Julia and Felix love discovering new things and enjoying their freedom. The two of them can take a trip of discovery with **SPORT & FUN**, **DESEO** and **TRAVELINO**

YOUR FREEDOM IS OUR PHILOSOPHY

With indispensable passion, we have been realising unforgettable vacation moments at KNAUS since 1960. With all of our experience and the courage to forge new paths, we combine the familiar with the new. In production, we rely on quality made in Lower Bavaria. In the development of new vehicles, we use the most modern construction and engineering technologies available. This combination of tried-and-tested principles and innovative ideas makes us one of the most successful brands in the industry. And to the #Number 1 brand of our customers.

HOW WE BECAME WHO WE ARE

From a small motorhome plant in Lower Franconia to one of the most significant industry brands: With introduction of the legendary Swallow's Nest (Schwalbennest) in 1961, company founder Helmut Knaus set new industry standards. From that point on, the pair of swallows in the company's logo has become inseparable from the most beautiful way to spend a vacation.

FROM THE IDEA TO A KNAUS

In order to turn a really good idea into a great vehicle, several steps are necessary. We process each and every one of these steps with the goal, of designing vehicles with which you can spend the most beautiful time of your life.

2. KEY FEATURES

Vacation, sport, transport or everything in one? We define what the vehicle must be able to do for its intended purpose.

3. EXTERIOR & INTERIOR

We clarify what versions are offered. What is particularly exciting: What the caravan looks like at the end of the process. Because the design is the key to success.

1. IDEAS & SKETCHES

Where is the journey going?
A compact caravan or something larger, more luxurious?

4. PREPARATIONS IN THE PLANT

For a new model, we always have to create the most suitable conditions. Therefore, we invest in our manufacturing plants. And especially in our employees. Our main plant and R&D centre is located in the lower Bavarian town of Jandelsbrunn. In Mottgers (located in the State of Hesse) and in the Hungarian city of Nagyoroszi, we have built two ultra-modern manufacturing sites. We employ over 2,000 people in the Group, many of whom have been with us for over 30 years. We provide our employees with optimal working conditions, so that they can receive ongoing training and be compensated fairly.

Do you want to experience live and on site how caravans are built? Learn more at www.knaus.com/factory-tour

5. PROTOTYPE

The idea is beginning to take on recognisable shape. The first prototype is created.

6. SERIES PRODUCTION

Passed all tests. Now we can get going. Soon the new caravans will be on the road.

7. CUSTOMER DELIVERY

Our new model has arrived at its destination – prepared for many years of dream vacations.

Further information about factory pick-up can be found at www.knaus.com/werksabholung

OUR MISSION: A REVOLUTION

THE MISSION is more than just the journey to a new model series. THE MISSION is the order, the hurdles, the courage and the goal to revolutionise the future of the leisure vehicle industry. The TRAVELINO was the first step. The TRAVELINO showed us what is possible in terms of lightweight construction, flexibility and sustainability. With the brand-new DESEO, we are continuing down this path with the ultimate goal of revolutionizing all of our models and can proudly declare: MISSION accomplished.

THE DIRECTION

Consistently lightweight design for a four-person caravan with a permitted unladen weight of 750 kilogrammes.

THE VISION

What must the caravan of the future be able to do? Only one thing is certain: We are going new directions.

THE CONCEPT

We presented the TRAVELINO to a thrilled audience at the CARAVAN SALON 2014 in Düsseldorf.

THE TRAVELINO 1.0

The series production is completed; the market launch is just around the corner – then the relaunch. We aren't yet satisfied with our innovation, we want a revolution.

THE REVOLUTION

The TRAVELINO 2.0 is born. Using revolutionary bodywork technology and cutting-edge materials, we enter series production.

THE IMPLEMENTATION

With the DESEO, the second chapter of the THE MISSION enters series production. And it's guaranteed not to be the last.

on to new tasks

Behind every significant change, we see strong personalities that have a clear vision in front of them.

Revolutionary technology in detail: MissionTec

With the TRAVELINO, we have taken a big step toward the future. But that is just the beginning! Our innovative technologies should be developed further and included as a standard in more and more vehicles. However, what is so special about our new vehicles?

POWERAXLE

Chassis technology that is light as a feather. With 35% less weight than a comparable conventional chassis, our PowerAxle takes a significant step towards hybrid and e-mobility caravanning.

REVOLUTIONCUBE & COLDMELT

Ultrasonic speed – even on the inside. With the RevolutionCube technology, we employ EPP, thereby using an entirely new material. Extremely lightweight and durable. Moreover, using ultrasonic technology, so-called KALTSCHMELZ® dowels are permanently connected with the lightweight construction carrying material.

FIBREFRAME

Patented frame technology. We have developed a self-supporting frame with which furniture is truly just furniture and no longer stabilising elements. That opens entirely new possibilities and unimagined flexibility in the layout and room design.

