# YOUR FREEDOM IS OUR PHILOSOPHY

With indispensable passion, we have been realising unforgettable vacation moments at KNAUS since 1960. With all of our experience and the courage to forge new paths, we combine the familiar with the new. In production, we rely on quality made in Lower Bavaria. In the development of new vehicles, we use the most modern construction and engineering technologies available. This combination of tried-and-tested principles and innovative ideas makes us one of the most successful brands in the industry. **And to the #Number 1 brand of our customers.**

# FROM IDEA TO KNAUS

Turning a good idea into a really good vehicle involves several steps. We take each one with our sights set firmly on the goal of designing vehicles with which you can spend the best time of your life.

## 1. Development

Who should the new caravan be for? Active holidaymakers, small and large families, couples who love travelling? We define how the vehicle must be constructed and equipped for your purpose. We develop various layouts and create the future design.

## 3. Production

All tests passed? Then we can start with series production now. Our main production and development site is located in Jandelsbrunn in Lower Bavaria. In Mottgers in Hesse and in Nagyoroszi in Hungary there are two other ultra-modern production sites. To ensure optimum conditions, we continuously invest in our sites and above all in our more than 2,900 employees throughout the group many of whom have been with us for 30 years and more.

## 4. Satisfied customers

Whether at your local dealer or directly from the factory: we like you to feel comfortable in your new vehicle from the very first moment. That's why our experts give you a comprehensive on-site instruction when you pick up your vehicle from the factory.

## 2. Prototype and testing phase

The idea takes on perceptible forms for the first time. With the construction of the prototype, we can put our ideas to the test in reality and analyse them precisely. In order to meet our quality standards, the prototype must pass numerous tests.

## 5. The mein.KNAUS family

### HOW WE BECAME WHO WE ARE

From a caravan production plant in Lower Franconia to one of the leading brands in the industry: In 1961, company founder Helmut Knaus sets new benchmarks with his first caravan, the legendary "Schwalbennest". From that point on, the logo depicting a pair of swallows is inseparably linked with the world's most wonderful vacation pursuit.

**1960** Helmut Knaus founds KNAUS in the Franconian town of Marktbreit.

**1961** The KNAUS Schwalbennest is introduced to the market – it is compact, comfortable and lightweight.

**1962** An icon is born. KNAUS SÜDWIND celebrates its premiere.

**1970** A new age begins: Our new main plant is built in Jandelsbrunn.

**1973** Helmut Knaus receives the Federal Cross of Merit for his courage and pioneering spirit.

**1985** The company grows quickly. That can also be seen in the new logo.

**2011** On the anniversary date, the Schwalbennest makes a comeback – in a limited edition of 150 units.

**2013** Optimistic spirit at KNAUS: With our Caravisio concept, a new era is launched.

**2016** Lightweight construction alone is not enough for us: We want a revolution. TRAVELINO 2.0 goes into production. From now on, MissionTec defines our work and our vehicle concepts.

**2017** The brand-new DESEO follows the TRAVELINO with the state-of-the-art FibreFrame technology.

**2018** We will become even more efficient with our new production hall in Jandelsbrunn.

# THE FUTURE STARTS NOW

THE MISSION is the quest, the obstacles, the courage and the aim to revolutionize the future of the leisure vehicle industry. With the TRAVELINO we have taken a big step into the future. It has shown us what is possible in terms of lightness, flexibility and sustainability and has paved the way for the new development of the DESEO. Our innovative technologies are to be consistently further developed until we have revolutionized each of our model series and can proudly say so: MISSION fulfilled.

## THE MISSION

**Our mission: A revolution.** For the caravan of the future, we are taking a completely new path. The direction is clear: Consistent lightweight construction for a 4-passenger caravan with an unladen weight of 750 kilograms. There has never been anything like this before. We have analysed, tested, developed and researched. Until the symbiosis of revolutionary body technology and pioneering materials has enabled us to reach the first milestone: the series production of the KNAUS TRAVELINO.

**Chassis technology that is light as a feather.** With 35% less weight than a comparable conventional chassis, our PowerAxle takes a significant step towards hybrid and e-mobility caravanning. As a consistent further development, the new VARIO X chassis in the SPORT&FUN BLACK SELECTION marks the next step in chassis development. Thanks to its bionic shape, it combines uncompromising lightweight construction with outstanding stability and load capacity with optimum handling.

