*** Interior: fly screen and black out blind

²⁾ Move-out for bed extension with compensating cushion (middle seating groups) available as an option, item-no. 551965

³⁾ folding bed above fixed bed available as an option, item-no. 551112

KNAUS SPORT – Standard equipment

1. VEHICLE, CHASSIS

- AL-KO Euro chassis with semi-trailing link axle (mono axle; starting from body length 650 with tandem axle)
- Hydraulic wheel shock absorbers
- Automatic reversing system
- Hand brake servo-assisted
- AKS stabiliser
- Spare wheel housing in gas bottle box
- Corner steadies

2. BODY

- Roof of GRP w/ reduced sensitivity of hail
- Aluminium hammer tone finish, front and tail in blank sheet
- Lockable outside hatch
- Cabin door: KNAUS STYLE – two-piece, without window, incl. waste bin
- Convenience one-key locking system
- Gas bottle box in the front can be equipped with 2 x 11 kg gas bottles
- Thickness, roof: 31, Thickness, side wall: 31, Thickness, floor: 38 mm
- 12 V outdoor awning light - LED
- KNAUS CATEYE evolution – rear tail light with exclusive night signature and dynamic blinker in LED technology
- 3rd brake light in LED technology

3. INTERIOR

- Furniture decoration: Olmo Pavarotti – transverse
- Hard-wearing PVC floor covering in wood design
- Ventilated cupboards and storage compartments
- Upholstery selection: Energy, Cool Grey
- Fixed beds with EvoPore HRC mattress
- Textile room partitioner
- Individually movable spots in seating and bed area

4. ELECTRICS

- Electric coupling to drawing vehicle, Jaeger 13 pole
- Interior lighting complete in LED technology
- 230 V Euro exterior power socket, several security interior sockets
- TV installation prepared (co-axial cabling)
- Transformer 240 VA

5. GAS / WATER / Heating

- Gas heating, model: Truma S 3004 (from body length 550: Truma S 5004)
- Fresh water tank permanent mount, 45 ltr.
- Central waste water discharge, one exterior water outlet underneath floor
- Hot water supply with immersion pump 12 V
- Truma Therme hot-water system for kitchen and toilet
- Air circulation system 12V, air circulation system with temperature sensitive automatic revolution system

6. KITCHEN / SANITARY AREA

- 3-flame gas stove with glass cover and stainless steel sink
- Refrigerator Dometic 108 ltr., gas, 230 V, 12 V (gas operation in driving mode are only allowed in combination with Truma Mono Control)
- Refrigerator Thetford 142 ltr. (500 KD, 500QDK, 540 FDK)
- Comfort bathroom (optional shower set; serial equipment on 580 QS)
- Washing basin tap
- Hinged window in toilet room with frosted glass (with blinds)
- Ceramic cassette rotating toilet Dometic
- Foldable clothes pole in toilet room or shower

*Your caravan is equipped with a standard failure control box which is compatible with most of the common towing vehicles. However, as unfortunately not all towing vehicle manufacturers use the same failure control systems, it is possible under unfavourable circumstances that you may have to purchase an extended failure control box for your caravan to ensure trouble-free operation of the KNAUS CATEYE evolution combination rearlights. Your dealer will be happy to advise you.

*** Interior: fly screen and black out blind

1. VEHICLE, CHASSIS

- AL-KO Euro chassis with semi-trailing link axle (mono axle; starting from body length 650 with tandem axle)
- AL-KO-AAA premium brake (self-adjusting brakes)
- Jockey wheel with integrated damper
- Hydraulic wheel shock absorbers
- Automatic reversing system
- Hand brake servo-assisted
- AKS stabiliser
- Spare wheel mount screw-in mount in gas bottle box
- Corner steadies