ULTRALIGHT

The new lightness. The total is more than just a sum of its parts. This applies in particular to our lightweight construction caravans. Because only through the clever combination of all of our revolutionary technologies and the courage to forge new paths were we able to realise our vision of an efficient caravan of the future: That is ultra-light!

BEST TECHNOLOGY FOR THE MOST BEAUTIFUL TIME OF THE YEAR

1. STRONG, HIGH-STRENGTH GRP ROOF¹

GRP is not just GRP. The strength varies depending on the total glass content. For maximal hail protection, we have therefore decided to use a high-strength variant with a fibreglass share that is three times higher than standard GRP.

2. DURABLE PRO.TEC FRAME²

The Pro.TEC Frame is an especially severe aluminium strip that connects the side wall, front wall, back wall and the roof. It improves the stability of the structure and thereby the durability of the entire vehicle. A particular highlight: in the Pro.TEC Frame, there is a compartment for sealing compound. This can therefore no longer spring up, and a clean appearance is created.

3. KNAUS CATEYE evolution – TAIL LIGHT²

With three-dimensional lighting geometry and dynamic LED indicators, the new CATEYE evolution rear tail lights further enhance the design of the unique KNAUS night signature as well as increasing driving safety.

4. EXCLUSIVE 17" KNAUS ALLOY WHEELS^{2,3}

Striking design and genuine KNAUS DNA. There's a lot to the new alloy wheels, which make the overall image of our caravans even more harmonious.

5. HIGH-QUALITY FILMS¹

Timeless design doesn't help if the vehicle looks outdated after just a few years. Therefore, we only use high-quality films manufactured by renowned suppliers, such as 3M, Avery and Oracal.

6. CENTRAL SERVICEBOX²

The complete supply technology is centrally placed. There is easy and fast access to all important elements through the flap integrated in the side panel.

¹ Across all series

² Depending on the model

³ Optional

Optimally equipped and relaxed during your vacation

So that your vacation remains unforgettable from the very first moment until the final second, our caravans have elements that increase both the driving as well as the living comfort. For this reason, we place as much value on an AKS stabiliser as on excellent mattresses.

1. AIR CHAMBER SHOWER CURTAIN^{1,3}

Everyone knows: the wet shower curtain in a caravan is a magnet for the human body. Our vehicles are equipped with an integrated air chamber that provides the shower curtain with its form and thereby keeps it from your body.

2. PREMIUM GAS BOTTLE LOCKER²

A large access is created due to extensive parallel lifting technology. The gas pressure spring ensures that the hood opens softly and automatically. Through the optional aluminium floor, the gas bottle holder is even more robust for 2x 11 kg gas bottles.

3. JOCKEY WHEEL WITH SUPPORT WLOAD INDICATOR²

Loading errors can be easily avoided with the new jockey wheel that includes a vertical load indicator. The current vertical load is displayed directly and you can react accordingly.

4. AKS LANE STABILISER¹ & AL-KO AAA PREMIUM BRAKE²

For a safe journey, the series AKS lane stabiliser eliminates swerving motions and thereby also the dangerous sway of the vehicle. Thanks to the self-adjusting AL-KO AAA premium brake, the caravan always brakes optimally with the brake process of the towing vehicle.

5. SAFE ALKO CHASSIS¹

The chassis of our caravan is always galvanised and therefore never presents a problem in the wintertime. Due to semi-trailing arm axles and oil-pressure shock absorbers, you will enjoy a comfortable ride.

6. KNAUS CABIN DOORS¹

Our cabin doors all have solid metal locks for maximum security. You will not be the only one who is pleased about the automotive system with its silent closing mechanism. Your camping neighbours will also enjoy quieter nights. More information can be found on page 24.

7. EXCELLENT EVOPORE HRC MATTRESSES¹

30% lighter and a 40% lower hardness reduction as comparable cold foam mattresses. Even with one-sided use, there is no dent. The 5-zone EvoPore mattresses do not only pamper you with excellent sleeping comfort, but also convince through their extraordinary durability. The optional WaterGel topper with up to 50 mm more thickness in combination with a high-quality disc spring slatted frame ensures even more exclusive sleeping comfort.

¹ Across all series ² Depending on the model ³ Optional

That's how nice it is to start your holiday with KNAUS Caravans

With our five different cabin doors*, you have all the options. All KNAUS cabin doors are equipped with a weatherproof double seal to keep out unwanted driving rain and other weather conditions safely. The COMFORT and PREMIUM variants also have an automotive locking system and are available in an extra-wide version depending on the layout.

The KNAUS ServiceBox: Practical & central access

From the tank drain valve to the venting valves, from the water tank to the power connector: Thanks to the newly developed ServiceBox, you have central access to all important elements of the supply technology in your caravan through a flap perfectly integrated into the side panel. Instead of spending hours searching and just as much time with a complicated filling process, you can instead relax quickly.

