YOUR FREEDOM IS OUR PHILOSOPHY

With boundless passion, we at KNAUS, have been creating unforgettable vacation moments since 1960. Backed by our experience and the courage to blaze new trails, we combine the familiar with the new. For our production, we rely on Lower Bavarian craftsmanship, and when developing new vehicles, we employ cutting-edge design and production technologies. This combination of proven principles and innovative ideas makes us one of the industry's most successful brands. **And the #Number 1 for our customers.**

FROM IDEA TO KNAUS

Turning a good idea into a really good vehicle involves several steps. We take each one with our sights set firmly on the goal of designing vehicles with which you can spend the best time of your life.

1. Design

Who is our target group for our new motorhome? We define the vehicle set-up and equipment that would best suit your needs. We develop various layouts and craft the future design.

HOW WE BECAME WHO WE ARE

From a caravan production plant in Lower Franconia to one of the leading brands in the industry: In 1961, company founder Helmut Knaus sets new benchmarks with his first caravan, the legendary "Schwalbennest". From that point on, the logo depicting a pair of swallows is inseparably linked with the world's most wonderful vacation pursuit.

1960 Helmut Knaus founds KNAUS in the Franconian town of Marktbreit.

1961 The KNAUS Schwalbennest is introduced – compact, comfortable and light.

1962 An icon is born. The KNAUS SÜDWIND makes its début.

1970 A new era begins: Our main factory in Jandelsbrunn is established.

1973 In recognition of his courage and pioneering spirit, Helmut Knaus is awarded the Federal Cross of Merit.

1988 The TRAVELLER becomes the first KNAUS motorhome and Promobil magazine's "Motorhome of the Year".

1996 With the Travel-Liner, we now have integrated motorhomes in our range.

2004 The SUN TI with its large panoramic roof captures the hearts of vacationmakers everywhere.

2005 A genuine success story begins. Finally, there is a camper van in KNAUS quality.

2015 We celebrate our return to the liner segment in impressive style with the SUN I.

2016 We revolutionise an entire industry. THE MISSION is the road to the future.

2017 The CUV generation begins. The BOXDRIVE built on the VW Crafter is the first caravanning utility vehicle, a completely new vehicle category.

2018 The VAN TI PLUS has what belongs together: KNAUS has built the first motorhome on MAN TGE.

2019 The LIVE I positions itself between semi-integrated motorhomes with a lifting bed and fully integrated motorhomes, becoming the face of a new class.

3. Production

All tests passed? Then we can start with series production now. Our main production and development site is located in Jandelsbrunn in Lower Bavaria. In Mottgers in Hesse and in Nagyoroszi in Hungary there are two other ultra-modern production sites. To ensure optimum conditions, we continuously invest in our sites and above all in our more than 2,900 employees throughout the group many of whom have been with us for 30 years and more.

2. Prototype and testing phase

The idea takes on perceptible forms for the first time. With the construction of the prototype, we can put our ideas to the test in reality and analyse them precisely. In order to meet our quality standards, the prototype must pass numerous tests.

4. Satisfied customers

Whether at your local dealer or directly from the factory: we like you to feel comfortable in your new vehicle from the very first moment. That's why our experts give you a comprehensive on-site instruction when you pick up your vehicle from the factory.

5. The mein.KNAUS family

Take advantage of the attractive benefits of the mein.KNAUS customer club! With your free membership you will receive the exclusive my.KNAUS card which guarantees you numerous immediate discounts with over 7,000 partners as well as access to the trade fair customer area. You can find more information on page 144 or register directly at mein.knaus.com

Club members receive exclusive invitations to our KNAUS meetings as well as the exciting customer magazine INSIDE

THE FUTURE STARTS NOW

THE MISSION is the quest, the obstacles, the courage and the aim to revolutionize the future of the leisure vehicle industry. With the TRAVELINO we have taken a big step into the future. It has shown us what is possible in terms of lightness, flexibility and sustainability and has paved the way for the new development of the DESEO. Our innovative technologies are to be consistently further developed until we have revolutionized each of our model series and can proudly say so: MISSION fulfilled.

THE MISSION

Our mission: A revolution. For the caravan of the future, we are taking a completely new path. The direction is clear: Consistent lightweight construction for a 4-passenger caravan with an unladen weight of 750 kilograms. There has never been anything like this before. We have analysed, tested, developed and researched. Until the symbiosis of revolutionary body technology and pioneering materials has enabled us to reach the first milestone: the series production of the KNAUS TRAVELINO.

Chassis technology that is light as a feather.

With 35% less weight than a comparable conventional chassis, our PowerAxle takes a significant step towards hybrid and e-mobility caravanning. As a consistent further development, the new VARIO X chassis in the SPORT&FUN BLACK SELECTION marks the next step in chassis development. Thanks to its bionic shape, it combines uncompromising lightweight construction with outstanding stability and load capacity with optimum handling.

POWERAXLE

FIBREFRAME

Patented frame technology.

We have developed a self-supporting frame with which furniture is truly just furniture and no longer stabilising elements. That opens entirely new possibilities and unimagined flexibility in the layout and room design.