## POWERAXLE

## FIBREFRAME

**Patented frame technology.** We have developed a self-supporting frame with which furniture is truly just furniture and no longer stabilising elements. That opens entirely new possibilities and unimagined flexibility in the layout and room design.

## LIGHTWEIGHT MATERIALS

**Unique lightweight.** The total is more than just a sum of its parts. This applies in particular to our lightweight construction caravans. It was only through the skilful combination of all our revolutionary technologies and the courage to break new ground that we were able to realise our vision of the efficient caravan of the future: this is UltraLight!

## CONNECTION TECHNOLOGY

**Ultrasonic speed – even on the inside.** With the RevolutionCube technology\*, we employ EPP, thereby using an entirely new material. Extremely lightweight and durable. Moreover, using ultrasonic technology, so-called KALTSCHMELZ® dowels are permanently connected with the lightweight construction carrying material.

# BEST TECHNOLOGY FOR THE MOST BEAUTIFUL TIME OF THE YEAR

The exclusive black front-polished 17" aluminium rims contain genuine KNAUS DNA

## 1. STRONG, HIGH-STRENGTH GRP ROOF<sup>1</sup>

GRP is not just GRP. The strength varies depending on the total glass content. For maximal hail protection, we have therefore decided to use a high-strength variant with a fibreglass share that is three times higher than standard GRP.

## 2. DURABLE PRO.TEC FRAME<sup>2</sup>

The Pro.TEC Frame is an especially severe aluminium strip that connects the side wall, front wall, back wall and the roof. It improves the stability of the structure and thereby the durability of the entire vehicle. It also offers a double-sided draw-in option for awnings. A particular highlight: in the Pro.TEC Frame, there is a compartment for sealing compound. This can therefore no longer spring up, and a clean appearance is created.

## 3. KNAUS CATEYE evolution – TAIL LIGHT<sup>2</sup>

With three-dimensional lighting geometry and dynamic LED indicators, the new CATEYE evolution rear tail lights further enhance the design of the unique KNAUS night signature as well as increasing driving safety.

## 4. HIGH-QUALITY FILMS<sup>1</sup>

Timeless design doesn't help if the vehicle looks outdated after just a few years. Therefore, we only use high-quality films manufactured by renowned suppliers, such as 3M, Avery and Oracal.

## 5. CENTRAL SERVICEBOX<sup>2</sup> & WATER FILTER<sup>3</sup>

The complete supply technology centrally in one place. The flap integrated into the side wall gives you quick and easy access to all important elements. The new water filter is always installed in a maintenance-friendly manner and is therefore easily accessible for particularly easy installation and replacement. Detailed information on the structure of the ServiceBox can be found on page 21, on the water filter system from page 22.

## 6. VELOCATE GPS TRACKER<sup>3</sup>

If the worst comes to the worst, Velocate's optional GPS tracking system provides you with optimal protection. The tracking system requires very little power and can transmit for up to three months independently. Thanks to app control, it is particularly easy to operate. AGPS ensures particularly fast location determination and a sensitive GPS antenna provides the best reception for tracking even in difficult environments.

## 7. LEAK-PROOFNESS GUARANTEE<sup>1</sup>

For all our leisure vehicles, we offer you a 10-year leak-proofness guarantee on the body manufactured by us as well as a 24-month guarantee from your KNAUS partner within the framework of our guarantee conditions valid at the time of vehicle delivery.

<sup>1</sup>Across all series <sup>2</sup>Depending on the model <sup>3</sup>Optional

## Optimally equipped and relaxed during your vacation

So that your vacation remains unforgettable from the very first moment until the final second, our caravans have elements that increase both the driving as well as the living comfort. For this reason, we place as much value on an AKS stabiliser as on excellent mattresses.

*Detailed information on sleeping comfort in our caravans can be found from page 26 & on the various bed variants from page 28*

### 1. PATENTED SHOWER CURTAIN WITH AIR CHAMBERS<sup>1,3</sup>

Everyone knows: the wet shower curtain in a caravan is a magnet for the human body. Our vehicles are equipped with an integrated air chamber that helps the shower curtain to maintain its shape and thereby keeps it from your body.