UNIQUE SERVICEBOX

- A. Tank drain valve
- B. Venting valves
- C. Power connector
- D. Water tank with cleaning opening
- E. Practical storage space (dependent on layout)

We don't build castles in the sky, instead we build furniture that creates a pleasant atmosphere

In our caravans, the expectations made of the furniture are very high. The expectations are not just met by providing attractive designs and a huge amount of storage space. Durability, durable construction and technology that inspires for as long as you own it – those are our standards.

ELABORATE INTEGRAL FURNITURE CONSTRUCTION²

Air circulation is one of the main requirements for ensuring a pleasant and healthy atmosphere.

Ceiling-mounted cabinets:

They are designed durably and with a gap to the walls. The result: the air can circulate without restrictions behind the cabinets. Condensation is thereby avoided in the cabinets and your clothing and goods always stay dry and fresh.

Kitchenette:

All furniture must be ventilated in such a manner that it can optimally perform its function. The open rear ventilation slats ensure perfect circulation of the heating air and thereby create a pleasant warmth within the vehicle.

1. STABLE SOFT-CLOSE FULL-EXTENSION SLIDES²

Due to the full-extension slide, the drawers slide out so far that they can be filled or emptied easily right to the very back of the drawer. They are precisely guided and close gently – for the entire lifetime of the vehicle, and probably beyond.

2. SCRATCH-RESISTANT HPL/CPL SURFACES¹

High pressure laminates and continuous pressure laminates are laminates that are specifically used for heavy loads such as in kitchens. The multi-layer construction is produced under extremely high pressure, and then sealed with an exceptionally robust surface layer. This makes our work areas and table tops (always HPL) and furniture fronts (CPL, depending on model) particularly scratch-resistant.

3. ELABORATE AMBIENT LIGHTING³

Everywhere where indirect light increases the well-being, we install pleasant lighting concepts. Even the practical use does not take a back seat. For example, when open the ambient light strip underneath the kitchen countertop also illuminates the drawers. This way, you'll find the corkscrew in no time at all. The high-quality panelling on the back kitchen wall, in the same decor as the counter top, serves as a practical stain and splash protection and also creates a more harmonious overall look in the kitchen area.

4. SOLID DOWELLING TECHNOLOGY¹

We join our furniture using elaborate dowelling as a standard. This means we achieve great precision in fitting, as well as a considerably more stable furniture construction so that your furniture will still serve you well even after many years.