LIGHTWEIGHT MATERIALS

Unique lightweight. The total is more than just a sum of its parts. This applies in particular to our lightweight construction caravans. It was only through the skilful combination of all our revolutionary technologies and the courage to break new ground that we were able to realise our vision of the efficient caravan of the future: this is UltraLight!

CONNECTION TECHNOLOGY

Ultrasonic speed – even on the inside.

With the RevolutionCube technology*, we employ EPP, thereby using an entirely new material. Extremely lightweight and durable. Moreover, using ultrasonic technology, so-called KALTSCHMELZ® dowels are permanently connected with the lightweight construction carrying material.

TOP TECHNOLOGY FOR THE MOST WONDERFUL TIME OF YEAR

1. ROBUST HIGH-STRENGTH GRP ROOF¹

Not all GRP is the same. Its resilience depends on its glass content. To maximise protection against hail, we therefore opted for the high-strength variant, whose glass content is almost three times higher than standard GRP.

2. STABLE PRO.TEC FRAME²

The Pro.Tec frame is a particularly solid aluminium profile strip that connects the side wall, front wall, rear wall and roof to one another. It enhances the stability of the bodywork and therefore also the longevity of the entire vehicle. A particular highlight: The Pro.Tec frame incorporates a chamber for the sealant. This means that it can no longer bulge out, ensuring a seamless appearance.

3. KNAUS CATEYE evolution REAR TAIL LIGHT²

Three-dimensional lighting geometry and dynamic LED indicators develop the CATEYE evolution rear tail lights further enhance the design of the unique KNAUS night signature as well as increasing driving safety.

4. EXCELLENT GRP UNDERFLOOR²

To ensure optimum protection of the underfloor against weathering, stone impacts etc., we fit a thick, resilient GRP layer.

5. LONG-LASTING TVT BODYWORK³

Functional sandwich construction consisting of aluminium and insulating materials (XPS or EPS) with reinforcements made of polyurethane plastic and a completely bonded bodywork structure makes the entire vehicle more stable, more resistant to decay and more durable.

6. HIGH-QUALITY LOW-FRAME CHASSIS²

To maximise the headroom inside our motorhomes while minimising their external height, we use genuine Fiat low-frame chassis designs.

7. LEAK-PROOFNESS GUARANTEE¹

For all our leisure vehicles, we offer you a 10-year leak-proofness guarantee on the body manufactured by us as well as a 24-month guarantee from your KNAUS partner within the framework of our guarantee conditions valid at the time of vehicle delivery.

¹Across all series ²Model-dependent ³Optional

A well thought-out concept for your holiday enjoyment

An excellent motorhome is the sympiosis of innumerable practical and high-quality details. These include additional transport options and superb technology.

5

4

3

1

2

The integrated rear carrier with detachable trailer hitch offers even more load capacity options. For further information on e.hit, a world first, please see page 147

1. OPTIMUM GAS SUPPLY¹

Thanks to our special gas bottle pull-out system, you will find it especially easy to check and replace gas bottles^{2,3}. The system can take two 11 kg gas bottles and simplifies their loading and replacement. The new gas pressure regulators from TRUMA³ are easier to reset and have an optimised and clear status indicator. Combined with the very easy-to-swap gas filter insert³, the entire gas system and all gas-operated devices are effectively protected. Residues are collected in a replaceable filter pad, eliminating the need to change the filter cartridge.

2. THULE BICYCLE RACK³

To safely attach your bicycles to the rear of your motorhome, you need look no further than the Thule Lift V16. The rack's lift function allows it to be lowered by up to 70 cm for especially user-friendly loading and unloading. An integrated safety frame ensures that the wheels do not slip during travel. The more adjustable wheel holders can be easily adapted to different wheel sizes – from mountain bikes to children's bikes.

3. PRACTICAL DOUBLE FLOOR²

Thanks to its double insulation layers, our double floor guarantees cosy warmth no matter how cold it is outside. Water and heating pipes are laid in such a way that they are protected against frost and damage. In addition, the handy storage compartments provide space for small utensils.

4. CENTRAL SERVICE BOX¹ & WATER FILTER^{1,2,3}

All of your supply technology in one central location. The flap integrated into the side wall gives you very quick and easy access to all important elements. For detailed information on the service box layout, please check page 24. For the water filter system, see page 26.

5. VELOCATE GPS TRACKER³

If the worst comes to the worst, Velocate's optional GPS tracking system provides you with optimal protection. The tracking system requires very little power and can transmit for up to three months independently. Thanks to app control, it is particularly easy to operate. AGPS ensures particularly fast location determination and a sensitive GPS antenna provides the best reception for tracking even in difficult environments.

¹Across all series ²Model-dependent ³Optional

A sure thing: Our high-quality bodywork details

What is one of the most important points during the construction of a motorhome? Clearly, its longevity. And to ensure that you can rely one hundred percent on your vehicle, we equip every motorhome with high-quality materials such as our optimum insulating GRP roof scoops.

1. GRP ROOF SCOOP¹

With optional large panoramic roof, striking design, structurally integrated insulation and, naturally, maximum protection against hail.