2. BODY

- Roof of GRP w/ reduced sensitivity of hail
- Aluminium hammer tone finish, front and tail in blank sheet
- Lockable outside hatch
- Cabin door: KNAUS KOMFORT with automotive locking system, double sealing, without window, 2 foldable clothes hangers
- Convenience one-key locking system
- Gas bottle box in the front can be equipped with 2 x 11 kg gas bottles
- Thickness, roof: 31 mm, Thickness, side wall: 31 mm, Thickness, floor: 38 mm
- Lift-tilt sunroof, HEKI II
- Insect protection blind, full length of the door
- 12 V outdoor awning light - LED
- Additional security lighting 3rd brake light in LED technology
- Rotating aluminium edging-loading PROTECFRAME option for awnings (both sides)
- KNAUS CATEYE evolution - Rückleuchte mit exklusiver Nachtsignatur und dynamischen Blinkleuchten in LED-Technik

3. INTERIOR

- Furniture flaps Egmond Elm decor
- Hard-wearing PVC floor covering in Wood design
- Ventilated cupboards and storage compartments
- Upholstery selection: Casual Silver, Grey Comfort
- Bunk bed (standard on 500 QDK, 540 FDK, 550 FSK, 580 QS and 750 UDF)
- Fixed beds with EvoPore HRC mattress
- Extendible slatted frame for single beds
- Wall covering above bed (depending on layout)
- Textile room partitioner
- Single column lift table
- Storage box covers with soft-close function
- Kitchen drawers with soft-close function
- Ambience lighting incl. kitchen back wall paneling in worktop material

4. ELECTRICS

- Electric coupling to drawing vehicle, Jaeger 13 pole
- Interior lighting complete in LED technology
- 230 V Euro exterior power inlet, several security interior sockets
- TV installation, prepared (coaxial cable laying)
- Transformer 384 VA
- Combi-external plug socket (combination electricity + TV)
- TV holder - swivel-mounted
- Radio cabling incl. 2 speakers and cable laying
- Radio/DAB+/MP3-Tuner with USB and Bluetooth
- Incl. electrical outlets Plus package – consisting of:
 - - 1 pc. each of additional 230-volt power outlet in the kitchen and the seating group
 - - 1 pc. each USB socket in the seating group and in the sleep area

5. GAS / WATER / Heating

- KNAUS service module stored behind practical, lockable external flap (for filling water / electrical outlet / fresh water pipe discharge)
- Fresh water tank permanent mount, 45 ltr. (in combination with option 451443 "City water supply connection" 50 ltr. tank volume are available)
- Gas heating, model: Truma S 3004 (up to body length 500); Truma S 5004 (starting from body length 550)
- Central waste water discharge, one exterior water outlet underneath floor
- Hot water supply with immersion pump 12 V
- Truma Therme hot-water system for kitchen and toilet
- Air circulation system 12V, air circulation system with temperature sensitive automatic revolution system

6. KITCHEN / SANITARY AREA

- 3-flame gas stove with glass cover and stainless steel sink
- High-quality KNAUS kitchen tap
- Comfort bathroom (optional shower set, on 500 QDK, 580 QS, 650 PXB and 650 PEB included as Standard equipment)
- Washing basin tap "KNAUS"
- Hinged window in toilet room with frosted glass and blinds/insect protection blinds (depending on vehicle layout)
- Ceramic cassette toilet Dometic (only possible on 500 QDK, 580 QS, 650 PXB and 650 PEB)
- Thetford bank toilet (not possible for 500 QDK, 580 QS, 650 PXB and 650 PEB)
- Foldable clothes pole in toilet room or shower

Item no.	
114507	Design package KNAUS Südwind - Single axle (25 kg)
100570	Drawbar covering
152545	17" alloy wheels for single-axle models, front polished in black gloss in exclusive KNAUS Design
101604	White plain sheet side walls instead of hammer blow variant – single-axle version

Item no.

* Your caravan is equipped with a standard failure control box which is compatible with most of the common towing vehicles. However, as unfortunately not all towing vehicle manufacturers use the same failure control systems, it is possible under unfavourable circumstances that you may have to purchase an extended failure control box for your caravan to ensure trouble-free operation of the KNAUS CATEYE evolution combination rearlights. Your dealer will be happy to advise you.

* depending on the design: Pepita, Mocca or Active fabrics

** Alloy rims must be fitted for load increases to 1.900 kg due to their higher payload capacity.

ALL CARAVANS BY KNAUS ARE DELIVERED WITH A EUROPE-WIDE 10 YEAR LEAK TIGHTNESS GUARANTEE AND A 24 MONTHS WARRANTY. PLEASE NOTE FOR ALL KNAUS CARAVANS:

Dimensions and weight data may vary ca. +/-5% due to tolerances of the natural raw materials used.