¹ Across all series ² Depending on the model ³ Optional

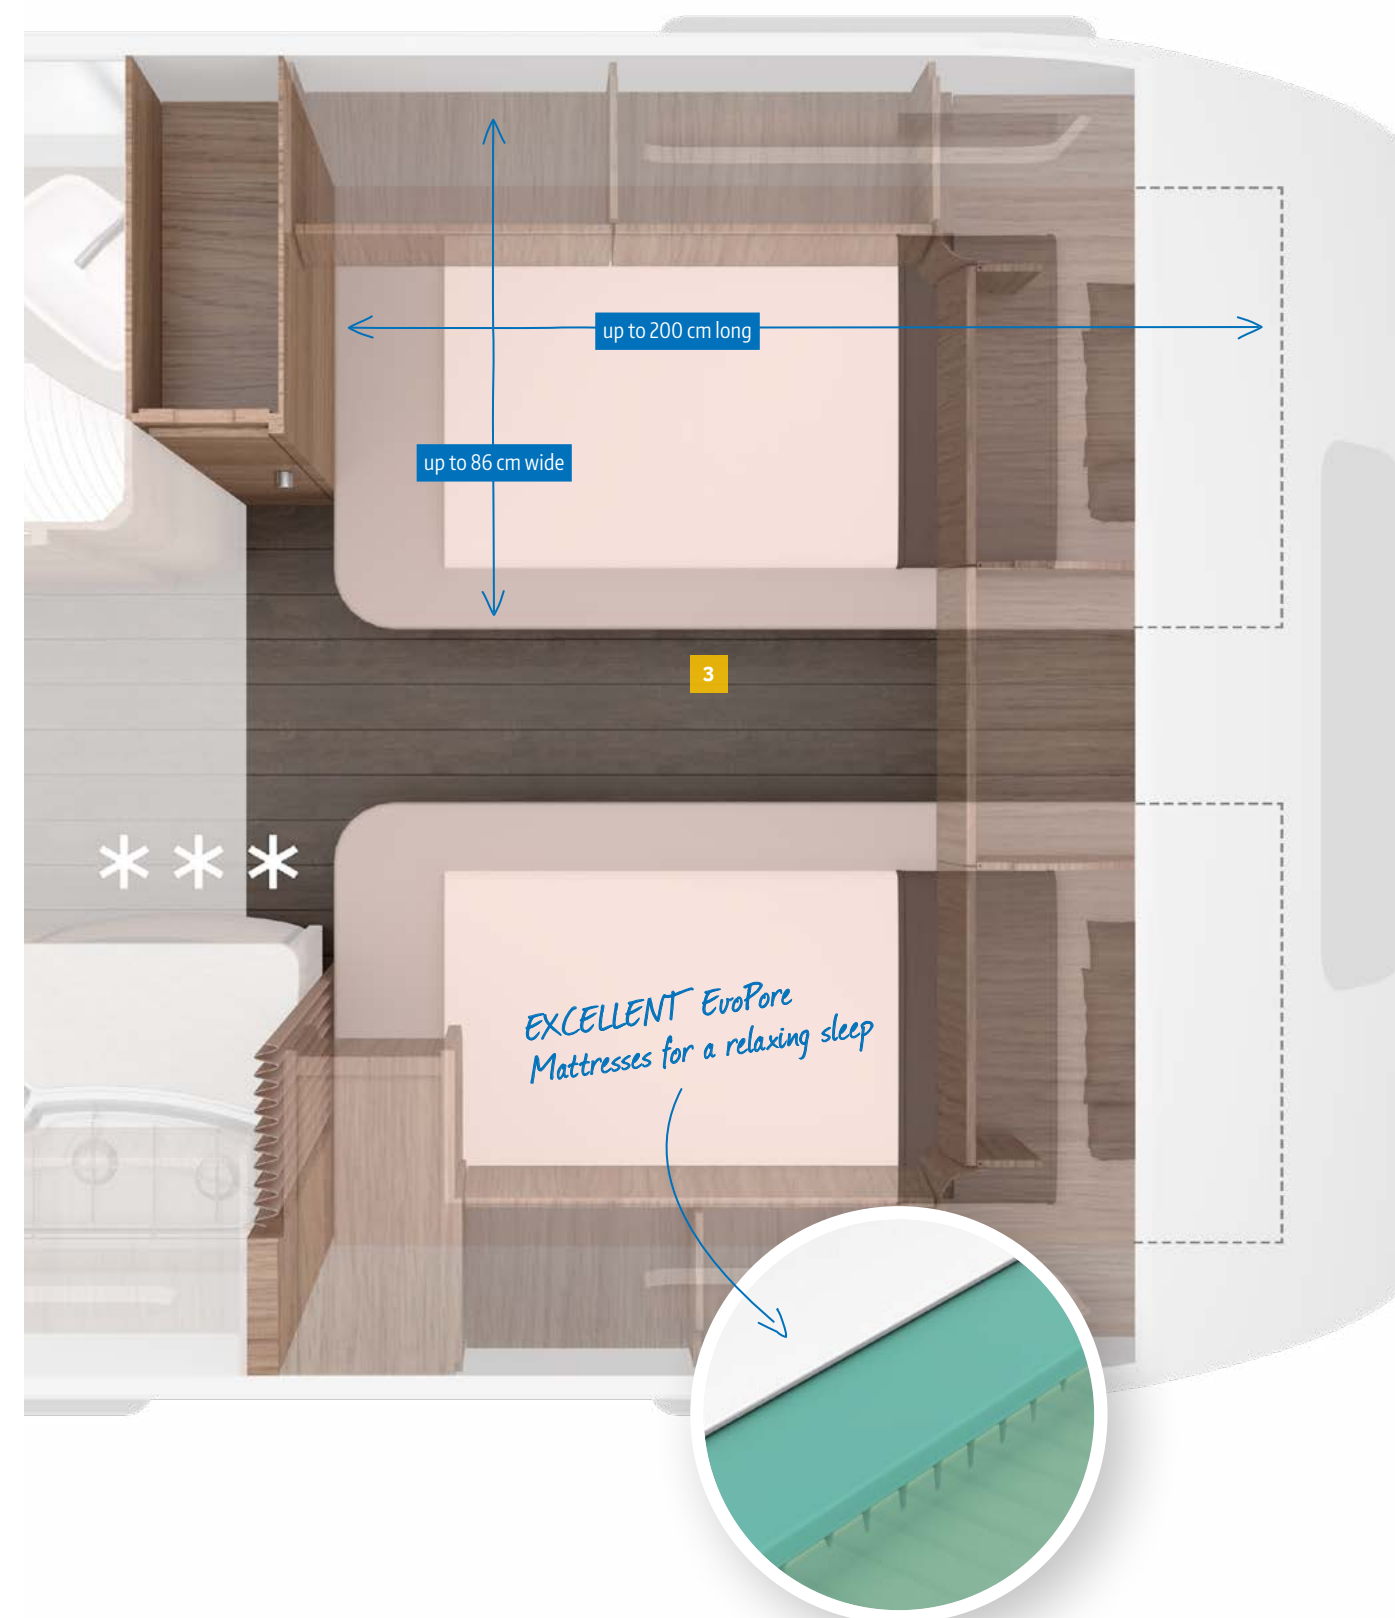

DISCOVER OUR BED VARIANTS

Travelling means discovering and relaxing. So that you can begin every eventful day of your trip in a fully relaxed way, you'll have various bed variants to choose from: from extending single beds to spaciously designed king-sized relaxation area. How would you like to sleep?

