# This makes our CUV special. Insights in working at WEINSBERG.

WEINSBERG DNA. Sounds powerful. It is. Anyone who builds box vans is not up to date. That's why we build CUV. The ingenious mixture of passion, experience and precision is in every CUV. And in each of our employees. They simply do everything to ensure that every detail fits. This means daily perfectionism. And regular endurance tests „on the road“. We think both are good.

HIGHLIGHT

LED lights with touch function

## Ingeniously thought out!

The breathable fabric covering on the side walls can absorb and release moisture which significantly minimises the formation of condensation water, e.g. in winter or when cooking with closed windows in comparison to other model series. However, this is not only super practical but also looks really good.

**152 cm lying surface in  
layouts with a transverse  
bed.** The largest lying surface in the  
CUV range with ergonomic mattresses.

**Full-body construction with back panels.** This ensures longevity and that no moisture can condense on the outer walls.

**Michal Flöring, Carpenter**  
37 years old, at WEINSBERG since 2016  
**Favourite WEINSBERG details:**  
Perfect workmanship

**Round profiles.** Specially developed to reduce the risk of injury at the edges and to create more space.

**Heating concept.** For a better heat distribution in the vehicle, the heating is centrally located under the dinette.

**Rail system.** Our ceiling cupboards have a continuous rail system for an increased torsional strength.

**Full metal handles with a tilt lock.** Clear contours and absolutely durable.

*Saving space for making room.*

With CUV, an efficient construction is the absolute be-all and end-all. With details such as an even loading floor, standard lashing rings and a folding function for the slatted frame for better use in everyday life, the CUV is designed for everyday use. The result: a compact vehicle with plenty of space.

## It's the technology that counts!

We strive for an optimal travel experience for our customers. That's why we are extremely careful in selecting our partners and only use what really convinces us. The Truma-iNet system is an example for that. The top quality speaks for itself and with the practical app, the heating and gas supply (optionally) can be easily controlled.

## Perfect vehicle construction.

Perfect vehicle construction. In order to pay attention to every detail when connecting the various elements, a lot of knowledge, skill and craftsmanship is needed. That is CUV competence!

**Favourite WEINSBERG detail:**  
unique sandwich floor construction

### Hot-air-circulated fresh water tank.

The 105 l water tank is integrated into the side wall above the wheel arch to save space and thus creates additional room in the load compartment.

**Sandwich construction.** The multi-layer structure and integral insulation and a total of 367% more contact surface on the body floor provide more stability and 69% more insulation on the body floor.

*It's our first time being on the road with a motorhome, so we are quite excited and full of anticipation. Our eight-day road trip takes us from Freyung via Cologne to Sylt. The CaraBus is perfect for this as you can actually drive as fast as with a car which is an absolute advantage with a distance of 1,300 km - and a co-driver who wants to reach the destination as quickly as possible.*

The optional styling packages 1 and 2 offer everything the design-loving heart desires, from aluminium rims to outstanding paint and interior concepts.

*Sun, beach and the sound of the sea... Today's plan is the ferry crossing to Sylt. While other passengers are waiting in their cars, we are comfortably lying in our transverse bed, checking our e-mails and having a short power nap. Honestly, our CaraBus is a real visual hit. It is really chic and even has aluminium rims - that verges on styling luxury!*

## YOU NEED BIG PLANS FOR MAKING GREAT EXPERIENCES.

*Once again we have big plans. Four countries in eight days, numerous kilometres and lots of stops worth seeing are on our itinerary. To do this, we require a suitable vehicle. However, I would rather describe the CaraTour as a suitable companion. It is sporty, it is fast and takes on any road, no matter how winding or narrow. You can pack everything you need on an extensive trip. In short: this CUV is tailor-made for our plans.*

## AMAZES BOTH HUMAN AND DOG.

*As you make your bed, you must lie on it. In our cosy „bedroom“ we like to stay in bed a little longer. There is more than enough space on the giant mattress to stretch out properly. Even with Ivy, who like every little dog has the special ability to make herself as wide and long as possible in our bed.*

You can comfortably retreat and relax in the rear bed. That's what the cocoon effect does!

Everything is always ready to hand in the storage compartment above the bed.