### 2. OPTIMAL GAS SUPPLY<sup>1</sup>

Thanks to the complex parallel lifting mechanism, you have a large access area. The gas pressure spring also ensures that the hood gently glides upwards. The optional aluminium floor makes the gas box for 2 x 11 kg gas cylinders even more solid. The new TRUMA<sup>3</sup> gas pressure regulators are easier to reset and have an optimised, clear status display. In combination with the easily replaceable gas filter insert<sup>3</sup>, the entire gas system and all gas-operated devices are effectively protected. Residues are collected in an exchangeable filter pad so that the filter cartridge no longer needs to be changed.

### 3. JOCKEY WHEEL WITH LOAD INDICATOR<sup>2</sup>

Loading errors can be easily avoided with the new jockey wheel that includes a vertical load indicator. The current vertical load is displayed directly and you can react accordingly.

### 4. AKS LANE STABILISER<sup>1</sup> & AL-KO AAA PREMIUM BRAKE<sup>2</sup>

For a safe journey, the series AKS lane stabiliser eliminates swerving motions and thereby also the dangerous sway of the vehicle. Thanks to the self-adjusting AL-KO AAA premium brake, the caravan always brakes optimally with the brake process of the towing vehicle.

### 5. BIKE CARRIER THULE CARAVAN SUPERB<sup>2,3</sup>

With a payload of up to 60 kg, the bike carrier is ideal for two bicycles or e-bikes. It is mounted on the drawbar. Thanks to the low platform, the carrier is particularly easy to load and offers complete access to the gas box even with bicycles.

### 6. SAFE ALKO CHASSIS<sup>1</sup>

Every chassis of our caravans is hot-dip galvanized and therefore especially protected against corrosion. Due to semi-trailing arm axles and oil-pressure shock absorbers, you will enjoy a comfortable ride.

### 7. KNAUS CABIN DOORS<sup>1</sup>

Our cabin doors all have solid metal locks for maximum security. You will not be the only one who is pleased about the automotive system with its silent closing mechanism. Your camping neighbours will also enjoy quieter nights. More information can be found on page 20.

<sup>1</sup>Across all series <sup>2</sup> Depending on the model <sup>3</sup> Optional

The modern inline keys slide particularly easily into the lock and do not get caught in the trouser pockets

## That's how nice it is to start your holiday with KNAUS Caravans

With our five different cabin doors, you have all the options. All KNAUS cabin doors are equipped with a weatherproof double seal to keep out unwanted driving rain and other weather conditions safely. The COMFORT and PREMIUM variants also have an automotive locking system and are available in an extra-wide version depending on the layout.

## The KNAUS ServiceBox: Practical & central access

From the tank drain valve to the venting valves, from the water tank to the power connector: Thanks to the newly developed ServiceBox, you have central access to all important elements of the supply technology in your caravan through a flap perfectly integrated into the side panel. Instead of spending hours searching and just as much time with a complicated filling process, you can instead relax quickly.

### UNIQUE SERVICEBOX

- A. Tank drain valve
- B. Venting valves
- C. Power connector
- D. Water tank with cleaning opening  
Thanks to the extendable filling aid as well as the integrated water collecting tray, overfilling is not a problem.
- E. Practical storage space  
(dependent on layout)

## Our filter for a clear holiday pleasure

**NEW**

As beautiful as the destination may be, the view into the fresh water tank can quickly spoil happiness. Unfortunately, clean water is not taken for granted everywhere. It's all the more important that you have the possibility to supply yourself with purified water. The high-performance filter system from our partner BWT offers the best conditions for this.

*Contaminated water can not only spoil your taste but also endanger your health*

*The BWT water filter works absolutely chemically free*

*Cooking and showering with hygienically clean water is one of KNAUS' standards for carefree holiday enjoyment*

### BWT BESTCAMP WATER FILTER

The handy water filter leaves nothing to be desired in terms of hygiene thanks to its ultrafiltration membrane. Microorganisms are effectively removed from the raw water. This allows hygienically perfect water to be produced without any chemicals whatsoever. The water filter can be installed in all our leisure vehicles and easily connected.

**Top-class technology:** thanks to the highly efficient hollow fibre membrane, the water filter achieves an excellent retention rate for microorganisms > 99.9999 % (log6). The large membrane surface ensures a high throughput and thanks to the manufacturing from completely food safe materials no unwanted substances get into the water.