- 1. Generously sized beds.** Depending on the layout, the individual beds are between 185 cm and 200 cm long and about 90 cm wide.
- 2. Expandable into a double bed.** The retractable bed frame creates a foundation for the perfectly fitted upholstery. In no time at all, the single beds are turned into a comfortable bed measuring over 200 cm wide.
- 3. Lots of storage space.** Underneath the beds, you'll find additional storage space for everything that makes you vacation nicer.

SINGLE BEDS

Dreaming in French & in bed like a queen: Everything is possible with these bed variants

The French bed is a true space-saving miracle. In combination with the adjoining bathroom, it uses the space in such an optimal way, that the sense of space within the entire vehicle is always a bit greater than the length of the vehicle lets on. The queen bed is accessible from both sides and allows you to get up and lie down without waking your partner.

FRENCH BED

1. Lots of room to sleep. With a length of up to 200 cm and a width of 157 cm, the French bed offers plenty of room for sleeping and cuddling.

2. Optional comfort resilience system. The optimal support for the excellent EvoPore mattresses and the basis for a relaxing sleep.

QUEENS BED

1. Royal dimensions. With a length of 200 cm and a width of 144 cm, the queen-size bed will ennoble your night's sleep.

2. Twice as good. Thanks to the special room layout, the queen-size bed is accessible from both sides and gives comfortable access to the rear bathroom.

Transversal, children's and guest beds: The perfect place to sleep for everyone a dream vacation

Would you like to experience a true space miracle? Are you travelling with children or grandchildren? Or would you prefer additional places to sleep to accommodate spontaneous guests? If so, our transversal, children's and guest beds are a perfect fit.

TRANSVERSAL BED

- 1. Ideal for those who want to sleep in.** Depending on the layout, the transversal beds are up to 209 cm long and, for lots of space to stretch out, 150 cm wide.
- 2. Perfect use of space.** The transversal bed is similar to the French bed – it's space-saving qualities ensure that you don't waste space. That means your living room area will benefit.

CHILDREN'S BEDS

For the kids. Depending on the model, the bunk beds with fall-out protection can be optionally expanded with a third bed. Depending on the variant, the lower bed can be folded up – this creates additional storage space.

GUEST BED

For the guests. Or even for use as additional children's beds, the seating groups (optional in part) can be turned into comfortable beds.

DISCOVER OUR BATHROOM VARIANTS

The KNAUS bathroom variants are stylish, thought-through and spacious. In the design, we place great significance on a user-friendly design, as much storage space as possible and creating a pleasant atmosphere.

BATHROOM VARIANT 1

Innovative and practical. Lots of room, even to house a low-maintenance and comfortable bench toilet, practical shower, additional shelf space due to one-piece washbasin, and numerous practical details such as a laundry compartment.

Layouts: DESEO 400 TR

BATHROOM VARIANT 2

Innovative and practical. With the pull-out shower tray, the bathroom in the SPORT & FUN is a true space miracle, which leaves lots of room for living and transporting.

Layouts: SPORT & FUN 480 QL

BATHROOM VARIANT 3

Variable and ground-breaking. Intelligent use of space is one of future trends. With the foldable wall, you can either enlarge the size of the bathroom or the living room. As you please.

Layouts: TRAVELINO 400 QL

BATHROOM VARIANT 4

Compact and comfortable. Thanks to the swivel toilet and the space-saving, fitted washbasin, in our compact caravan you'll also find a fully equipped bathroom.

Layouts: SPORT 400 QD

BATHROOM VARIANT 5

Universal and well thought-through. Very practical, due to the large washbasin. In the SPORT, with a swivel washbasin; in SÜDWIND with a bench toilet.

Layouts: SPORT 400 LK, 420 QD, 460 EU, 500 EU, 500 QDK, SÜDWIND 420 QD, 460 EU, 540 UE, 580 UE

BATHROOM VARIANT 6

Clever and spacious. Standard for the layouts with French beds. In the SPORT with swivel toilet, in the SÜDWIND the premium bench toilet is installed.

Layouts: SPORT 450 FU, 500 FU (UF), 540 FDK, 550 FSK, 650 UDF, SÜDWIND 450 FU, 500 FU (UF), 500 PF, 540 FDK, 540 FSK, 750 UDF

BATHROOM VARIANT 7

Ingenious and huge. Those who select the transversal bed and children's bed, receive the nominally large bathroom that offers lots of room, even a separate shower.

