and you are ready to go.

The integrated lighting looks great and is particularly useful when you are applying make-up or shaving

Life in its most beautiful colours.

Here, there is at least as much to discover as in every flower in Tina's colourful bouquet of tulips. Luckily, Florian remembered to pack a vase.

*A true delight,
the LIVE TI ♡*

1. Lowerable LED TV. The Full HD television simply disappears behind the bench seat, so it doesn't take up space when it's not in use.

2. High-quality blinds. They cover the window frames and are particularly handy thanks to the rolling function.

3. Elegant front interior. The dark offset décor picks up the line of the driver's cab cladding and ensures a smooth transition.

*Soft-close overhead
cupboards for
maximum operating
and noise comfort*

CORNER KITCHEN LIVE TI 700 MEG

What do people cook in the Netherlands?

According to Florian, crêpes at all hours of the day and night, savoury or sweet. On the 3-flame cooker, he can even prepare two portions simultaneously.

1. Variant - longitudinal kitchen.

The longitudinal kitchen in the 650 MEG is compact, but offers incredible worktop and storage space thanks to the folding worktop extension and clever layout.

2. Atmospheric ambient lighting. Below the countertop as well as behind the kitchen rear wall cladding, it underlines the elegant furniture design and ensures pleasant lighting.

Bathing in the Netherlands. Bathing in the North Sea is wonderful, but it's ten times better in the well thought-out integrated bathroom. That's because Florian can easily adjust the temperature here.

1. Variant - integrated bathroom.

Completely redesigned and specially developed for the LIVE model series, the integrated bathroom offers you a fixed shower and incredible space.

2. Clever swivelling wall. Simply fold the swivelling wall to the side and transform the entire bathroom into a spacious shower cubicle. A nice side benefit: The toilet, mirror and wash basin remain dry.

The entire mirror wall folds to the side to reveal a spacious shower cubicle - letting you make optimum use of space in every situation

SKY TI

A LOW-PROFILE MOTORHOME

THE #NUMMER 1 BECAUSE ...

it is Germany's **best-selling** low-profile.

it offers a **fantastic** price-performance ratio.

it offers the **widest** choice of floor plans.

Genuine KNAUS quality: No visible screw fittings, insulated roof scoop with LED positional lights and extremely sturdy aluminium profiles (Pro.Tec frame, see page 21)

No more endless searching: one central service box for all connections and drains (for details, see pages 24-25)

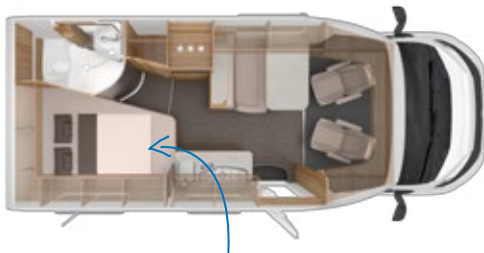

Easy and quick to extend: The body battery is accessible from the outside

No need to worry about spray and stone impacts, the 40-mm-thick underfloor with XPS insulation is fitted with a protective GRP layer

So many floor plan variants. Tina and Florian found it difficult to make a choice. Since they plan to visit the fashion capitals of Italy, they opted for the 700 MEG. That's because its numerous storage compartments are perfect for all those shopping trips.

Stracciatella ice cream for breakfast?

When in Rome ... And in the cosy lounge, Tina and Florian can enjoy this dish at any time of the day and night. Welcome to the taste of Bella Italia.

- 1. Lowerable 24-inch LED TV.** Another reason why the living area looks so elegant and tidy is because you can make the 24" Full-HD LED TV with integrated digital receiver and extensive connection possibilities disappear from sight behind the rear seat.
- 2. Pearly white décor with cross-stitch pattern.** It looks good, feels good to touch and is so durable that it will still look like new after many years on the go.
- 3. Panoramic roof & roof liner cladding.** The driver's cab and living area blend elegantly into a single space. During the day, the panoramic roof maintains a pleasant light ambiance; at night, the ambient lighting takes over.

Huge panoramic roof for new impressions and a fantastic view

The soft-close flaps close gently and lock automatically

Also available with seat heating on request

Specially developed to meet the requirements of motorhomes and for maximum long-distance comfort

You can find our two guest bed variants on page 37.

The best view for sweet dreams.