2. NO VISIBLE SCREW FITTINGS¹

Whether its fenders, side skirts or tail light mouldings. Wherever it is possible and practical in structural terms, we work to achieve a clean, elegant look with plug-in connections that hold attachments securely.

3. EXKLUSIVE 17" ALLOY WHEELS³

Striking design and genuine KNAUS DNA. That's what can be found with the alloy wheels, which are available in the black gloss front polished or titanium metallic paint variants, depending on the range.

4. WHEEL ARCH WITH EPP INSULATION¹

Optimum noise comfort when driving, perfect insulation when stationary. EPP is a high-tech material without compromises: light, impact-absorbing, heat insulating and stable.

5. SIMPLY AND SECURELY CLOSED^{1,2,3}

Multipoint locking but with the convenience of single-handed operation. We aim to provide maximum convenience in the form of doors that can be operated using one hand¹. The double seal² also ensures that heavy driving rain and wind noises do not dampen your holiday experience. Our garage doors and service doors come with convenient central locking^{2,3} so that you don't have to individually lock and unlock every single one. Everything is secured at the press of a button. The optional alarm system³ provides even more protection.

6. HIGH-QUALITY FILMS¹

Timeless design is of little use if the vehicle starts to look old after just a few years. That is why we insist on high-quality films from reputable suppliers such as 3M, Avery and Oracal.

¹Across all series ²Model-dependent ³Optional

That's how nice it is to start your holiday with KNAUS motorhomes

With our five different motorhome body doors, you have all the options. In order to safely keep out unwanted driving rain and other inclement weather conditions, all KNAUS cabin doors are equipped with a weatherproof double seal. The KOMFORT, PREMIUM und EXKLUSIV variants are additionally equipped with a particularly quiet, automotive locking system, which is also available in an extra wide version depending on the floor plan.

Modern inner track keys slide particularly easily into the lock but don't get caught in your trouser pocket thanks to their smooth surface

The standard and optionally available door variants can be found in the range overview beginning on page 5.

The double seal keeps out the all types of inclement weather

Using the hinged coat hook, you can keep your wardrobe close at hand and exactly where you need it

The coming-home lighting of the KNAUS EXKLUSIV cabin door is a real highlight

Optimum safety through multipoint lock

The extra-wide 700 mm offer even more comfort when entering the vehicle

The multifunctional KNAUS storage bag is perfect for all of your essential purchases

Connecting, filling, draining: Our service box can do it all

Here a power supply socket, there a drain tap and the fresh water tank is somewhere else entirely – this is how the supply technology is arranged in many motorhomes, but not in ours. Every KNAUS motorhome is equipped with the practical service box, which gathers all key functions and connections centrally at a single location. For maximum ease of use.

On the SUN TI, the tanks are arranged low down in the middle of the vehicle and are equipped with a practical cleaning opening in the floor

The cleaning openings for the water tank are readily accessible via compartments in the double floor

UNIQUE SERVICE BOX

- 1. Fresh water tank filling**
- 2. Fresh & grey water tank cleaning opening**
- 3. Fresh & grey water drain taps**
- 4. Cable bushing**
To ensure that the cable can be laid neatly, there is a rodent-proof cable bushing from below into the service box.
- 5. Tank heating**
The operation of the water tank's warm air supply shutter is possible using one hand.
- 6. Power supply socket**
- 7. Frost detector**
At particularly cold temperatures, the frost detector is activated and drains water from the water pipes and from the boiler to prevent frost damage.
- 8. Charging booster for leisure battery**
Thanks to the new charging booster, leisure batteries can now be charged especially quickly and efficiently while the engine is running.

SUPPLY TECHNOLOGY

For a motorhome to offer the same comforts you enjoy at home, a certain level of supply technology is required. On our SUN TI demonstrator vehicle, most of this technology is installed in the double floor. The advantage is that the entire installation is well insulated against frost. It is also easy to maintain via openings in the floor.

- C. Grey water tank
- D. Battery
- E. Gas cylinders

Our filter for a clear holiday pleasure

NEW

As beautiful as the destination may be, the view into the fresh water tank can quickly spoil happiness. Unfortunately, clean water is not taken for granted everywhere. It's all the more important that you have the possibility to supply yourself with purified water. The high-performance filter system from our partner BWT offers the best conditions for this.

Contaminated water can not only spoil your taste but also endanger your health

The BWT water filter works absolutely chemically free

Boiling and showering with hygienically clean water is one of KNAUS' standards for carefree holiday enjoyment

BWT BESTCAMP WATER FILTER

The handy water filter leaves nothing to be desired in terms of hygiene thanks to its ultrafiltration membrane. Microorganisms are effectively removed from the raw water. This allows hygienically perfect water to be produced without any chemicals whatsoever. The water filter can be installed in all our leisure vehicles and easily connected.

Top-class technology: thanks to the highly efficient hollow fibre membrane, the water filter achieves an excellent retention rate for microorganisms > 99.9999 % (log6). The large membrane surface ensures a high throughput and thanks to the manufacturing from completely food safe materials no unwanted substances get into the water.

Practical application: an 8 mm "John Guest" plug connection ensures particularly simple, tool-free installation. This also ensures that the water supply is guaranteed even when no replacement filter is available.