Layouts: SPORT 500 KD, 580 QS, SÜDWIND 500 QDK, 580 QS

BATHROOM VARIANT 8

The full rear side. This bathroom variant extends across the entire rear width and offers space for a large washbasin with numerous storage compartments next to mirror and base cabinet, as well as a separate shower.

Layouts: SÜDWIND 650 PXB, 650 PEB

DESEO

#NUMBER 1, BECAUSE IT...

is the second chapter
of the THE MISSION
and **part of the**
revolution.

unites **living and**
transporting like
no other.

leads the way into
the future with its
revolutionary
FibreFrame.

*Progressive design language through
innovative construction. This is
how bright the future is.*

*The central service module in the gas locker with
supply connections and opening for the emptying of
the cassette toilet for maximal operating comfort.*

The entire world in one layout.

As well as the DESEO is constructed, Julia and Felix are able to load everything on board that will make their vacation perfect.

Up to 4 places to sleep

DESEO 400 TR

There is space for 2 motorbike mounts on the optional folding seat

DESEO 400 TR

My Tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

“With its large hatch door, the DESEO is predestined for an expansion of the living room.” Just in time for the marketing introduction of the brand-new DESEO, our partner WIGO tents has developed a specially designed rear tent that can be combined with an awning.”

The automotive tailgate does not just make the operation simple; it also connects the living room with the great outdoors.

DESEO OVERVIEW

2-4 LT 5

Layouts: 1

Total permissible weight: 1,500 – 2,000 kg

More information at www.knaus.com/deseo

Big door for a fresh breeze. On the go all day, but still haven't seen enough. Thanks to the huge tailgate, Julia und Felix can say "cheers" inside while still feeling as if they are sitting outside.

Unobstructed view ♥

- 1. Retractable LED-TV.** So that it is not damaged during transport and only uses a small amount of space, the 24-inch Full HD TV disappears elegantly in the side panel.
- 2. Spacious wardrobe.** Lots of room for storing several weeks' worth of clothing.
- 3. Additional storage space.** Even the space underneath the seating area is perfectly used in the DESEO.

Blinds give the interior a modern, technical appearance.

LOUNGE OVERVIEW

400 TR Seat bench with stools

DESEO 400 TR

KITCHEN OVERVIEW

400 TR Galley kitchen

DESEO 400 TR

Cooking for two.

The 2-flame cooker is optimally suited for this, since it is aligned in such a way that it optimally uses the space and offers sufficient space for the preparation of your favourite meals. For Julia and Felix, that's standard and simple: good pasta.

DESEO 400 TR

1

Due to the large tailgate, you are practically lying outside.

DESEO 400 TR

2

1. Practical organisation box. In the kitchen, there are many little helpers. Thanks to the organisation box, there is set place for everything.

2. Modern blinds. This is where function and design are perfectly combined. The blinds perfectly match the modern room concept and offer a high degree of darkening.

The sweetest dream has already become reality. Those of us who, like Julia and Felix, enjoy sleeping with a view as well as resting comfortably will love the lifting bed in the vehicle rear. It can very easily be lowered and, when the tailgate is open, it offers the best view vantage point for counting stars.

- 1. Revolutionary construction.** The rail for the lifting bed is directly integrated into the B-Pillar of the FibreFrame.
- 2. Practical details.** So that there is pleasant lighting in the lifting bed, we've installed additional LED spots.

BED OVERVIEW

400 TR

More information regarding our beds can be found **on pages 28 - 33.**

Lifting bed

Guest bed

DESEO 400 TR

DESEO 400 TR 2

Biker style, which you've never seen before.

The compartments in the bathroom are so spacious that Felix can easily store everything here and be up and on is way in no time at all.

1. Innovative shower curtain. An integrated air chamber turns the curtain into a shower cabin and thereby keep it from touching your body.

2. Spacious laundry compartment. Another practical detail that ensures that everything is optimally organised in the DESEO.

Bathroom variant 1

BATH OVERVIEW

More information regarding our bathrooms can be found on pages 34 - 35.

- 1. Stable motorcycle holder.** Motorcycles must be particularly well secured during transport. Therefore, DESEO offers stable motorcycle holders.
- 2. Flexible and comfortable.** In just a few simple steps, the double bed can be converted into a comfortable bench. And you can even invite guests thanks to the variable stools and folding table.
- 3. Organised load compartment.** All furniture is safely stowed on the side walls during transport. Everything has its place and you have enough space for bikes and more.
- 4. Integrated loading ramps.** For easy loading, the DESEO always has two stable, retractable access ramps on board.

STORAGE SPACE OVERVIEW

400 TR  

SPORT & FUN

#NUMBER 1, BECAUSE IT...

is simply a **true legend** among the caravans.

can easily transport **any type of sports equipment.**

Perfectly combine **value of living and value of use.**

Perfect combination of materials and maximal stability thanks to Pro. TEC frame. (additional details on Page 21)

The forms made of sturdy ABS-PMMA plastic ensure a striking design and even after many years, they look as good as new.