With any modifications done on the vehicle by a non-authorized dealer or garage you may put at risk your personal security and lose KNAUS operating licence and warranty. Therefore please leave repairs and retrofits to the authorized KNAUS dealers and insist on KNAUS original equipment.

Retrofittings, if technically possible, will cause additional mounting and material costs. In exceptional cases some combinations of extras and options may occur as mutually exclusive.

We reserve the right to any technical modifications as to design, colour, and equipment, if technical improvement requires us to do so.

The contents of this list reflect arrangements at printing, in 07/2018. It is effective as from 01.08.2018 for the 2019 model year. Previous lists are no longer valid. We reserve the right to change content at our discretion.

The water supply system is minimum state of the art (03/2009) (Regulation 2002/72/EG).

*) Annotation concerning weight data of your KNAUS caravans: KNAUS caravans come with generous permissible vehicle payload options. By means of innovative solutions such as using high performance steel chassis' and honeycomb technology on furniture, low vehicle net weights are being realized. The mass of the empty vehicle as referred to in the price list is the mass of the vehicle with standard equipment and without basic equipment, i.e. without „liquids“ and without optional fittings as referred to in art. 2, ciff. 3 VO (EU) 1230/2012

Mass in running order, see Article 2, ciff. 4 a) VO (EU) 1230/2012, unless nothing different is regulated, is defined as follows:

Mass of the vehicle with standard equipment as referred to in manufacturer specifications:

- + Steel liquid gas bottles (11 kg) filled to 100% (i. e. 23 kg total mass)
- + Fresh water tank (filled to 100%)
- + Toilet flush tank (100 % full)
- + Fresh water boiler filled to 100%
- = Mass in ready-to-start mode

The “permissible total mass” see Article 2, ciff. 7 VO (EU) 1230/2012 is defined as follows:

The mentioned vehicle's maximum mass from the manufacturer in loaded state (incl. Optional equipment/extras/packages and gas, water, luggage and load, etc.)“

For you as KNAUS caravan user:

The maximum permissible payload as referred to in the TQB catalogue is defined as:

Technically authorized total mass - mass in running order = maximum permissible payload

Example:

(Technically authorized total mass) 1.400 kg

- (Mass in running order) 1.090 kg

= (Maximum permissible payload) 310 kg

Please note that maximum permissible payload as referred to in the catalogues, for example if the mass of the additional fitting is reduced.

Please note that your KNAUS caravan still must have a minimum payload capacity (= minimum payload) after deduction of optional equipment's mass from the maximum permissible payload, which may not be below the minimum payload (cf. attachment I, part D, para.

2.3.4.1 VO (EU) 1230/2012):

(Maximum number of berths + total length (in m) of the vehicle body) x 10 = Minimum permissible payload (kg)

Example:

[(Maximum number of berths) 4 + (total length (in m) of vehicle body) 5] x 10 = 90 kg

The mass of the vehicle with standard equipment according to manufacturer specifications is determined through weighing of the vehicle with standard fitting.

As a user of a caravan, you are required not to exceed the values of the permissible total mass in driving mode, and respective maximum permissible axle load and nose weight limits. Furthermore, you are obliged to adhere to all other requirements for a safe usage of your caravan. The prices of our individual packages are fixed prices and cannot be changed because of additional options. Ordering optional equipment which substitutes specific package options will not be delivered additionally.

Your KNAUS dealer is looking forward to your visit!

The details regarding delivery scope, dimensions and weight as well as in terms of appearance are in line with the understanding at the time of printing (07/2018). We reserve the right to make changes to the equipment, technical details, the series scope and the prices. Upon conclusion of the contract, technical changes within the scope of the construction are retained insofar as they serve the technical advancement and are acceptable to the customer. Subtle deviations in colour tone and material properties are reserved – even after conclusion of the contract. This applies insofar as these are unavoidable due to the material itself and are acceptable to the customer.