In the large drop down bed, Florian has Tina to himself again. Alf is not allowed to snuggle in between them. Although there is plenty of space for him to do so.

- 1. Spacious wardrobes.** Access from the side and from above makes it particularly convenient to use the wardrobes.
- 2. Additional storage space.** The swallows' nests not only look great, but also provide you with a practical storage space for mobile phones, books and much more.
- 3. Practical storage options.** A small storage space for the things that you want to keep within reach at night.

A bathroom to fall in love with.

Tina never gets tired of the roomy shower cubicle and is already looking forward to the next shower as soon as she finishes her make-up.

1. Variant - rear longitudinal bathroom.

Thanks to the innovative swivelling wall, a shower cubicle is created in no time at all. The multi-functionality of the room means it is very compact. The space saved benefits the living area and the feeling of space.

2. Variant - comfort bathroom. Every bit as multifunctional as the rear longitudinal bathroom, only with a different layout and located in the middle of the vehicle.

Elegant stone décor and an extended wash stand for a wonderful ambiance and lots of storage areas

Comfort bathroom

LIVE TRAVELLER 650 DG

NEW

*Comfortable transverse bed + over cab.
A space miracle for families*

Thick aluminium profiles ensure excellent bodywork stability

Turn to page 25 to read how the practical service box enhances your vacation

Appealing to young and old: a striking appearance thanks to the sporty vehicle design

LIVE TRAVELLER OVERVIEW

Floor plans: 3

Gross vehicle weight: 3,500 kg

Rear garage (max): 80 X 110 cm

For more information, visit

www.knaus.com/livetraveller

Playing together, learning and having fun.

And since Tom has just discovered the story of Winnetou, the entire family is travelling through Croatia dressed as Indians.

Mum likes vacations ♡

1

LIVE TRAVELLER 600 DKG

The blinds cover the window frames and are particularly handy thanks to the rolling function

2

LIVE TRAVELLER 600 DKG

1. Huge double dinette. Lots of space for eating, playing and entertaining. And for sleeping as the double dinette can be converted into a comfortable guest bed in no time at all.

2. Practical room divider. For more privacy, the rear area including the bathroom can be sectioned off from the rest of the living area.

**LOUNGE OVERVIEW**

600 DKG	Longitudinal kitchen
650 DG	Longitudinal kitchen

You can find more information about our kitchens on **pages 32 - 33**.

Dealing with hunger is child's play here. At some point, a growling stomach will defeat even the most exciting game. Luckily, a tasty meal can be conjured up in no time at all in the fully-equipped kitchen.

1. Full-extension drawer slides. They extend so far out that they are easy to fill or empty all the way to the back of the drawer. For this, we trust in the perfect quality of GRASS.

2. High-quality worktop extension. Extend your workspace in one easy movement.

LIVE TRAVELLER 600 DKG

For an optimum climate when sleeping, the alcove is rear-ventilated, heated as standard and fitted with a slatted frame

201 x 159 cm

Over cab bed

Transverse bed

Children's beds

You can find our two guest bed variants on page 37.

Even the bravest Indian has to sleep eventually. And even the most energetic parents sometimes need a few moments of peace to spend with each other. In the large over cab bed, it's not a problem.

1. Variant - child's bed. The LIVE TRAVELLER 600 DKG with its bunk beds in the rear and the convertible double dinette is perfect for families with up to 4 children.

2. Optional ladder storage compartment.

To ensure that it doesn't get in the way, the ladder for the over cab has a permanent place in the vehicle.

3. Flexible over cab bed. For an exceptionally airy sense of space and convenient access to the cockpit, the over cab bed can be folded up in a single step as an option.

Time to wash off the war paint. The modern wash basin is the perfect place for some quality mother-daughter time. Tina and Anna are only too willing to agree.

1 LIVE TRAVELLER 600 DKG

1 LIVE TRAVELLER 600 DKG

2 LIVE TRAVELLER 600 DKG

1. Flexible comfort bathroom. A large bathroom, a spacious shower and compact dimensions for optimum use of space throughout the vehicle? It can only be the comfort bathroom. Simply fold the entire mirror wall to the side to create a practical shower cubicle. And the best part? The toilet, mirror and wash basin stay dry.

2. Easy-to-clean bench toilet. It is not only very comfortable, but also extremely easy to clean.