Built to deliver: SPORT&FUN.

Precisely the right caravan for enjoying a surfing vacation along the Spanish coast. Thanks to a huge front garage, all of the equipment can be taken along.

SPORT&FUN 480 QL

My Tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

“You want to have more space during your vacation?”

Then the WIGO awning is perfect for you – it has been customised to perfectly fit the SPORT&FUN. Easy to assemble using piping entry and removable side panel are only a few of the advantages.

Learn more at : www.wigo-zelte.de

Why the high-strength GRP roof is especially stable, is noted on Page 21.

Use the sturdy and secure ladder to access the roof.

SPORT&FUN OVERVIEW

Layouts: 1

Total permissible weight: 1,300 – 1,700 kg

Storage space rear garage: ca. 160 X 216 cm

Wave rider & World traveller. While Julia is testing the mood of the Atlantic Ocean, Felix immerses himself into the depth of his guidebook.

Who needs wine glasses?

- 1. High quality 3-flame cooker.** Make an espresso, cook noodles and prepare sauces – thanks to the sturdy cast-iron grate, it's not shaky issue.
- 2. Room-high 145-litre refrigerator.** So that you can store everything easily, and not have to bend down.
- 3. Spacious medicine cabinet pull-out.** Optimal room use for maximal storage space and more fun while cooking.

They keep their promise: the doors can be opened wide and are particularly sturdy

Scratch-resistant HPL countertop and CPL furniture fronts look as good as new, even after numerous cooking events

KITCHEN OVERVIEW

480 QL Galley kitchen

SPORT&FUN 480 QL

Fold down the seats and fall into a deep sleep. If it was up to Julia, this kind of bed can't be big enough. Felix is looking forward to the practical fold-down function, through which no centimetre of storage space is lost.

1. Foldable bed. With the pneumatic springs, the folding up is child's play. The loading process can begin.

2. Height-adjustable bed. As an alternative to the foldable variant, in the SPORT&FUN version you can also select a height-adjustable bed with elaborate adjusting mechanisms. In this way, the bed can also be used if the transport capacity of the rear garage is maxed out.

BED OVERVIEW

480 QL

Transversal bed

Guest bed

Sunbathing to go.

After spending a day in the Spanish sun, Julia finds a welcome refreshment. And the practical cabinets are a true joy.

1. Pull-out shower. The bathroom can be easily expanded through the addition of a bathtub that can hold loads of up to 120 kg. A fresh air hose is integrated in the shower curtain. It basically turns the shower curtain into a shower cabin and prevents the curtain from clinging to the body.

2. Excellent use of space. Lots of room for a relaxing vacation experience. Every corner and every angle is optimally used.

Bathroom variant 2

BATH OVERVIEW

More information regarding our bathrooms can be found on pages 34-35.

Large shower in the compact caravan. The optional retractable shower tray makes it possible.

1 SPORT&FUN 480 QL

2 SPORT&FUN 480 QL

- 1. Huge garage at front.** Fold the bed up or use the optional height-adjustment and then various sports and leisure-time equipment will have sufficient room for storage.
- 2. Embedded lashing rings.** So that you can optimally secure your cargo and no tripping hazard is created, in case you don't have any things to transport.

TRAVELINO

#NUMBER 1, BECAUSE IT...

rings in a **new vehicle era.**

is a full-fledged 4-person caravan **with an unladen weight of just 750 kg.**

introduces a completely **new design language.**

Revolutionary FibreFrame technology for maximum safety at minimal weight

Experience a new dimension of driving dynamics and weight reduction through the ultralight chassis construction.

Dynamic appearance thanks to LED tail lights with sweeping turn signal indicator

Travel uphill with ease. Tight switchbacks, steep inclines and thin high-altitude air. Thanks to the revolutionary lightweight construction, not a problem for this trailer. It works so well, that even Felix is jumping for joy.

TRAVELINO 400 QL

Four persons in a 400-setup

My Tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

"This is how easy it is to get even more out of the TRAVELINO. In particular, the custom-fit awning made by WIGO can be easily installed."

Impressive change of perspective.

As comfortable as the seat bench is, when Felix begins his camera tour Julia is happy to put aside her sketching block.

← Your favourite music makes you tap your feet ♡

1 TRAVELINO 400 QL

2 TRAVELINO 400 QL

- 1. RevolutionCube furniture construction.** Completely new furniture forms and shapes with low weights but tried-and-tested stability.
- 2. Charging station.** This is where you can easily charge your tablets and laptops easily with your USB cable. One special feature: Smartphones can be wirelessly charged through induction. In addition, through the direct integration into the furniture carcass behind the seat bench, the socket is not noticeable and offers a secure storage spot.

Brilliant cube lights the ambient lighting in the TRAVELINO consists of the LED light bands integrated into the furniture carcass.

↗ The table can easily be lowered and provides room for an additional bed.