Healthy enjoyment: the water filter system minimises the risk of germs in the water. Especially in high-risk regions, the filter proves to be a useful tool for prevention and actively contributes to the protection of your health.

This is how easy it is to install & change the filter

1. We only install the filter when the vehicle is handed over so that you can use it for the full period of up to 6 months.

2. Installation is particularly easy thanks to the plug connection and clear markings.

3. The filter can be kept for up to 6 months from the day of installation. A special button shows the current status.

4. If no replacement filter is available, the intermediate piece guarantees the further water supply.

An interior you'll want to write home about: our motorhomes offer impressive levels of comfort and convenience.

Reducing an apartment with a bathroom, bedrooms, living area and a kitchen down to roadworthy compact dimensions is one thing. However, it is intelligent details and solutions such as dimmable ambient lighting that turn a living space into your favourite place.

For detailed information on sleep comfort in our motorhomes, please start on page 32. For the different types of beds, see page 34 onwards

1. HIGH MATERIAL QUALITY ¹

Exceptional material quality forms the basis for maximising longevity. With this in mind, we fit solid cast-iron pan supports, scratch-resistant stainless steel sinks, high-quality metal handles, for example, and lots more besides.

2. HEAD-UP DISPLAY & NAVIGATION SYSTEM WITH CAMPING SOFTWARE ³

The new head-up display uses a transparent screen to project all key data, such as navigation and speed as well as traffic-sign recognition information, into the driver's field of vision. Drivers don't have to take their eyes off the road unnecessarily and can focus better on what is going on around them. For an even more stress-free and entertaining journey, the Pioneer navigation system offers everything you need for short and long trips. With intuitive multi-touch control, maps of 44 countries in Europe, a DAB+ receiver, Apple CarPlay, Android Auto, Parrot Bluetooth hands-free functionality and optimum sound thanks to the on-board 13-band equalizer, it offers everything you could expect these days of a multimedia navigation system. It also comes with 3 years of free map updates.

3. MAGNETIC DOOR LOCK ²

The high-quality magnetic door lock enables variable use of the door in the open bathroom possible on the one hand, and closes gently and almost silently on the other.

4. DIMMABLE AMBIENT LIGHTING ³

Overhead cupboards, storage compartments, countertop, overhead cupboards, and canopy – wherever atmospheric lighting makes your vacation more special, we install carefully integrated, dimmable ambient lighting.

¹Across all series ²Model-dependent ³Optional

Our focus is not on style for its own sake, but on building furniture that also creates a good indoor climate

The furnishings in our motorhomes must meet extremely strict requirements. This takes more than just an attractive design and plenty of storage space. Durability, rugged construction and technologies that inspire for an entire lifetime - these are our benchmarks.

ELABORATE INTEGRAL FURNITURE CONSTRUCTION ²

Air circulation is one of the most important requirements for a pleasant and healthy indoor climate.

Ceiling-mounted lockers:

They are exceptionally sturdy and are mounted with a gap between them and the walls. This allows the air to circulate unhindered behind the lockers. Condensation in the lockers is prevented, keeping your clothing and possessions fresh and dry at all times.

Kitchen unit:

All furniture is rear-ventilated in a manner that optimises the performance of the heater. The open rear ventilation cut-outs enable optimum hot air circulation, providing cosy warmth in the vehicle.

5

1. SOLID ALUMINIUM PROFILES ¹

The furniture makes an important contribution to the stability of the entire bodywork. For this reason, we use high-strength aluminium profiles in our furnishings. As well as being even more robust than solid wood profiles, they are noticeably lighter.

2. HIGH-QUALITY SOFT-CLOSE DOORS ¹

No banging, no rattling, no need to push shut. Thanks to high-quality hinges, the soft-close doors shut gently and lock completely automatically.

3. STURDY DOWEL TECHNOLOGY ¹

Our furnishings are joined as standard using complex dowel technology. As a result, we achieve a very high accuracy of fit and much more stable cabinetry that you can enjoy for many years to come.

4. SCRATCH-RESISTANT HPL SURFACES ¹

High-Pressure Laminate is a laminate material that is used specifically for the high levels of stress encountered, for example, in kitchens. The multi-layered structure is produced under very high pressure and sealed with a particularly resilient top layer. This makes our countertops and tabletops particularly scratch-resistant.

5. STABLE SOFT-CLOSE FULL-EXTENSION DRAWER SLIDES ¹

For our drawer slides, we work with the quality supplier GRASS, which normally supplies to furniture manufacturing brands. And you'll notice this too. Thanks to full-extension drawer slides, the drawers extend so far out that they are easy to fill or empty all the way to the back. They are guided precisely and shut gently - for the lifetime of the vehicle and probably beyond.

¹Across all series ²Model-dependent ³Optional

OUR FEATURES FOR YOUR SLEEPING COMFORT

Sweetly falling asleep and waking up relaxed. We give the highest priority to the design of the sleeping area so that you can always have a relaxed start into an eventful holiday. Our concept comprises high-quality materials, well thought-out details and individualisable solutions.