Everything in place: LED lighting with touch function

*The dinette quickly becomes a bed. Bad rhyme, ingenious function.*

## NATURAL BEAUTY WITH BRAINS.

*While I treat myself to an extensive shower, Denise uses the darkened bathroom window from the outside as a mirror for braiding her hair. My sweetheart is not only beautiful, but also quite clever.*

Beautifully shaped. The window roller blind disappears behind the trim when it's not needed.

**The clever room concept is pure refreshment.** There is a rotating cassette toilet with electric pump and a stylish shower tray with slip protection in sand dune haptics.

There's unlimited storage space hidden behind the straight storage compartments.

- 1.** A clever detail: easily accessible foldable compartment for toilet paper.
- 2.** Compartments integrated into the wall create a modern design.
- 3.** Easy to clean and with rounded edges: the room-wide washbasin.

## LOOKING FOR THE PERFECT RISOTTO

Finally a break, finally out again! Anne and I have been looking forward to a few relaxed days for a long time. Our plan: to the Ammersee lake and Alpine foothills in the CaraLoft. Not that far away and therefore perfect for a short weekend trip. On the way I can grab some ideas for my new outdoor cookbook.

NO PLANS ARE MADE WITHOUT  
REFRESHMENT AND COFFEE

*As a chef, I have my demands in terms of holiday catering, already during breakfast and even when we are travelling with the motorhome. But first we need a few cups of pick-me-ups. Thanks to the 3-flame cooker we don't have to wait long for it. After barely three minutes the start into the day is perfect!*

2. Accessible from the inside and outside - storage space under the bed.

*The EvoPoreHRC mattress provides a healthy sleep as a standard feature.*

EVEN AS AN ACTIVE OUTDOOR FAN  
I NEED SOME SLEEP!

Anne and I are really exhausted but very happy. Together we make ourselves comfortable in a cuddly bed. I am glad that we have such good mattresses: outdoor is brilliant, but without a restful night's sleep I turn into a grumpy yeti.

You sleep separately in the 650 MEG layout, but not alone.

The transverse double bed of the 550 MG offers full size despite the short layout.

Brings additional sleeping space. Another bed can be created out of the dinette.

Plenty of space in the ceiling cupboards as well.

## Dinette and Cooking

The balanced room concept encourages you to cook and relax.

The 3-flame cooker with glass cover and the stainless steel sink invite you to cook.

*The CaraLoft also shows its size in terms of space in the dinette and kitchen.*

They provide space and light: the ceiling cupboards above the dinette and their LED spots.

Additional seating on the longitudinal bench of the 650 MF

The rotatable original Fiat captainchair seats transform the dinette into a comfortable seating group (available in the Fiat package).

## LET THE KITCHEN GAMES BEGIN

Today on the menu: something savoury from the camping kitchen. Saltimbocca with risotto on the 3-flame cooker is an excellent choice. The lighting in the kitchen as well as in the dinette is top - after all, the dish should also be visually pleasing.

The table can be extended, positioned differently and used as an additional work surface in the kitchen.

## Bathroom

1. In the mirror cupboard of the 600 MF and 650 MF hygiene articles can be stored perfectly.

freedom of movement is

## OUTDOOR-FAN AND WIMP

Cooling down in the creek is quite nice but washing in it as well? No, thanks! I'll rather have a warm shower. That's exactly the right thing after all the sports. Soap, toothbrush and co. is quickly to the hand. But first, I let Anne go ahead.

## THE DESIRE TO TRAVEL RUNS IN THE FAMILY.

*Fun and safety for the little ones.*

Sharing experiences with your loved ones - what could be better? For this very reason, all WEINSBERG motorhome and caravan layouts are designed for comfortable travel for the whole family. CaraKids adds an icing on the cake and consciously orients to the wishes and needs of

the youngest passengers. Everyone benefits from this: adults enjoy the peace of mind that their sweethearts are safe on board. And the children love the age-appropriate possibilities to let their imagination and energy run wild. Sounds like a lot of fun? It is!

With the CaraLoft we got to the Ammersee lake and to the foothills of the Alps to do sports and to gather inspiration for my next cookbook. To say that the journey was beautiful is an understatement.  
**#teamWEINSBERG** rocks!

With the CaraCompact, we just set off. The driving feeling is awesome, the space is just the same. To belong to the **#teamWEINSBERG** is simply mega!