TRAVELINO 400 QL

KITCHEN OVERVIEW

400 QL Compact kitchen

Good to dish up.

In the compact kitchen with modern furniture, Julia makes a perfect soup. And that gives Felix two reasons to be happy.

- 1. Fully equipped kitchen.** Lots of storage space and an extending countertop, so that you can organise your workspace optimally.
- 2. Spacious 80-litre refrigerator.** Even in an ultralight caravan, a refrigerator for your supplies must be on board.
- 3. Unique materials.** Thanks to the carcass made of expandable polypropylene, an entire wall unit only weighs a few kilos but still stores your kitchen utensils without a problem.

From a bench to a bed with ease.

Julia gets wide-eyed when Felix quickly converts the seat bench into a bed. There would even be room for visitors on the guest bed.

1. Stylish roof liner trim. The edging of the skylight in dark material brings dynamics into the interior design.

2. Variable places to sleep. Instead of the series transversal bed in the front, TRAVELINO also optionally provides two seating group in the rear and front. With only a few moves, both can be transformed into a double bed so that four places to sleep are created.

Space redefined.

What looks like a wardrobe door, is in reality the bathroom. If required, space-saving and easy to use.

1. Intelligent room arrangement.

For more range of motion and a better spatial feeling, you can cut the size of the bathroom in half. As long as nobody is using it, of course.

2. Efficient use of space. Thanks to the spacious mirror cabinet, foldable washbasin and additional shelves.

Bathroom variant 3

Kitchen in top shape.

Whether you want freshly squeezed orange juice for breakfast or delicious stir-fried vegetables in the evening. Here, family Bauer can feast whenever they're in the mood.

Optimal accessible gas stop valve

1. Numerous kitchen variants. Even our compact layouts have spacious kitchens. The best example is the 420 QD.

2. Drawers with full-extension slides. They slide out so far that you can use them right to the very back of the drawer.

3. Large 3-flame cooker. Lots of room for storing several pots or frying pans – and thanks to the solid cast-iron grate, they are absolutely secure.

Single beds

Transversal bed

French bed

Child's bed

Free bed choice? No matter how good a bedtime story is. In the parents' bed, she is still a bit better. And who could blame little Mathilda on that blissful smile?

- 1. Comfortable children's beds.** In every layout with a "K", you'll find comfortable children's beds and lots of extra storage space in the bed drawer.
- 2. French bed.** Thanks to the adjoining bathroom area, layouts with a French bed make perfect use of the living space, down to every last corner.
- 3. A guest bed that guests love.** In select layouts, you can transform the dinette into a guest bed.

On your marks, finish, brush! Not a sporty discipline, but still fun for the whole family. Especially at the modern washbasin cabinet.

- 1. Layout with French beds.** This variant always has a closed toilet room with shower (optional) and a washbasin, which is accessible from the living room.
- 2. Bathroom variant 500 KD/QS.** For layouts with a cross bed and cots, the bathroom is very spacious and has a separate shower.
- 3. Clean bathing fun.** Thanks to the easy-care surfaces, the bathroom is particularly easy and quick to clean.

Your favourite food taste good anywhere. But while on holiday it tastes even better, especially when mum and dad are doing the cooking. On the 3-flame cooker, there is enough space for family-sized portions.

- 1. 3-flame cooker with electric ignition.** Heats lightning fast and thanks to the high-quality cast iron grate, 3 pots have a secure stand at the same time.
- 2. High quality wall paneling.** Protects against stains and splashes during cooking and, thanks to the same décor as the worktop and ambient lighting, looks particularly classy.
- 3. Colossal fridge.** With 177 liters of volume this offers enough space for all favorite foods. Thanks to double connection, it can be easily opened in both directions.

QUEENS BED SÜDWIND 650 PXB

Soft head and side panel as well as a wall trim in leather ensure a noticeably high-quality ambience.

Transversal bed

French bed

Queens bed **NEW**

Child's bed

A spot for dreamers. The beds are aligned in such a way that they are like small retreat. This way, one-half of the bed can finish their chapter, while the other half sleeps.

1. Functional children's beds. In some layouts, the 2-bunk bed can optionally be extended into a linen cupboard or a third level. With the 3-level version, you get a multifunctional bed for sitting, sleeping and lounging.

2. Extending single beds. 2 separate longitudinal beds become a large sunbathing area in no time.

3. High-quality disk-spring frame. A feature from the luxury class: The optional point-elastic feather elements guarantee a wonderful night's sleep.

Children, what a bathroom. There's enough space for everything at the large sink. Even for a little nonsense with dad.

1. Bathroom variant 7 at the rear.

Here you have plenty of freedom of movement, a large washbasin and a separate shower.

2. Clever thinking. The foldable clothes rail is standard on all models and is perfect for drying bath towels and wet clothes. To save space, it disappears on the wall when you do not need it.