The rear-ventilated furniture design ensures pleasant sleeping conditions

Our precisely fitting, optionally available sheets optimise the lying comfort

1. EXCELLENT EVOPORE HRC MATTRESSES¹

30% lighter and 40% less loss of hardness than comparable cold foam mattresses. No development of 'hollows' even in one-sided use. The 5-zone EvoPore mattresses (1a) not only pamper you with excellent sleeping comfort, they also impress with exceptional durability. The High-Resilience-Climate technology ensures that the mattress remains highly elastic even under demanding climatic conditions. For even more exclusive sleeping comfort, the optional WaterGel layer is up to 50 mm thicker. The breathable foam adapts smoothly to the body.

2. OPTIMUM SLATTED FRAME¹

The best mattress is only ever as good as its base frame. That is why we install high-quality slatted frames as standard. The distance between the individual slats offers optimum stability and superb ventilation at the same time.

3. BED EXTENSION^{2,3}

Of course we want to ensure a maximum sleeping space for you. Special detail solutions also contribute to this, such as the variable foot area extension for French beds or the precisely fitting roller slatted frames and mattress liners for single beds.

4. ENTRANCE HEIGHT¹

Our designers pay attention to creating the bed entrance as easy as possible in all layout variants. For the extension of the single beds³, a stowable ladder provides safe access. Optionally, some beds can also be installed in a low version² (including wardrobe above the foot end).

5. STORAGE SPACE, SOCKETS & LIGHTING²

Reading a bit more, charging your smartphone overnight and having your glasses ready to hand. For all of that and more, you'll find comfortable dimmable lighting, sophisticated storage options and sockets in the sleeping area.

6. TEXTILE ROOM DIVIDERS¹ & WALL COVERING¹

Especially with several travel companions and larger families, privacy is an important factor for a restful night's sleep. This is ensured by textile room dividers that are easy to pull out and provide pleasant privacy. Thanks to the soft-touch wall panelling, the sleeping area becomes particularly comfortable.

¹ Across all series ² Depending on the model ³ Optional

From A for alcove to T for transverse bed: the perfect berth for every vacationmaker

SINGLE BEDS

Spacious. The single beds really give you plenty of space to relax. Thanks to the optional extension, the beds can be increased in size to create a large reclining area.

Layouts: VAN TI 650 MEG, LIVE TI 650 MEG, 700 MEG, SKY TI 650 MEG, 700 MEB & MEG, SUN TI 650 MEG, 700 MEG, LIVE WAVE 700 MEG, SKY WAVE 650 MEG, 700 MEG

TRANSVERSE BED

Perfectly designed. By using the entire width of the vehicle for the sleeping area, you get a particularly long surface for lying on here and a great feeling of room through efficient use of space.

Layouts: VAN TI 550 MD, LIVE WAVE 650 MG, LIVE TRAVELLER 650 DG

FRENCH BED

Optimum use of space. There is also room here for a spacious bathroom and large wardrobe in the rear. An optional folding cushion on the outside provides more sleeping space.

Layouts: LIVE TI 590 MF, 650 MF, SKY TI 590 MF, 650 MF, SUN TI 650 MF, LIVE WAVE 650 MF, SKY WAVE 650 MF

QUEENS BED

True relaxation. The queens bed is accessible from both sides for extra convenience. There is also a large wardrobe with a garment rail on both sides of the bed.

Layouts: SKY TI 700 MX, LIVE WAVE 650 MX, 700 MX

BUNK BED

Bunking down. The children's bunk bed in the rear is already included as standard in our special K layouts. With a sleeping area of up to 212 x 74 cm, there is plenty of room for big dreams over two levels here.

Layouts: LIVE TRAVELLER 600 DKG

LIFTING BED

Winding down. The lifting bed can be lowered particularly easily and a long way down for a second separate sleeping area. When not in use, a comfortable standing height is maintained.

Layouts: LIVE WAVE 650 MF, MG & MX, 700 MEG & MX, SKY WAVE 650 MF & MEG, 700 MEG

OVER CAB BED

Onwards and upwards. Access to the alcove bed is absolutely safe thanks to the lockable ladder with optional ladder shaft. The alcove is fully heated and rear-ventilated for pleasant sleeping conditions.

Layouts: LIVE TRAVELLER 550 DB, 600 DKG, 650 DG

GUEST BED

Variable and comfortable. The dinette can be converted into an additional sleeping area in just a few easy steps, offering one to two beds depending on the layout. The stable lifting table on a central support column is simply lowered for this. A cosy reclining area is then created thanks to the custom-fit upholstery.

Guest bed 1

Guest bed 2

LUXURIOUS, OUR KITCHEN VARIANTS

A kitchen must withstand a great deal of abuse and conform to strict requirements. Robust worktops, high-quality appliances as well as a clever layout where everything is within easy reach and plenty of storage space come as standard in every KNAUS kitchen.

CORNER KITCHEN LIVE WAVE 700 MEG

CORNER KITCHEN

Depending on the layout, the refrigerator is located opposite or beside the kitchenette

Spacious L shape. The corner kitchen is located behind the dinette. This means that the sink and stove can be placed across the corner to allow plenty of workspace and room for a large refrigerator.

