## TIME FOR SUN, ICE CREAM AND SEA

*Building sandcastles, playing ball games at the campsite, swimming, snorkelling and going on exciting excursions. This is how I remember the family holidays of my childhood. For Livia and Marlene we would like to create just the same beautiful experiences. That's why we bought the CaraOne which is specially tailored to the needs of families. And for me it's proof that good and affordable doesn't have to be a contradiction in terms. Let's go to Istria!*

FAMILY HOLIDAYS -  
THAT'S WHAT I LIKE

*Even the journey to our destination is wonderfully relaxed, the CaraOne can be easily navigated on the roads. I already know that this will be a brilliant holiday. Eventful, real and with the whole family. When arrived, we first have a breather and a snack.*

## LIVE RATHER CONSPICUOUSLY: STYLE TO WHOM STYLE IS DUE.

*My buddy and fitness freak Niki wants to take strong pictures for his new website. Well, he can have them. The special thing about this shooting: we are cruising around with the caravan as a mobile studio in the middle of the forest. Where better to stage massive muscle mass than in nature? To drive any caravan would of course be way too boring, so we are on the road with a vehicle that really suits us. Stylish, uncomplicated and a bit different. The CaraTwo knows best!*

With the CaraLoft we got to the Ammersee lake and to the foothills of the Alps to do sports and to gather inspiration for my next cookbook. To say that the journey was beautiful is an understatement. **#teamWEINSBERG** rocks!

@fabianfallend

The CaraTwo was our mobile studio for an outdoor photo shoot in the Bavarian Forest. A quite good one! Space and style, that's what I like. As well as being a part of **#teamWEINSBERG**, obviously.

The information on the delivery contents, measurements and weights as well as the appearance correspond to the knowledge at the time of printing (07/2019). We reserve the right to make changes on equipment, technical data, serial equipment and prices. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show optional equipment that is available at an extra charge or equipment features of prototypes/studies that do not conform to the serial status and in some cases will not be available as optional equipment. Colour deviations are print-technically possible. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised dealer. The decoration shown in the catalogue is not part of the equipment supplied. Please also note the comments in the current price list, in particular on weights, payload options and tolerances. Reprinting, even in extracts, is only permitted with the prior written permission of Knaus Tabbert GmbH. The illustrations with measurements shown in our catalogues are non-binding examples only. Measurements are only approximate values and are for general illustration purposes only; they do not represent guaranteed product characteristics. For exact measurements, please contact one of our authorised WEINSBERG trading partners. We reserve the right to change content at our discretion.