**Practical application:** an 8 mm "John Guest" plug connection ensures particularly simple, tool-free installation. This also ensures that the water supply is guaranteed even when no replacement filter is available.

**Healthy enjoyment:** the water filter system minimises the risk of germs in the water. Especially in high-risk regions, the filter proves to be a useful tool for prevention and actively contributes to the protection of your health.

#### This is how easy it is to install & change the filter

1. We only install the filter when the vehicle is handed over so that you can use it for the full period of up to 6 months.

2. Installation is particularly easy thanks to the plug connection and clear markings.

3. The filter can be kept for up to 6 months from the day of installation. A special button shows the current status.

4. If no replacement filter is available, the intermediate piece guarantees the further water supply.

## We don't build castles in the sky, instead we build furniture that creates a pleasant atmosphere

In our caravans, the expectations made of the furniture are very high. The expectations are not just met by providing attractive designs and a huge amount of storage space. Durability, durable construction and technology that inspires for as long as you own it – those are our standards.

### ELABORATE INTERGRAL FURNITURE CONSTRUCTION <sup>2</sup>

Air circulation is one of the main requirements for ensuring a pleasant and healthy atmosphere.

#### Ceiling-mounted cabinets:

They are designed durably and with a gap to the walls. The result: the air can circulate without restrictions behind the cabinets. Condensation is thereby avoided in the cabinets and your clothing and goods always stay dry and fresh.

#### Kitchenette:

All furniture must be ventilated in such a manner that it can optimally perform its function. The open rear ventilation slats ensure perfect circulation of the heating air and thereby create a pleasant warmth within the vehicle.

### 1. STABLE SOFT-CLOSE FULL-EXTENSION SLIDES <sup>2</sup>

Due to the full-extension slide, the drawers slide out so far that they can be filled or emptied easily right to the very back of the drawer. They are precisely guided and close gently – for the entire lifetime of the vehicle, and probably beyond.

### 2. SCRATCH-RESISTANT HPL/CPL SURFACES <sup>1</sup>

High pressure laminates and continuous pressure laminates are laminates that are specifically used for heavy loads such as in kitchens. The multi-layer construction is produced under extremely high pressure, and then sealed with an exceptionally robust surface layer. This makes our work areas and table tops (always HPL) and furniture fronts (CPL, depending on model) particularly scratch-resistant.

### 3. ELABORATE AMBIENT LIGHTING <sup>3</sup>

Everywhere where indirect light increases the well-being, we install pleasant lighting concepts. Even the practical use does not take a back seat. For example, the ambient light strip underneath the kitchen countertop also illuminates the drawers, if opened. This way, you'll find the corkscrew in no time at all. The high-quality panelling on the back kitchen wall, in the same decor as the counter top, serves as a practical stain and splash protection and also creates a more harmonious overall look in the kitchen area.

### 4. SOLID DOWELLING TECHNOLOGY <sup>1</sup>

We connect our furniture using elaborate dowelling as a standard. This means we achieve great precision in fitting, as well as a considerably more stable furniture construction so that your furniture will still serve you well even after many years.

<sup>1</sup> Across all series <sup>2</sup> Depending on the model <sup>3</sup> Optional

# OUR FEATURES FOR YOUR SLEEPING COMFORT

Sweetly falling asleep and waking up relaxed. We give the highest priority to the design of the sleeping area so that you can always have a relaxed start into an eventful holiday. Our concept comprises high-quality materials, well thought-out details and individualisable solutions.

*Our precisely fitting, optionally available sheets optimise the lying comfort*

## 1. EXCELLENT EVOPORE HRC MATTRESSES<sup>1</sup>

30% lighter and 40% less loss of hardness than comparable cold foam mattresses. No development of 'hollows' even in one-sided use. The 5-zone EvoPore mattresses (1a) not only pamper you with excellent sleeping comfort, they also impress with exceptional durability. The High-Resilience-Climate technology ensures that the mattress remains highly elastic even under demanding climatic conditions. For even more exclusive sleeping comfort, the optional WaterGel layer is up to 50 mm thicker. The breathable foam adapts smoothly to the body.

## 2. SLATTED FRAME<sup>1</sup> & SLATTED FRAME WITH DISKS<sup>2,3</sup>

The best mattress is only as good as its substructure. That's why we use high-quality slatted frames (2a) as standard in which the space between the single slats offers optimum stability and excellent ventilation at the same time. For a certain extra comfort, a disk slat (2b) is optionally available. This enables a point-elastic body adaptation and even better support function. In combination with the WaterGel layer you get the highest sleeping comfort.