Layouts: LIVE TI 650 MF, 700 MEG, SKY TI 650 MF, 700 MEB, MEG & MX, SUN TI 650 MF, 700 MEG, LIVE WAVE 650 MF, MG & MX, 700 MEG & MX, SKY WAVE 650 MF, 700 MEG

GALLEY KITCHEN LIVE TI 650 MEG

GALLEY KITCHEN

An extension to be enjoyed. Having a separate refrigerator means that this can be particularly large. The folding worktop extension offers additional room for prep.

Layouts: VAN TI 650 MEG, LIVE TI 590 MF, 650 MEG, SKY TI 590 MF, 650 MEG, SKY WAVE 650 MEG, LIVE TRAVELLER 550 DB, 600 DKG, 650 DG

COMPACT KITCHEN VAN TI 550 MD

COMPACT KITCHEN

Efficiently integrated. Thanks to an extra-deep sink and with the refrigerator integrated into the kitchenette, every centimetre is put to best use. Drawers with full extension offer convenient access to crockery and supplies.

Layouts: VAN TI 550 MD, SUN TI 650 MEG

DISCOVER OUR BATHROOM VARIANTS

The KNAUS bathroom variants are stylish, clever and spacious. When it comes to design, we place great importance on elegant style, maximum storage space and an atmosphere of well-being. We believe that bathrooms should offer as much space as possible, but take up as little space as possible.

OPEN BATH

Elegant and spacious. The door to the washroom and toilet area also functions here as a partition to the living room, which means that a particularly roomy bathroom can be created if necessary. The separate, spacious shower cabin is a comfort highlight.

Layouts: SKY TI 700 MEG & MX, SUN TI 700 MEG, SKY WAVE 700 MEG

COMFORT BATH

Swivelling convenience. The swivel wall provides an especially spacious shower cabin on one side, with the sink on the other.

Layouts: VAN TI 550 MD, 650 MEG, LIVE TI 650 MEG, SKY TI 650 MEG, SUN TI 650 MEG, SKY WAVE 650 MEG, LIVE TRAVELLER 550 DB, 600 DKG, 650 DG

REAR LONGITUDINAL BATH

Clever and spacious. In layouts with a french bed, this bathroom variant optimises the use of space, both inside and outside the bathroom.

Layouts: LIVE TI 590 MF, 650 MF, SKY TI 590 MF, 650 MF, SUN TI 650 MF, LIVE WAVE 650 MF, SKY WAVE 650 MF

REAR CROSSWAYS BATH

A spacious shift. The transverse bathroom in the rear ensures that the single beds are shifted forward a little. This means that the vehicle's full width can be used to create a spacious bathroom with separate shower cabin.

Layouts: SKY TI 700 MEB

INTEGRATED BATH

Intelligent configuration. A fixed wash basin, fixed shower cubicle and still plenty space despite the compact dimensions. The intelligent configuration makes it possible.

Layouts: LIVE TI 700 MEG, LIVE WAVE 650 MG, 700 MEG & MX

LIVE BATH

Cleverness perfected. The new bathroom in the LIVE models with a separate shower and spacious bathroom with a flexible room divider ensures maximum enjoyment when you're brushing your teeth.

Layouts: LIVE WAVE 650 MX

VAN TI

THE AGILE MODEL

THE #NUMBER 1 BECAUSE ...

it is the **lightest vehicle** in its class.

it scores highly with its **dynamic frame look**.

it offers **vast amounts of space** despite its compact dimensions.

We tested the endurance of rugged high-strength GRP on page 16

It couldn't be simpler. One central service box for all connections and drains (for details, see pages 24-25)

An elegant transition with no visible screw fittings and with perfect gap dimensions. This is where you can see and feel the excellent quality

All good floor plans come in pairs.

For Tina and Florian, the 650 MEG is the perfect choice: with bags of storage space and yet agile enough to find the perfect picnic spot in the Portuguese mountains.

VAN TI 550 MD

Room divider with louvered doors

VAN TI 650 MEG

Extendible single beds

My Tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

“For me, this type of dynamic motorhome simply has to have framed windows. They are integrated perfectly into the side wall, but are also exceptionally secure and reduce wind noise significantly.”

Cat-Eye hybrid rear lights with LED technology round out the striking rear view

A door in the side wall provides exceptional ease of access to the gas bottle locker

Automotive design thanks to wraparound frame look

276 cm

220 cm

599 - 703 cm

Underfloor measuring 48 mm thick with XPS insulation and protective aluminium layer for an optimum indoor climate and maximum durability

VAN TI OVERVIEW

650 MEG Galley kitchen

You can find more information about our kitchens on pages 36 - 37.

Seasoned to perfection. On the powerful 3-flame cooker, Tina and Florian can prepare the freshly caught mussels from the harbour immediately. Add a squeeze of lemon and enjoy.

- 1. Large 3-flame cooker.** Espresso on the left, spaghetti on the right and the sauce below. And ignition is performed at the push of a button. It couldn't be simpler.
- 2. Compact kitchen.** Even the ultra-compact 550 MD features a fully-equipped kitchen
- 3. Full-extension drawer slides.** Make loading particularly easy for you. Right back to the furthest corner.