## 3. BED EXTENSION<sup>2,3</sup>

Of course we want to ensure a maximum sleeping space for you. Special detail solutions also contribute to this, such as the variable foot area extension for French beds or the precisely fitting roller slatted frames and mattress liners for single beds.

## 4. ENTRANCE HEIGHT<sup>1</sup>

Our designers pay attention to creating the bed entrance as easy as possible in all layout variants. For the extension of the single beds<sup>3</sup>, a stowable ladder provides safe access. Optionally, some beds can also be installed in a low version<sup>2</sup> (including wardrobe above the foot end).

## 5. STORAGE SPACE, SOCKETS & LIGHTING<sup>2</sup>

Reading a bit more, charging your smartphone overnight and having your glasses ready to hand. For all of that and more, you'll find comfortable dimmable lighting, sophisticated storage options and sockets in the sleeping area.

## 6. TEXTILE ROOM DIVIDERS<sup>1</sup> & WALL COVERING<sup>1</sup>

Especially with several travel companions and larger families, privacy is an important factor for a restful night's sleep. This is ensured by textile room dividers that are easy to pull out and provide pleasant privacy. Thanks to the soft-touch wall panelling, the sleeping area becomes particularly comfortable.

<sup>1</sup> Across all series <sup>2</sup> Depending on the model <sup>3</sup> Optional

# DISCOVER OUR BATHROOM VARIANTS

The KNAUS bathroom variants are stylish, thought-through and spacious. In terms of design, we place great significance on a user-friendly design, as much storage space as possible and creating a pleasant atmosphere.

## BATHROOM VARIANT 1

**Innovative and practical.** Lots of room, even to contain a low-maintenance and comfortable bench toilet, practical shower, additional shelf space due to one-piece washbasin, and numerous practical details such as a laundry compartment.

**Layouts:** DESEO 400 TR

## BATHROOM VARIANT 2

**Innovative and practical.** With the pull-out shower tray, the bathroom in the SPORT & FUN is a true space miracle, which leaves lots of room for living and transporting.

**Layouts:** SPORT & FUN 480 QL

## BATHROOM VARIANT 3

**Variable and ground-breaking.** Intelligent use of space is one of future trends. With the foldable wall, you can either enlarge the size of the bathroom or the living room. As you please.

**Layouts:** TRAVELINO 400 QL

## BATHROOM VARIANT 4

**Compact and comfortable.** Thanks to the swivel toilet and the space-saving, fitted washbasin, in our compact caravan you'll also find a fully equipped bathroom.

**Layouts:** SPORT 400 QD

## BATHROOM VARIANT 5

**Universal and well thought-through.** Very practical, due to the large washbasin. In the SPORT, with a swivel washbasin; in SÜDWIND with a bench toilet.

**Layouts:** SPORT 400 LK, 420 QD, 460 EU, 500 EU, 500 QDK, SÜDWIND 420 QD, 460 EU, 540 UE, 580 UE

## BATHROOM VARIANT 6

**Clever and spacious.** Standard for the layouts with French beds. In the SPORT with swivel toilet, in the SÜDWIND the premium bench toilet is installed.

**Layouts:** SPORT 450 FU, 500 FU (UF), 540 FDK, 550 FSK, 650 UDF, SÜDWIND 450 FU, 500 FU (UF), 500 PF, 540 FDK, 540 FSK, 750 UDF

## BATHROOM VARIANT 7

**Ingenious and huge.** Those who select the transverse bed and bunk bed, receive the nominally large bathroom that offers lots of room, even a separate shower.

**Layouts:** SPORT 500 KD, 580 QS, SÜDWIND 500 QDK, 580 QS

## BATHROOM VARIANT 8

**The full rear side.** This bathroom variant extends across the entire rear width and offers space for a large washbasin with numerous storage compartments next to mirror and base cabinet, as well as a separate shower.

**Layouts:** SÜDWIND 650 PXB, 650 PEB

# DESEO

THE FLEXIBLE ONE

#NUMBER 1, BECAUSE IT...

is the second chapter of the THE MISSION and **part of the revolution.**

unites **living and transporting** like no other.

leads the way into the future with its **revolutionary FibreFrame.**

*Progressive design language through innovative construction. This is how bright the future is*

*The central service module in the gas locker with supply connections and opening for the emptying of the cassette toilet for maximal operating comfort.*

### The entire world in one layout.

As well as the DESEO is constructed, Julia and Felix are able to load everything on board that will make their vacation perfect.

- 1. Stable motorcycle holder.** Motorcycles must be particularly well secured during transport. Therefore, DESEO offers stable motorcycle holders.
- 2. Flexible and comfortable.** In just a few simple steps, the double bed can be converted into a comfortable bench. And you can even invite guests thanks to the variable stools and folding table.
- 3. Organised load compartment.** All furniture is safely stowed on the side walls during transport. Everything has its place and you have enough space for bikes and more.
- 4. Integrated loading ramps.** For easy loading, the DESEO optionally has two stable, extendable ramps on board.

STORAGE SPACE OVERVIEW

3 DESEO 400 TR

- 1. Retractable LED-TV.** So that it is not damaged during transport and only uses a small amount of space, the 24-inch Full HD TV disappears elegantly in the side panel.
- 2. Spacious wardrobe.** Lots of room for storing several weeks' worth of clothing.
- 3. Additional storage space.** Even the space underneath the seating area is perfectly used in the DESEO.

The special back cushions are available in 6 different versions. There is something for every taste

The foldable table can be stowed away to save space when not in use and can be taken outside when the weather is fine

More information regarding our kitchens can be found on pages 30 – 31.

**Cooking for two.** The 2-flame cooker is optimally suited for this, since it is aligned in such a way that it optimally uses the space and offers sufficient space for the preparation of your favourite meals. For Julia and Felix, that's standard and simple: good pasta.

DESEO 400 TR 1

DESEO 400 TR 2

- 1. Practical organisation box.** There are lots of little helpers in the kitchen such as the innovative Orga-Box. It creates tidiness and ensures that everything stays in its place during the journey.
- 2. Modern equipment.** The wall niche is designed to accommodate a coffee machine. High-quality blinds fit in perfectly with the stylish overall picture and provide pleasant darkening.

**The sweetest dream has already become reality.** Those of us who, like Julia and Felix, enjoy sleeping with a view as well as resting comfortably will love the lifting bed in the vehicle rear. It can very easily be lowered and, when the tailgate is open, it offers the best view vantage point for counting stars.

- 1. Space-efficient lifting bed.** When the lifting bed is not needed during the day, it can be easily raised. At night it offers maximum sleeping comfort thanks to high-quality EvoPore HRC mattresses.
- 2. Comfortable guest bed.** The bench can be converted into a comfortable guest bed in just a few simple steps. Thanks to the lifting bed there is always enough room even when all sleeping places are used.

2 DESEO 400 TR

**1. Innovative shower curtain.** An integrated air chamber turns the curtain into a shower cabin and thereby keeps it from touching your body.

**2. Spacious laundry compartment.** Again a practical detail which provides for tidiness in the DESEO. In the compartment beside the toilet you can store worn laundry or fresh towels optimally so that you have more place in the large wardrobe.

*Particularly practical for wet towels: the foldable laundry bar*

*Lots of storage space thanks to the extended washbasin*

**1. RevolutionCube furniture construction.**

Thanks to the innovative furniture shapes and dimensions, furniture does not have to be installed from floor to ceiling. This creates open space and saves weight. And of course with the usual stability and functionality.

**2. Charging station.**

This is where you can easily charge your tablets and laptops with your USB cable. One special feature: Smartphones can be wirelessly charged through induction. In addition, through the direct integration into the furniture carcass behind the seat bench, the socket is not noticeable and offers a secure storage spot.

*Brilliant cube lights the ambient lighting in the TRAVELINO consists of the LED light bands integrated into the furniture carcass*

**Your favourite food taste good anywhere.** But while on holiday it tastes even better, especially when mum and dad are doing the cooking. On the 3-flame cooker, there is enough space for family-sized portions.

- 1. 3-flame cooker with electric ignition.** Heats lightning fast and thanks to the high-quality cast iron grate, 3 pots have a secure stand at the same time.
- 2. High quality wall paneling.** Protects against stains and splashes during cooking and, thanks to the same décor as the worktop and ambient lighting, looks particularly classy.
- 3. Colossal fridge.** With 177 liters of volume this offers enough space for all favourite foods. Thanks to double connection, it can be easily opened in both directions.