Beautiful vacation destinations. That is what Tina and Florian have chosen for this vacation. And the comfort beds in the VAN TI can comfortably handle at least another four hundred journeys – with no loss of quality.

- 1. Extendible single beds.** With the roll-up slatted frame in the middle and the two cushion sections, you can transform the single beds into a large double bed in a matter of seconds.
- 2. Wardrobe under the beds.** Simply open the door and flap to gain convenient access to the spacious wardrobes with garment rails on both sides.

3 INTEGRATED BATH LIVE WAVE 700 MEG

1. Clever rear longitudinal bathroom.

Perfectly integrated into the niche between the side wall and French bed, there is a separate room with bench toilet, large closet and shower cabin.

2. Fixed shower cubicle. The clever room layout in the integrated bathroom creates space for an extra shower cubicle.

3. Plenty of storage space. The integrated bathroom contains numerous shelves and storage spaces for optimum comfort.

The integrated towel dispenser is one of the many well thought-out details in the LIVE WAVE.

INTEGRATED BATH LIVE WAVE 700 MEG

SKY WAVE

THE TI WITH A LIFTING BED

THE #NUMBER 1 BECAUSE ...

it is not just any, but the **low-profile** with a **lifting bed**.

it offers you up to **6 comfortable** berths.

it is only 284 cm high despite the lifting bed and **200 cm headroom**.

Turn to page 16 to read why the Pro.Tec frame makes the leisurework so stable and durable

The service box gathers all the supply technology in one place for maximum convenience

The KNAUS CATEYE evolution rear tail light provides dynamic LED indicators for increased driving safety

SKY WAVE 650 MF

Comfortable, extendible single beds

SKY WAVE 650 MEG

SKY WAVE 700 MEG

Patented open bathroom with plenty of space to move around

My Tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

“The 17-inch alloy wheels in exclusive KNAUS design are the perfect upgrade for the SKY WAVE. The dynamic overall image is optimally rounded off by the alloy wheels.”

The high-strength GRP roof is exceptionally resistant to hail (for details, see page 16)

Sam's leash also has its place on the hinged coat hooks of the optional KNAUS PREMIUM cabin door

The curved roof line gives the SKY WAVE its name, making it the coupé of motorhomes

284 cm

232 cm

Yet another big fan of these layouts. Thanks to the spacious living area in the 650 MEG, Svenja and Paul have enough room to bring their four-legged companion Sam along on a photo tour.

SKY WAVE OVERVIEW

5-6 4 3,5 ✓

Layouts	3
Gross vehicle weight kg	3.500
Maximal payload capacity kg	430 - 530

For more information, visit www.knaus.com/skywave

Open to new adventures. Although Sam would prefer to spend all of his time on the beach, he is also already looking forward to getting back to [the cosy living area](#) when he leaves.

A different take on vacation postcards ♡

Lifting bed with wood inserts and a pleasantly soft surface for a homely ambiance

1 SKY WAVE 650 MEG

Extremely easy to use thanks to the lift function with gas pressure spring

3 SKY WAVE 650 MEG

2 SKY WAVE 650 MEG

- 1. Lowerable 24-inch LED TV.** Another reason why the living area looks so elegant and tidy is because you can make the 24" Full-HD LED TV with integrated digital receiver disappear from sight behind the rear seat.
- 2. Soft-close overhead cupboards.** Close gently and lock automatically. And thanks to high-quality hinges, they'll do so for many years to come.
- 3. Optional L-shaped seating group.** Make yourself even more comfortable here thanks to the large L-shaped dinette. The lifting table on a central support column can be moved in all directions.

LOUNGE OVERVIEW

- 650 MF** Bench seat with side seat

- 700 MEG Corner kitchen

You can find more information about our kitchens on **pages 36 - 37**.

GALLEY KITCHEN SKY WAVE 650 MEG

Find pleasure in every move. There is room for everything you need to prep, cook and enjoy your food in the spacious overhead cupboards. And thanks to the quiet soft-close function, they close especially easily and almost by themselves when you need your hands for something else.

GALLEY KITCHEN SKY WAVE 650 MEG 1

SKY WAVE 650 MEG 2

- 1. Drawers with full extension.** These can be removed completely, making them easy to fill and organise. The ambient lighting under the worktop illuminates the interior of the drawers so that you can find what you are looking for even more faster.
- 2. Spacious refrigerator.** Whether your motorhome has a corner or longitudinal kitchen: you always get a separate 142/145-litre refrigerator.

The best view for sweet dreams. In the large lifting bed, Paul has Svenja to himself again. Sam is not allowed to snuggle in between them. Although there is plenty of space for him to do so.

1. Spacious wardrobes. Access from the side and from above makes it particularly convenient to use the wardrobes.

2. Fully-fledged lifting bed. With a reclining area of 195 x 140 cm and high-quality EvoPore HRC mattress, you are assured a particularly comfortable sleep here. The lifting bed travels especially far downwards so that it can be conveniently accessed.