**A spot for dreamers.** The beds are aligned in such a way that they are like small retreat. This way, one-half of the bed can finish their chapter, while the other half sleeps.

- 1. Functional bunk beds.** In some layouts, the 2-bunk bed can optionally be extended into a linen cupboard or a third level. With the 3-level version, you get a multifunctional bed for sitting, sleeping and lounging.
- 2. Extending single beds.** 2 separate longitudinal beds become a large lying surface in no time.
- 3. High-quality disk-spring frame.** A feature from the luxury class: The optional point-elastic feather elements guarantee a wonderful night's sleep.

**Children, what a bathroom.** There's enough space for everything at the large sink. Even for a little nonsense with dad.

## Pleasant seating comfort is not an option but part of the standard equipment

No matter which fabrics and upholstery you choose, you can always rely on one thing: seating comfort optimised for the respective model is part of the basic equipment of each KNAUS caravan. That's why we use ergonomic seat cushions that optimally support your back and can also help you maintain a healthy posture during long journeys and excessive family meals.

### COZY HOME-PACKAGES

Enhance your caravan with a COZY HOME package. From fresh to classic, there is something for every taste. Each package contains two large (60 x 40cm) and two small (40 x 40cm) pillows with feather filling, as well as a matching table runner and two soft blankets.

# OUR WORLD OF TRAVEL

## OUR SUPPLIERS & PARTNERS

With the products of our **strong and reliable partner companies**, every KNAUS motorhome becomes still a little better. We only work with **hand-picked professionals** and jointly **develop tailor-made solutions** for our leisure vehicles and your travel happiness so that you can also rely on the **highest quality standards**.

### STRONG PARTNERS & FEATURES

#### BWT water filter NEW

Our partner for hygienic fresh water supply. The high-performance filter system from BWT has been specially developed for the requirements of our leisure vehicles. **More information can be found from page 22.**

#### VELOCATE GPS tracker NEW

Velocate's innovative GPS tracking system ensures optimum theft protection thanks to intuitive app control with silent alarm mode and a stand-alone mileage of up to 3 months without power connection. **More information can be found on page 17.**

#### WIGO awnings and rear tents

When perfectly fitting awnings and rear tents are required, we trust our partner WIGO. The Hessian tent expert offers practical products, some of which are specially tailored to KNAUS caravans, to extend the living space to the outside, ranging from user-friendly piping rails to removable side panels and the combination of awning and rear tent.

#### TRUMA manoeuvring system

For perfect and comfortable manoeuvring, you can optionally equip your caravan\* with the matching TRUMA Mover manoeuvring system. This enables precise manoeuvring and precise coupling to the towing vehicle via an intuitive, handy remote control. The TRUMA Mover masters inclines of up to 10% and even one-sided obstacles and a bumpy ground are not a problem. It also offers maximum safety thanks to its automatic stop function and hill holding.

#### TEN HAAFT satellite systems

With the optional satellite systems from Ten Haaft, watching TV in the KNAUS vehicles becomes even more comfortable and user-friendly. Our TV packages with space-saving, extremely wind-resistant CARO+ Premium satellite systems and 24" to 32" TVs guarantee a high level of comfort and clear TV reception.

*Essential for cyclists and active holidaymakers*

## THULE BIKE CARRIER

The Thule Caravan Superb is the optimum equipment feature for **safe and user-friendly transport** of your **bicycles or e-bikes**. Mounted on the drawbar and with a **lockable push bar**, the wheels are held securely in place even in difficult road and wind conditions.

*Thanks to the low platform, the carrier is particularly easy to load and offers complete access to the gas box even with bicycles*

The information on the delivery contents, measurements and weights as well as the appearance correspond to the knowledge at the time of printing (07/2019). We reserve the right to make changes on equipment, technical data, serial equipment and prices. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show optional equipment that is available at an extra charge or equipment features of prototypes/studies that do not conform to the serial status and in some cases will not be available as optional equipment. Colour deviations are print-technically possible. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised dealer. The decoration shown in the catalogue is not part of the equipment supplied. Please also note the comments in the current price list, in particular on weights, payload options and tolerances.