3. Practical storage. There is room here for everything that you need to hand during the night or on waking.

Dealing with hunger is child's play here. At some point, a growling stomach will defeat even the most exciting game. Luckily, a tasty meal can be conjured up in no time at all in the fully-equipped kitchen.

- 1. Full-extension drawer slides.** They extend so far out that they are easy to fill or empty all the way to the back of the drawer. For this, we trust in the perfect quality of GRASS.
- 2. High-quality worktop extension.** Extend your workspace in one easy movement.
- 3. Soft-close overhead cupboards.** Close gently and lock automatically. And thanks to high-quality hinges, they'll do so for many years to come.

Even the bravest Indian has to sleep eventually. And even the most energetic parents sometimes need a few moments of peace to spend with each other. In the large over cab bed, it's not a problem.

1. Variant - bunk bed. The LIVE TRAVELLER 600 DKG with its bunk beds in the rear and the convertible double dinette is perfect for families with up to 4 children.

2. Optional ladder storage compartment. To ensure that it doesn't get in the way, the ladder for the over cab has a permanent place in the vehicle.

3. Transverse beds for long sleepers. The transverse bed measuring 2.12 metres in length gives you lots of space to stretch out.

Pleasant seating comfort is not an option but part of the standard equipment

Whatever upholstery you opt for, you can always rely on one thing: comfortable seats that have been optimised for the respective model are included as standard in all KNAUS motorhomes. It is essential to us that you always arrive at your destination feeling relaxed. That is why we include, depending on the model, ergonomic seat cushions that optimally support your back and help you to maintain a healthy posture even on long trips and during unhurried family meals.

COZY HOME-PACKAGES

Enhance your motorhome with a COZY HOME package. From fresh to classic, there is something for every taste. Each package contains two large (60 x 40cm) and two small (40 x 40cm) pillows with feather filling, as well as a matching table runner and two soft blankets.

OUR WORLD OF TRAVEL

OUR SUPPLIERS & PARTNERS

With the products of our **strong and reliable partner companies**, every KNAUS motorhome becomes still a little better. We only work with **hand-picked professionals** and jointly **develop tailor-made solutions** for our leisure vehicles and your travel happiness so that you can also rely on the **highest quality standards**.

NEW

State-of-the-art technology: you can control & monitor many things via apps

STRONG PARTNERS & FEATURES

BWT water filter NEW

Our partner for hygienic fresh water supply. The high-performance filter system from BWT has been specially developed for the requirements of our leisure vehicles. **More information can be found from page 26.**

VELOCATE GPS tracker NEW

Velocate's innovative GPS tracking system ensures optimum theft protection thanks to intuitive app control with silent alarm mode and a stand-alone mileage of up to 3 months without power connection. **More information can be found on page 19.**

PIONEER head-up display NEW

The new head-up display ensures even greater comfort and safety while travelling. All key data, such as navigation and speed, are projected into the driver's field of vision via a transparent screen. **For more details, check out page 29.**

PIONEER navigation system

The seamlessly integrated Pioneer NavGate EVO navigation and entertainment system can be intuitively operated. An integrated DAB+ receiver ensures noise-free radio reception, and 5,600 parking areas all over Europe are pre-saved for your trips. Three years of map updates are included, as well as quick access to the rear camera and voice control via smartphone.

TEN HAAFT satellite systems

Enjoying TV in KNAUS vehicles is even more convenient and user-friendly thanks to the optional ten Haaft satellite systems. Depending on the model, the Oyster 60 Premium and Oyster 80 Premium systems offer clear TV reception, technical highlights such as smartphone app control and much more.

TRUMA supply technology

Our partner TRUMA offers supply technology with maximum quality. With the intelligent Truma iNet system, you can even very conveniently control your air-conditioning and heating systems as well as your gas supply via app.

You don't want to miss out on this world first!

GA ACTUATION E.HIT INTEGRATED REAR CARRIER

Electrically extending with a sufficiently **high load capacity** and combined with a **removable trailer hitch**, the rear carrier is extremely practical. The e.hit is ready for the road with just a few actions: two **pivoting arms extend** at the press of a button. Once the accessory frame with **folding LED tail lights** is pushed on, a connection is immediately established between the **electrics and the motorhome**.

e.box transport boxes have a capacity of more than 300 litres

The trailer hitch can be easily removed

NEW

The optional e.carry bicycle rack can hold up to four bicycles

FRANKANA FREIKO

There are some things that you **simply cannot do without on the camp site**. You can rely on the KNAUS collection by our partner Frankana Freiko.

7-step adjustment

4 each in the set

Turns the chair into a comfortable lounger

The information on the delivery contents, measurements and weights as well as the appearance correspond to the knowledge at the time of printing (07/2019). We reserve the right to make changes on equipment, technical data, serial equipment and prices. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show optional equipment that is available at an extra charge or equipment features of prototypes/studies that do not conform to the serial status and in some cases will not be available as optional equipment. Colour deviations are print-technically possible. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised dealer. The decoration shown in the catalogue is not part of the equipment supplied. Please also note the comments in the current price list, in particular on weights, payload options and tolerances. Reprinting, even in extracts, is only permitted with the prior written permission of Knaus Tabbert GmbH. We reserve the right to change content at our discretion.
